## Nicholas Pegg

Anonymous Sounds Nessa Johnston, Jamie Sexton, Elodie A. Roy, 2025-01-09 This cross-disciplinary collection provides the first comprehensive study of library music practices in the 1960s and 1970s. Library music was inexpensive, off-the-shelf music available to license for a small fee. It was widely used in television and film as a cheaper alternative to commissioned soundtracks. The book pays attention to the different individuals, groups, organisations and institutions involved in making library music, as well as to its transnational sites of production (from continental recording studios to regional cutting rooms). It addresses questions of distributed creativity, collective authorship, and agency. Combining empirical and theoretical research, the book unveils the modus operandi of a highly secretive yet enduringly significant cultural industry. By drawing attention to the cultural ubiquity and intersectionality of library music, the collection also shifts emphasis from individual film and TV composers to the invisible community of music publishers, writers, and session musicians. It argues that the latter were collectively responsible for fashioning much of the sonic identity of 1960s and 1970s film and television. As well as providing a nuanced understanding of historical library music cultures, the collection shows how they continue to inform contemporary audiovisual cultures.

*Double Lives: Film Composers in the Concert Hall* James Wierzbicki, 2019-02-08 *Double Lives: Film Composers in the Concert Hall* is a collection of fifteen essays dealing with 'iconic' film composers who, perhaps to the surprise of many fans of film music, nevertheless maintained lifelong careers as composers for the concert hall. Featured composers include Erich Wolfgang Korngold, Franz Waxman, Miklós Rózsa, Bernard Herrmann, Nino Rota, Leonard Rosenman, and Ennio Morricone. Progressing in chronological order, the chapters offer accounts of the various composers' concert-hall careers and descriptions of their concert-hall styles. Each chapter compares the composer's music for films with his or her music for the concert hall, and speculates as to how music in one arena might have affected music in the other. For each composer discussed in the book, complete filmographies and complete works lists are included as appendices. *Double Lives: Film Composers in the Concert Hall* is accessible for scholars, researchers, and general readers with an interest in film music and concert music.

Life and Death on the New York Dance Floor, 1980-1983 Tim Lawrence, 2016-09-15 As the 1970s gave way to the 80s, New York's party scene entered a ferociously inventive period characterized by its creativity, intensity, and hybridity. Life

and *Death on the New York Dance Floor* chronicles this tumultuous time, charting the sonic and social eruptions that took place in the city's subterranean party venues as well as the way they cultivated breakthrough movements in art, performance, video, and film. Interviewing DJs, party hosts, producers, musicians, artists, and dancers, Tim Lawrence illustrates how the relatively discrete post-disco, post-punk, and hip hop scenes became marked by their level of plurality, interaction, and convergence. He also explains how the shifting urban landscape of New York supported the cultural renaissance before gentrification, Reaganomics, corporate intrusion, and the spread of AIDS brought this gritty and protean time and place in American culture to a troubled denouement.

**Complete UK Hit Albums 1956-2005** Graham Betts,2005 The most complete guide to every artist and album that has ever charted in the UK Album chart, with details on over 14,800 albums and biographies on every one of the 3,180 acts that have appeared since the chart first started in 1958. From a Top Ten in 1958, the album chart has grown in both size and stature over the years. Increased to a Top Twenty in 1960, the chart grew to a Top 30 by 1966, a Top 40 later that year, a Top 50 in 1971, a Top 75 in 1978 and a Top 100 in 1981. By 1989, when compilation albums and soundtracks were a major factor in the chart, a decision was taken to produce two charts; a Top 75 artist chart and a Top 20 compilation chart. Every single entry on all these charts is included in Collins Complete UK Hit Albums. 3,180 acts have registered just over 11,300 hit albums; also listed are the approximately 3,500 soundtracks and compilation albums that have also hit the charts. Hit Singles: a brief biography of each of the 3,180 or so artists who have had hit albums, details of BPI awards, Platinum Europe awards and RIAA Diamond awards and details of BRIT, Grammy awards and US Number Ones. Just as with the single chart, the album chart is not without its peculiarities and so you will learn of the album that took nearly four years to hit the number one spot, the album by Sigur Ros that had no title as opposed to that by Fiona Apple which registered the longest title (all 89 words), the artists whose chart career consists of a single week at position 100 as opposed to Fleetwood Mac's *Rumours* which has spent 477 weeks on the chart, including one week at number one.
