Ignacio Ramonet,Fidel Castro

Fidel Castro: My Life Ignacio Ramonet,Fidel Castro,2008-03-11 The intimate and highly revealing life story of the world's longest-serving, most charismatic, and controversial head of state in modern times. Fidel Castro was a dictatorial pariah to some and a hero and inspiration for many of the world's poor, defiantly charting an independent and revolutionary path for Cuba over nearly half a century. Numerous attempts were made to get Castro to tell his own story. But only in the twilight of his years was he prepared to set out the details of his remarkable biography for the world to read before his death in 2016. This book is nothing less than his living testament. In these pages, Castro narrates a compelling chronicle that spans the harshness of his elementary school teachers; the early failures of the revolution; his intense comradeship with Che Guevara and their astonishing, against-all-odds victory over the dictator Batista; the Cuban perspective on the Bay of Pigs and the ensuing missile crisis; the active role of Cuba in African independence movements (especially its large military involvement in fighting apartheid South Africa in Angola); his relations with prominent public figures such as Boris Yeltsin, Pope John Paul II, and Saddam Hussein; and his dealings with no less than ten successive American presidents, from Eisenhower to George W. Bush. Castro talks proudly of increasing life expectancy in Cuba; of the half million students in Cuban universities; and of the training of seventy thousand Cuban doctors nearly half of whom work abroad, assisting the poor in Africa, Asia, and Latin America. He confronts a number of thorny issues, including democracy and human rights, discrimination toward homosexuals, and the presence of the death penalty on Cuban statute books. Along the way he shares intimacies about more personal matters: the benevolent strictness of his father, his successful attempt to give up cigars, his love of Ernest Hemingway's novels, and his calculation that by not shaving he saves up to ten working days each year. Drawing on more than one hundred hours of interviews with Ignacio Ramonet, a knowledgeable and trusted interlocutor, this spoken autobiography will stand as the definitive record of an extraordinary life lived in turbulent times.

Fidel Castro Fidel Castro,Jeffrey M. Elliot,Mervyn M. Dymally,1986 Takes up U.S.-Cuba relations, Cuba's role in the fight against apartheid rule in South Africa, the overthrow of the Grenada revolution, and the social consequences of the foreign debt in Latin America and the Caribbean.

History Will Absolve Me Brian Latell,2019-02-12 The CIA analyst who tracked Castro for decades explores the mind and motivations of the man who governed Cuba for nearly half a century. On trial in Santiago for leading a bloody assault on

the city's Moncada garrison, young revolutionary leader Fidel Castro uttered a phrase in court that would come to serve as a rallying cry for his 26th of July Movement and his regime thereafter: History will absolve me. Despite the fact that his methods resulted in great loss of life on both sides, Castro never wavered in his belief that in the final reckoning his life's work would be vindicated—his violence necessary in bringing a new government to Cuba and a new political model to the developing world. For decades, CIA analyst Brian Latell tracked Castro relentlessly—getting to know his habits, his fears, and the passions that drove him. In this book, the author of *After Fidel* and *Castro's Secret* steps from the shadows to paint a complex and nuanced portrait of the man he came to know better than any other intelligence target—revealing the mind and motivations of one of the most mercurial, passionate, and dominating leaders of the twentieth century. One of America's foremost Cuba analysts. —George J. Tenet, former CIA director

Fidel Castro Talks with Intellectuals Fidel Castro, 2016-12-23 The warmest moments of a cool afternoon on February 10, 2012 when Hall Two at the Havana Convention Center filled with people have by now vanished. In the audience there were 69 visitors from 21 countries and 48 were from Cuba. Most of them were writers who had been invited to the Twenty-First International Havana Book Fair and intellectuals representing diverse academic and scientific disciplines, called together one and all by the Network In Defense of Humanity to take part in a meeting For Peace and the Preservation of the Environment. Fidel Castro entered with surprising effervescence and after a friendly gesture of greeting to the group, he took his seat between Abel Prieto, Minister of Culture and Zuleica Romay, President of the Cuban Book Institute (ICL, in its Spanish acronym) and the recipient of the Casa de las Américas award, who introduced the most prominent of the guests and commented about the group in general terms. The exchange of ideas lasted for more than nine hours, initiated by the ICL president's reflective introduction on the reason for the meeting: to take up again the alarm articulated by Fidel twenty years ago at the Earth Summit about the risk of extinction threatening the human species, today more serious than it was two decades ago. With the presence of Adolfo Pérez Esquivel of Argentina, recipient of the Nobel Peace Prize, and Sergio Pitol of Mexico, recipient of the 2005 Cervantes Prize, the dialogue revolved around this and other urgent topics. Those present found Fidel to be very personal; he received them with the affection that is only bestowed upon cherished companions along the trip through life. He passed on to them his sense of anguish for the future of humankind, but only after having listened to them with the closest of attention. Living sources, where he might quench his insatiable thirst for knowledge; critical spirits, with whom to confirm his most profound worries; while each one of them presented their ideas, we could follow the path the Cuban leader's thoughts were taking by observing his expressions, by that distinctive gesture he has of pointing his index finger to frame his face or to distractedly stroke his beard.

Political, Economic and Social Thought of Fidel Castro Fidel Castro, 1959

Fidel Castro Volker Skierka, 2014-09-04 Fidel Castro is one of the most interesting and controversial personalities of our

time - he has become a myth and an icon. He was the first Cuban Caudillo - the man who freed his country from dependence on the USA and who lead his people to rediscover their national identity and pride. Castro has outlived generations of American presidents and Soviet leaders. He has survived countless assassination attempts by the CIA, the Mafia, and Cubans living in exile. He has become one of the greatest politicians of the 20th Century. His biography, and the history of his country exemplify the tensions between East and West, North and South, rich and poor. As Castro's life draws to a close, the question as to what will become of Cuba is more important than ever. Will Castro open Cuba to economic reform and democratization, or stick to his old slogan socialism or death? In this remarkable, up-to-date reconstruction of Castro's life, Volker Skierka addresses these questions and provides an account of the economic, social, and political history of Cuba since Castro's childhood. He draws on a number of little-known sources, including material from the East German communist archives on Cuba, which were until recently inaccessible. This is an exciting, painstakingly researched, and authoritative account of the life of one of the most extraordinary political figures of our time.

My Life Fidel Castro Fidel Castro, Ignacio Ramonet, 2008-06-24 The acclaimed autobiography of Fidel Castro, one of the towering political figures of our age, who dominated both Cuba and the world stage for over half a century. Here Castro tells his story in full for the first time, speaking openly about everything from his parents and earliest influences to his imprisonment, guerrilla war and the Cuban revolution and on to the Bay of Pigs, the missile crisis and his relationship with Che Guevara. He also remembers the people he knew, from John F. Kennedy to Ernest Hemingway. Whatever your views on Castro are, this is an essential record of an incredible life - and even more extraordinary times. 'Cubaphiles are all the richer for this book ... Castro's prodigious gifts are well displayed: his formidable erudition, steely discipline, epic curiosity and his astute grasp of history' Financial Times 'Castro's life has been extraordinary and he can tell a good story' Evening Standard

The Autobiography of Fidel Castro Norberto Fuentes, 2010 This brilliant, satirical, and utterly captivating autobiography of the Cuban leader features Castro's true feelings about Che Guevara and his philosophy on murder, state secrets, and his legacy.

Fidel Castro Captivating History, 2019-12-22 Castro was more than just a politician. His is a story that involves heroic voyages through turbulent oceans, affairs with young women from all over the world, spies, assassins, betrayal, conquest, riots, and battles. He was controversial, inimitable, cruel, courageous, stubborn, disrespectful of human rights, and utterly indomitable.

Fidel Castro Thomas M. Leonard, 2004-06-30 Fidel Castro has ruled Cuba for over 40 years, yet he remains one of the world's most complex leaders. Rebellious at an early age, he attempted to organize a strike of sugar workers against his father as a teenager. By his early twenties, he made it clear that he was an opponent of the dictatorship of Fulgencio Batista and wanted a social change for Cuba. His leadership of the successful revolution in 1959 led him to political power behind

the support of the Cuban people. For decades critics have predicted his fall from power, but he remains the uncontested leader. Castro's life and career are described in this biography, including his childhood, family, education, and political endeavors. Readers will learn of his attendance at Havana Law School, his imprisonment, his rise to political power, along with history topics and events such as communism, the Bay of Pigs invasion, and the Cuban missile crisis. A timeline provides a comprehensive list of important events in his life, and a bibliography covers print and electronic sources for further research.

Fidel Castro and the Cuban Revolution Carlos Alberto Montaner, 2017-10-24 Perhaps the foremost social analyst and journalist on Cuban affairs, Carlos Alberto Montaner has written a definitive study of the Cuban regime from the vantage point of the Cuban dictator. This is not simply a history of Cuban communism but rather a personal history of its leader, Fidel Castro. Montaner's extraordinary knowledge of the country and its politics prevents the work from becoming a psychiatric examination from afar. Indeed, what personal irrationalities exist are seen as built into the fabric of the regime itself, and not simply as a personality aberration. Fidel Castro and the Cuban Revolution is not an apologia for past United States involvement in Cuban affairs. The author is severe in his judgments of such participation. Nor is he sparing in his sense of the betrayal of the original purposes of the Revolution of 1959 manifested in the character and policies of Fidel Castro. As the work progresses from a study of the victims to a study of the beneficiaries of the Cuban Revolution, it leaves the reader with a deep sense of the tragedy of a revolution betrayed, but not one that could have easily been avoided. Montaner is an exile like the great Alexander Herzen before him. His decision to live in Europe was made by choice, not of necessity. He sees his role as critical analyst, not as restoring the status quo ante. A most valuable aspect of this book is its intimate reevaluation of Fulgencio Batista. Whatever the reader's judgment of Montaner's work, no one can read it and be dismissive of the effort. It is a work of intimacy even though written in exile--and hence must be viewed as an important effort to understand the character of the man and regime who have changed the course of Cuban history in our times.

The Declarations of Havana Fidel Castro, 2018-11-27 In response to the American administration's attempt to isolate Cuba, Fidel Castro delivered a series of speeches designed to radicalize Latin American society. As Latin America experiences more revolutions in Venezuela and Bolivia, and continues to upset America's plans for neo-liberal imperialism, renowned radical writer and activist Tariq Ali provides a searing analysis of the relevance of Castro's message for today.

Comrade of the Revolution FIDEL. CASTRO, 2021-09 'You cannot kill ideas. Fidel, for the Third World, was not merely another leader. He was the mirror of its aspirations. That mirror will never be shattered.' - From the Introduction Fidel Castro's speeches were classrooms for the revolution. Through these speeches, Fidel came before the people to explain the conjuncture and problems the government faced with honesty and by putting them into historical context. Each of his speeches is a tour de force of explication, a history lesson, a sociology lesson, a political lesson, and even a lesson on

literature. Fidel reached back to revolutionaries from an earlier time and dug into the data produced by the government. The traditions, experiences, and oral histories of national liberation and Marxism-Leninism articulated by Fidel came alive as he spoke to new audiences engaged in building a socialist experiment just miles away from the heart of the empire. Fidel Castro launched a battle of ideas in defense of socialist thought and the permanent mobilization of the people's consciousness. The speeches collected in this book carry forward the battle of ideas that framed the last decades of Fidel's life until he left us on 26 November 2016 at the age of ninety.

Fidel Castro Hourly History, 2017-09-27 When Fidel Castro died on November 25, 2016, it seemed as if much of the world didn't quite know what to make of the revolutionary leader. The images of loyal Cubans in Havana openly crying in the streets stood in stark contrast to the Cuban exiles and their descendants just 90 miles away in Miami, Florida. While Cuban citizens were mourning, Cuban Americans were celebrating; they were laughing, dancing, and drinking to celebrate Castro's demise.
