Envisioning Diplomacy Mayu Fujikawa, 2025-10-14 In the late sixteenth and early seventeenth centuries, Japan sent its first diplomatic delegations to visit the popes and dignitaries of Europe. European artists portrayed these historic ambassadors—the Tenshō embassy (1582-90) and the Keichō embassy (1613-20)—in numerous oil paintings, frescoes, drawings, and prints. *Envisioning Diplomacy* analyzes these images—including newly discovered and lost works—within their cross-cultural and diplomatic contexts. Drawing on extensive and geographically expansive archival research, art historian Mayu Fujikawa investigates how the embassies were received and either assimilated or differentiated at European courts. She demonstrates how delegates' gifts to their hosts, their Europeanized kimonos, and the Western clothes they wore while traveling functioned as tools of soft diplomacy. Fujikawa also shows how printed materials functioned much as news does today, promoting the embassies widely and conveying information about the guests and their striking physical appearance. *Envisioning Diplomacy* offers a fascinating look at the political, social, and cultural meanings of visual materials created around the embassies and should be of great interest to scholars, students, and general readers interested in early modern European art and history, costume history, diplomatic history, and Japanese and global studies.

Rereading Travellers to the East Beatrice Falcucci, Emanuele Giusti , Davide Trentacoste, 2022-07-06 *Rereading Travellers to the East* aim to offer a new perspective on travel literature, the question of nation-building and the history of orientalism. *Rereading Travellers* focuses on the rereadings to which early modern travel literature about Asia has been subjected by different actors involved in the political, economic, cultural and intellectual life of post-unification Italy. The authors highlight how this literature has been reinterpreted and reused for political and ideological purposes in the context of the formation and reformation of collective identities, from the Risorgimento to the Fascist regime and the early republic. By showing the potential of the notion of rereading, the volume outlines a history of the political and cultural legacy of travel literature which goes well beyond Italy.

Changing Hearts Raphaële Garrod, Yasmin Haskell, 2019-01-21 This volume of essays contributes to our understanding of

the ways in which the Jesuits employed emotions to “change hearts”—that is, convert or reform—both in Europe and in the overseas missions. The early modern Society of Jesus excited and channeled emotion through sacred oratory, Latin poetry, plays, operas, art, and architecture; it inflamed young men with holy desire to die for their faith in foreign lands; its missionaries initiated dialogue with and ‘accommodated’ to non-European cultural and emotional regimes. The early modern Jesuits conducted, in all senses of the word, much of the emotional energy of their times. As such, they provide a compelling focus for research into the links between rhetoric and emotion, performance and devotion, from the sixteenth through eighteenth centuries.
