The Presidential Character James Barber, 2019-10-17 A book entitled *The Presidential Character* is more timely and necessary than ever. This new issue of James David Barber's classic work appears almost 50 years after its first publication and yet reads like a roadmap to the 2020 presidential election. Its subtitle, "Predicting Performance in the White House," is an apt reflection on the election of 2016. With a revised and updated foreword by George C. Edwards III that brings in the Trump Administration, this book argues that patterns in a person's character, world view, and political style can allow us to anticipate his or her performance as president. How would Barber have categorized Donald J. Trump, who appears to defy every presidential type and norm? This question suggests one of the most provocative and appealing reasons for students, scholars, and voters to re-read *The Presidential Character* at this particular juncture. What should we look for in a president? This text offers explanations and predictions of the performance of past presidents and presidential candidates with many cautionary tales looking forward. Features Presents a revised and updated foreword by presidential scholar George C. Edwards III, Distinguished Professor of Political Science at Texas A&M University, that includes the advent of the Trump Administration and highlights the book's classic and enduring contributions. Includes predictions of presidential performance

from Nixon to Bush. Analyzes the media's role in providing information about the political candidates and in shaping public opinion of them. Draws on historical, biographical, and psychological research to help voters make judicious choices in determining the country's highest leaders. Encourages citizens to be actively involved scholars, critics, and participants in their government.

The Presidential Character James David Barber, 2017-10-03 Dr. James David Barber's well-known, provocative examination of who has the potential to be voted into the highest office in the land - and why - is being reissued as the newest addition to the Longman Classics in Political Science series. Arguing that patterns in a person's character, world view, and style can allow us to anticipate their performance as president, *The Presidential Character* offers explanations and predictions of the performance of presidents and presidential candidates. Drawing on historical, biographical, and psychological research, Dr. Barber hoped to help voters make judicious choices in determining the country's highest leaders. Revisiting this classic work in today's important presidential election season begs a reconsideration of Barber's probing and enduring query, What should we look for in a president?

Just As I Am Billy Graham, 2007-07-24 Hailed as the world's preacher, Billy Graham has enjoyed a career that has spanned six decades and his ministry of faith has touched the hearts and souls of millions. In *Just As I Am* Graham reveals his life story in what the Chicago Tribune calls a disarmingly honest autobiography. Now, in this revised and updated edition, we hear from this lion in winter (Time) on his role over the past ten years as America's pastor during our national crisis of the Oklahoma bombing and 9/11; his knighthood; his passing of the torch to his son, Franklin, to head the organization that bears his name; and his commitment to do the Lord's work in the years of his and his wife Ruth's physical decline.
