Fingerprints of the Gods Graham Hancock, 2025-06-17 Could the story of mankind be far older than we have previously believed? Using tools as varied as archaeo-astronomy, geology, and computer analysis of ancient myths, Graham Hancock presents a compelling case to suggest that it is. Graham Hancock is featured in the popular *Ancient Apocalypse*, a Netflix original docuseries. Hancock structures his arguments through the scientific method. . . . He's asking the right questions. . . . If it's true, then it can significantly change the course of history and our understanding of our civilisations. —Medium In *Fingerprints of the Gods*, Hancock embarks on a worldwide quest to put together all the pieces of the vast and fascinating jigsaw of mankind's hidden past. In ancient monuments as far apart as Egypt's Great Sphinx, the strange Andean ruins of

Tiahuanaco, and Mexico's awe-inspiring Temples of the Sun and Moon, he reveals not only the clear fingerprints of an as-yet-unidentified civilization of remote antiquity, but also startling evidence of its vast sophistication, technological advancement, and evolved scientific knowledge. A record-breaking #1 bestseller in Britain, *Fingerprints of the Gods* contains the makings of an intellectual revolution, a dramatic and irreversible change in the way that we understand our past—and so our future. And *Fingerprints of the Gods* tells us something more. As we recover the truth about prehistory, and discover the real meaning of ancient myths and monuments, it becomes apparent that a warning has been handed down to us, a warning of terrible cataclysm that afflicts the Earth in great cycles at irregular intervals of time—a cataclysm that may be about to recur.

***Fingerprints of the Gods*** Graham Hancock, 1995 An exciting journey of discovery that spans continents and centuries, seeking evidence of humanity's first great civilization.

***Magicians of the Gods*** Graham Hancock, 2015-11-10 Graham Hancock's multi-million bestseller *Fingerprints of the Gods* remains an astonishing, deeply controversial, wide-ranging investigation of the mysteries of our past and the evidence for Earth's lost civilization. Twenty years on, Hancock returns with the sequel to his seminal work filled with completely new, scientific and archaeological evidence, which has only recently come to light... Near the end of the last Ice Age 12,800 years ago, a giant comet that had entered the solar system from deep space thousands of years earlier, broke into multiple fragments. Some of these struck the Earth causing a global cataclysm on a scale unseen since the extinction of the dinosaurs. At least eight of the fragments hit the North American ice cap, while further fragments hit the northern European ice cap. The impacts, from comet fragments a mile wide approaching at more than 60,000 miles an hour, generated huge amounts of heat which instantly liquidized millions of square kilometers of ice, destabilizing the Earth's crust and causing the global Deluge that is remembered in myths all around the world. A second series of impacts, equally devastating, causing further cataclysmic flooding, occurred 11,600 years ago, the exact date that Plato gives for the destruction and submergence of Atlantis. The evidence revealed in this book shows beyond reasonable doubt that an advanced civilization that flourished during the Ice Age was destroyed in the global cataclysms between 12,800 and 11,600 years ago. But there were survivors - known to later cultures by names such as 'the Sages', 'the Magicians', 'the Shining Ones', and 'the Mystery Teachers of Heaven'. They travelled the world in their great ships doing all in their power to keep the spark of civilization burning. They settled at key locations - Gobekli Tepe in Turkey, Baalbek in the Lebanon, Giza in Egypt, ancient Sumer, Mexico, Peru and across the Pacific where a huge pyramid has recently been discovered in Indonesia. Everywhere they went these 'Magicians of the Gods' brought with them the memory of a time when mankind had fallen out of harmony with the universe and paid a heavy price. A memory and a warning to the future... For the comet that wrought such destruction between 12,800 and 11,600 years may not be done with us yet. Astronomers believe that a 20-mile wide 'dark' fragment of the original giant comet remains hidden within its debris stream and threatens the Earth. An astronomical message encoded at Gobekli Tepe, and in the Sphinx and the pyramids of Egypt, warns that the 'Great Return' will occur in our time...

*Summary of Graham Hancock's Fingerprints of the Gods* Milkyway Media,2022-04-27 Please note: This is a companion version & not the original book. Book Preview: #1 The claim that the lower part of the map portrays the Princess Martha Coast of Queen Maud Land Antarctica is reasonable. The geographical detail shown in the lower part of the map agrees with the results of the seismic profile made across the top of the icecap by the SwedishBritish Antarctic Expedition in 1949. #2 The best evidence suggests that Queen Maud Land, and the neighboring regions shown on the map, passed through a long icefree period which may not have ended until about six thousand years ago. #3 The Piri Reis map, which is a genuine document, was made at Constantinople in AD 1513. It focuses on the western coast of Africa, the eastern coast of South America, and the northern coast of Antarctica. It is not possible to pinpoint the earliest date that such a task could have been accomplished, but it seems that the Queen Maud Land littoral may have remained unglaciated for at least 9000 years. #4 The evidence of a lost technology supports and gives credence to many of the other hypotheses that have been brought forward about a lost civilization in remote times. However, no further scientific research has been done into these anomalous early maps.

Conspiracy Theories and Extremism in New Times Christopher T. Conner, Matthew N. Hannah, Nicholas J. MacMurray, 2024-08-15 Conspiracy Theories and Extremism in New Times outlines a cadre of alt-right groups, conspiracy theories, and other forms of stigmatized knowledge threatening our society. In an era dominated by the pervasive influence of social media, the scholarly gaze has often overlooked the ways far-right factions leverage these platforms to propagate anti-democratic ideologies. From the denial of the moon landing to the enigmatic labyrinth of QAnon, and a myriad of other alt-right groups in between, this anthology presents a compelling case for the continued relevancy of the Frankfurt School of Critical Social Theory. Uncover the intricate web connecting these ideologies to everyday life, and arm yourself with the critical insights needed to navigate the turbulent currents of our modern socio-political landscape.

**The Empires of Atlantis** Marco M. Vigato, 2021-12-21 • Traces the course of Atlantean civilization through its three empires, as well as the colonies and outposts formed by its survivors in Egypt, Göbekli Tepe, India, Mesopotamia, the Mediterranean, and North and South America • Shows how pyramids and other megalithic monuments testify to the survival of a "Sacred Science" of Atlantean origin and how this Sacred Science provided the foundation for esoteric traditions and secret societies throughout the ages • Draws on more than 500 ancient and modern sources and the author's own personal exploration of hundreds of archaeological sites Exploring more than 100,000 years of Earth's history, Marco Vigato combines recent discoveries in the fields of archaeology, geology, anthropology, and genetics with the mystery teachings of antiquity to investigate the true origins of civilization. Establishing the historical and geological reality of Atlantis stretching all the way back to 432,000 BCE, he traces the course of Atlantean civilization through its three empires, revealing how civilization rose and fell several times over this lengthy span of time. The author shows that Atlantis did not vanish "in one terrible day and night" but survived in a variety of different forms well into the historical era. He reveals how the first Atlantean civilization lasted from 432,000 to 35,335 BCE, the second one from 21,142 to 10,961 BCE, and the third Atlantis civilization--the one celebrated by Plato--collapsed in 9600 BCE, after the Younger Dryas cataclysm. The author examines the role of Atlantean survivors in restarting civilization in different parts of the world, from Göbekli Tepe and Egypt to India, Mesopotamia, and the Americas. He personally documents their colonies and outposts around the globe, offering unique views of the colossal network of pyramids, earthen mounds, and other megalithic monuments they left behind. He shows how these monuments testify to the survival of a sacred science of Atlantean origin, and he documents the survival of the primeval

Atlantean tradition through various secret societies into the modern era. Drawing on more than 500 ancient and modern sources and sharing never-before-seen photographs from his own personal exploration of hundreds of archaeological sites around the world, Vigato shows not only that Atlantis was real but that the whole world is now being called to become a New Atlantis and awaken into a new golden age.
