The (Mis)Representation of Queer Lives in True Crime Abbie E. Goldberg,Danielle C. Slakoff,Carrie L. Buist,2023-08-25 This book examines the representation and misrepresentation of queer people in true crime, addressing their status as both victims and perpetrators in actual crime, as well as how the media portrays them. The chapters apply an intersectional perspective in examining criminal cases involving LGBTQ people, as well as the true crime media content surrounding the cases. The book illuminates how sexual orientation, gender, race, and other social locations impact the treatment of queer people in the criminal legal system and the mass media. Each chapter describes one or more high-profile criminal cases involving queer people (e.g., the murders of Brandon Teena and Kitty Genovese; serial killer Aileen Wuornos; the Pulse nightclub mass shooting). The authors examine how the cases are portrayed in the media via news, films, podcasts, documentaries, books, social media, and more. Each chapter discusses not only what is visible or emphasized by the media but also what is invisible in the accounting or societal focus surrounding the case. Lesser-known (but similar) cases are used in the book to call attention to how race, gender, sexuality, sexual orientation, social class, and/or other features influence the dominant narrative surrounding these cases. Each chapter addresses teachable moments from each case and its coverage, leaving readers with several considerations to take with them into the future. The book also provides media resources and supplemental materials so that curious readers, including scholars, students, content creators, and advocates, can examine the cases and media content further. The book will appeal to scholars and students of criminology, psychology, sociology, law, media studies, sexuality studies, and cultural studies, and people with an interest in true crime.

The Force-Free Dilemma Nicola Ferguson,2024-03-01 Dog training methodology is an increasingly hotly contested topic. A number of vocal trainers insist that dogs should be instructed through exclusively positive reinforcement, and that training should be totally force-free. Popularized through social media, the force-free training movement has grown into a

lucrative, billion-dollar industry, but the consequences may outweigh the positives. This book examines the current state of dog training and discusses ethical alternatives to force-free methods. Chapters cover the history of dog training, common myths, equipment, and the merits of balanced training methods that don't dogmatically avoid occasional force.

The Starving Artist Myth Mark J. Jones,2024-08-20 Creative sector jobs are driving our economy and offer a viable career path for today's youth. Careers and business opportunities in creative industries offer flexibility, variety, and security. Why then do people hesitate to go into them? A belief in the myth of the starving artist, which conjures images of penniless writers and artistic bohemians, is to blame. The myth leads many away from choosing a path they would love in favour of more traditional fields. Years later, they may come to regret that choice. Mark J. Jones shows that the persistent stereotype of the starving artist is not just costing youth and working-aged people the opportunity to explore satisfying careers, it could also cost Canada's economy in lost opportunities. Through education and entrepreneurial strategy, artists, musicians, writers, media makers, designers, actors, and others can come to understand how to reach audiences and customers in a global market. In *The Starving Artist Myth*, Jones erases any remaining doubt about the opportunities in the creative economy by getting at the origin of the starving artist stereotype, demonstrating the economic resiliency of the sector, and delving into the strategies for achieving career success.

The British Civil Service Janice Morphet,2025-05-28 Taking account of its evolution in recent decades, this book provides an up-to-date account of the role of the Civil Service in the UK. The book offers a much-needed re-examination of the function and role of the Civil Service and considers the ways in which it has changed in response to today's pressures. It examines the changing relationships between ministers, civil servants and special advisers (spADs), as well as investigating challenges to the principles of the Civil Service such as service outsourcing, COVID-19 responses and Brexit. Asking whether the practices of the past are effective for the future, this book is a vital resource for undergraduate and postgraduate students of UK politics, public administration and public sector management.
