How to Deal with Negative Electronic Word-Of-Mouth? Anonym, 2011-09-14 Seminar paper from the year 2011 in the subject Business economics - Marketing, Corporate Communication, CRM, Market Research, Social Media, grade: 1,7, University of Münster, language: English, abstract: In today's virtual era, the power of word-of-mouth has grown dramatically. Online customer-to-customer articulations have been proven to impact consumer attitudes and behavior and have therefore direct impact on a product's success and a company's performance. The aim of this paper is to approach a response to the question how companies should deal with negative electronic Word-of-Mouth (eWOM). After a brief introduction to prior research of eWOM and its valence, the development and consequences of negative online articulations will be discussed. Following the relevant eWOM and company parameters are identified that determine the impact of negative eWOM on a brand. The first step in approaching a response decision which is tracing and measuring online articulations is explained and resulting coping strategies in form of direct and indirect reactions to negative eWOM are illustrated. Finally, the paper explains how companies can guard against negative eWOM.

Literacy Online Julie M. Wood, 2004 In recent years, while the computer has gone from a schoolhouse novelty to an invaluable teaching tool, Julie Wood has researched how twenty-first century technologies can help all students achieve full literacy. In Literacy Online, she demonstrates how strategically employing your classroom's computer can help you find new solutions to a perennial challenge faced by every elementary teacher: engaging and encouraging struggling students while developing their reading and writing skills. All you need to do is get students to the keyboard, then Literacy Online's practical suggestions for using computers will develop underachieving students' literacy skills in a project-based environment rich with meaning. Wood demonstrates how digital-based lessons encourage growth in seven key literacy characteristics: word recognition fluency comprehension vocabulary reading and writing across the curriculum process Writing motivation. Literacy Online shares concrete ideas for teaching and planning in support struggling students as well as guidelines for evaluating the helpfulness of websites and software. In addition, a companion website (<http://www.heinemann.com/literacyonline>) features reproducible brainstorming sheets and links to successful model programs across the country where the literacy abilities of students have improved dramatically thanks to the integration of technology. Best of all, Literacy Online is written for any teacher. Technophobes will begin helping emerging readers overcome their difficulties on Monday morning with easy-to-use tips that capitalize on basic skills like word processing, browsing the Internet, and communicating by email, while technophiles will find innovative options to improve students' reading and writing sooner by extending into web design, the use of a variety of computer gadgetry, and even speech recognition software.
