Diminutives across Languages, Theoretical Frameworks and Linguistic Domains Stela Manova, Laura Grestenberger, Katharina Korecky-Kröll, 2023-12-18 This volume addresses a number of issues in current morphological theory from the point of view of diminutive formation, such as the role of phonology in diminutives and hypocoristics and consequently its place in the overall architecture of grammar, i.e. phonology-first versus syntax/morphology-first theoretical analyses, diminutives in the L1 acquisition of typologically diverse languages, and the borrowing of non-diminutive morphology for the expression of diminutive meanings, among others. Among the peculiarities of diminutive morphology discussed are the relation between diminutives and mass nouns, the avoidance of diminutives in plural contexts in some languages, and the relatively frequent semantic bleaching and reanalysis of diminutive forms cross-linguistically. Special attention is paid to the debate on the head versus modifier status of diminutive affixes (corresponding to high versus low diminutives in alternative analyses), with data from spoken and sign languages. Overall, the volume addresses a number of topics that will be of interest to scholars of almost all linguistic subfields and persuasions.

Inclusive Education in the Russian Federation Tsedis Michael Makoelle, Maria Kozlova, Elena Iarskaia-Smirnova, 2024-05-31 Marketing text: This book provides the first evidence-based accounts of inclusive education in a Russian context. It explores the critical educational changes in the Russian Federation within the post-soviet space and internationally. The book analyzes the transformation of educational practices as Russia transitions from an educational model of student support with an emphasis on disability to a broader conceptualization of inclusive education. Among others, this book discusses inclusive education in the context of: • School and preschool institutions; • higher education institutions; • non-Russian-speaking children and children with migration experience; • culture-sensitive education; • indigenous minorities; • technological and methodological support; • the role of stakeholders such as NGOs, parents, and other social groups; • teacher preparation and professional development. This book is intended for teachers, inclusive education coordinators, principals and school managers, policymakers, teacher educators, scholars of inclusion, and university professors, along with community organizations and students of inclusive courses in a Master in Education.

Cultural and Linguistic Minorities in the Russian Federation and the European Union Heiko F. Marten,Michael Rießler,Janne Saarikivi,Reetta Toivanen,2015-01-06 This is the first comprehensive volume to compare the sociolinguistic situations of minorities in Russia and in Western Europe. As such, it provides insight into language policies, the ethnolinguistic vitality and the struggle for reversal of language shift, language revitalization and empowerment of minorities in Russia and the European Union. The volume shows that, even though largely unknown to a broader English-reading audience, the linguistic composition of Russia is by no means less diverse than multilingualism in the EU. It is therefore a valuable introduction into the historical backgrounds and current linguistic, social and legal affairs with regard to Russia's manifold ethnic and linguistic minorities, mirrored on the discussion of recent issues in a number of well-known Western European minority situations.
