British Museum

The Brothers Grimm and the Making of German Nationalism Jakob Norberg, 2022-04-14 Vividly reconstructing the political ideas of the Brothers Grimm, Jakob Norberg transforms our image of history's most famous folklorists.

Hitler's Empire Mark Mazower, 2013-03-07 The powerful, disturbing history of Nazi Europe by Mark Mazower, one of Britain's leading historians and bestselling author of *Dark Continent* and *Governing the World* Hitler's Empire charts the landscape of the Nazi imperial imagination - from those economists who dreamed of turning Europe into a huge market for German business, to Hitler's own plans for new transcontinental motorways passing over the ethnically cleansed Russian steppe, and earnest internal SS discussions of political theory, dictatorship and the rule of law. Above all, this chilling account shows what happened as these ideas met reality. After their early battlefield triumphs, the bankruptcy of the Nazis' political vision for Europe became all too clear: their allies bailed out, their New Order collapsed in military failure, and they left behind a continent corrupted by collaboration, impoverished by looting and exploitation, and grieving the victims of war and genocide. About the author: Mark Mazower is Ira D. Wallach Professor of World Order Studies and Professor of History Professor of History at Columbia University. He is the author of *Hitler's Greece: The Experience of Occupation, 1941-44*, *Dark Continent: Europe's Twentieth Century*, *The Balkans: A Short History* (which won the Wolfson Prize for History), *Salonica: City of Ghosts* (which won both the Duff Cooper Prize and the Runciman Award) and *Governing the World: The History of an Idea*. He has also taught at Birkbeck College, University of London, Sussex University and Princeton. He lives in New York.

Comparative Studies in Modern European History Miroslav Hroch, 2023-05-31 The two main themes of this selection of articles by Professor Hroch are the process of nation formation during the 19th century, especially in the case of 'smaller' European nations, i.e. those without statehood, and the social and political aspects of the transition from a pre-modern, feudal and traditional society to a modern capitalist one and the uneven pace of this change in the West and East of Europe. The author argues that we cannot study the process of nation-formation as a mere product of some nebulous 'nationalism'; we have to understand it as a part of social and cultural transformation, as a component of modernization of European societies, even though this modernization did not occur synchronically and had its regional specificities. Many of the papers focus specifically on the Czech case, but throughout there is an emphasis on comparative history.

The Wars of German Unification Dennis Showalter, 2015-07-30 The Wars of German Unification is the definitive account of the three of the most decisive conflicts in the history of modern Europe. In this new edition, Dennis Showalter offers a thoroughly updated look at the wars and their context that will be invaluable for those interested in the military, social and political history of the period. Showalter explores how the Schleswig-Holstein conflict of 1864; the 'Six Weeks War' of 1866; and the Franco-Prussian War of 1870-71 fundamentally altered the balance of power in 19th-century Europe. They marked the establishment of Prussian hegemony in central Europe, the creation of the Bismarckian Reich in 1871, the reduction of Habsburg influence and the collapse of Napoleon III's Second Empire. The Wars of German Unification offers a balanced and incisive account of the wars, their origins and their consequences, and firmly embeds these conflicts in their political, ideological and military contexts. This volume traces the transition from the 'cabinet wars' of the 19th century and shows how the conflicts that made up the wars of German unification provided the foundation for the birth of modern warfare.

Geschichte Der Politischen Parteien in Deutschland Ludwig Bergsträsser, 1928

The German Public Mind in the Nineteenth Century Frederick Hertz, 2019-06-26 Originally published in 1975, this volume covers the period from the age of Napoleon to the dismissal of Bismarck – a period of national liberation, of revolution, the development of political movements, of parties and the press and the achievement of nationhood. The book is a history of ideals and ideologies, of the beliefs that the people held of themselves, and of others, and of the principles that inspired statesmen, reformers and their adversaries.
