John Birmingham

Weapons of Choice John Birmingham, 2005-04-26 On the eve of America's greatest victory in the Pacific, a catastrophic event disrupts the course of World War II, forever changing the rules of combat. . . . The impossible has spawned the unthinkable. A military experiment in the year 2021 has thrust an American-led multinational armada back to 1942, right into the middle of the U.S. naval task force speeding toward Midway Atoll—and what was to be the most spectacular U.S. triumph of the entire war. Thousands died in the chaos, but the ripples had only begun. For these veterans of Pearl Harbor—led by Admirals Nimitz, Halsey, and Spruance—have never seen a helicopter, or a satellite link, or a nuclear weapon. And they've never encountered an African American colonel or a British naval commander who was a woman and half-Pakistani. While they embrace the armada's awesome firepower, they may find the twenty-first century sailors themselves far from acceptable. Initial jubilation at news the Allies would win the war is quickly doused by the chilling realization that the time travelers themselves—by their very presence—have rendered history null and void. Celebration turns to dread when the possibility arises that other elements of the twenty-first century task force may have also made the trip—and might now be aiding Yamamoto and the Japanese. What happens next is anybody's guess—and everybody's nightmare. . . .

Final Impact John Birmingham, 2007-03-20 "The action is nonstop, the characters very real—and very different from each other—and, to coin a phrase, it makes you think."—S. M. Stirling, author of *Island in the Sea of Time* In the year 2021, a multinational fleet—experimenting with untested weapons technology—pitched through time, crash-landing in 1942. The world is thrown into chaos as Roosevelt, Hitler, Churchill, Tojo, and Stalin scramble to adapt to new, high-tech killing tools, and twenty-first-century ways of war. For "uptimers" like Britain's Prince Harry and the men and women who serve aboard the supercarrier USS Hillary Clinton, war is a constant struggle with their own downtime allies, who are mired in ignorance and bigotry. As the Allies counter the Nazi assault and set off for the coast of France, Japan begins to buckle, soon every battle will be played out in a lethal dance of might and intelligence, unholy alliances and desperate gambles, and each clash will be fought with the ultimate weapon; knowledge from the future. Thanks to the historical records, all sides know that two superpowers will emerge while the losers will be pounded into submission. But time has shifted on its axis, so none know who will survive or how peace will take hold in a world turned upside down. These are the questions that John Birmingham brilliantly answers in his critically acclaimed adventure of war and imagination.

Cyberpunk, Steampunk and Wizardry Nader Elhefnawy, 2015-06-14 Where writing on science fiction is concerned, it is the most recent decades that most often get overlooked, so that big picture views of the period are a rarity. CYBERPUNK, STEAMPUNK AND WIZARDRY seeks to correct that, offering an overview of the genre that emphasizes exactly these years, with an eye to the big trends and what they meant, both for science fiction, and today’s culture as a whole.

Stalin’s Hammer: Rome (An Axis of Time Novella) John Birmingham, 2013-02-25 Alternate history master John Birmingham unleashes an astounding new installment in his Axis of Time series: an original eBook novella that begins when the future and the past collide. The year is 1955, ten years after a battle fleet from 2021 exploded through a wormhole in space—straight into the Battle of Midway. A staggered, war-torn world catches its balance. Uptimers, with their extraordinary technology and strange styles, mingle with the real timers. Universities study the effects on the future. And men like Prince Harry of England find themselves playing pivotal roles in a history that has already happened. Or has it? In the starkly partitioned city of Rome, spies, killers, and mafia foot soldiers cross the dividing line between Allied and Russian Zones. Somewhere in the ancient, underground catacombs two men hunt for one another. One is Stalin’s personal assassin, the other a murderous, disillusioned acolyte of the Communist ideal, allied by fate and history with the OSS, MI6, and England’s swashbuckling Prince Harry. Harry’s own mission takes him to a glittering dinner party and a prize over which the two Russian killers are fighting—a factory owner with a terrifying secret. As the forces of West and East are locked in a stalemate, what this man knows could change everything: Josef Stalin, hiding in a Siberian bunker, is ready to hit the world

with a thunderous blow.

The Routledge Concise History of Science Fiction Mark Bould, Sherryl Vint, 2011-02-23 The term 'science fiction' has an established common usage, but close examination reveals that writers, fans, editors, scholars, and publishers often use this word in different ways for different reasons. Exploring how science fiction has emerged through competing versions and the struggle to define its limits, this Concise History: provides an accessible and clear overview of the development of the genre traces the separation of sf from a broader fantastic literature and the simultaneous formation of neighbouring genres, such as fantasy and horror shows the relationship between magazine and paperback traditions in sf publishing is organised by theme and presented chronologically uses text boxes throughout to highlight key works in sf traditions including dystopian, apocalyptic and evolutionary fiction includes a short overview and bullet-pointed conclusion for each chapter. Designated Targets John Birmingham, 2007-12-06 The storm of events from *Weapons of Choice*, the first novel in this explosive alternate-history series, leads to an alliance between Hitler and Stalin, a Japanese assault on Australia, and an all-out Nazi invasion of England.

Heroines of Film and Television Norma Jones, Maja Bajac-Carter, Bob Batchelor, 2014-04-04 As portrayals of heroic women gain ground in film, television, and other media, their depictions are breaking free of females as versions of male heroes or simple stereotypes of acutely weak or overly strong women. Although heroines continue to represent the traditional roles of mothers, goddesses, warriors, whores, witches, and priestesses, these women are no longer just damsels in distress or violent warriors. In *Heroines of Film and Television: Portrayals in Popular Culture*, award-winning authors from a variety of disciplines examine the changing roles of heroic women across time. In this volume, editors Norma Jones, Maja Bajac-Carter, and Bob Batchelor have assembled a collection of essays that broaden our understanding of how heroines are portrayed across media, offering readers new ways to understand, perceive, and think about women. Contributors bring fresh readings to popular films and television shows such as *The Girl with the Dragon Tattoo*, *Kill Bill*, *Buffy the Vampire Slayer*, *Weeds*, *Mad Men*, and *Star Trek*. The representations and interpretations of these heroines are important reflections of popular culture that simultaneously empower and constrain real life women. These essays help readers gain a more complete understanding of female heroes, especially as related to race, gender, power, and culture. A companion volume to *Heroines of Comic Books and Literature*, this collection will appeal to academics and broader audiences that are interested in women in popular culture.

Divided Lenses Michael Berry, Chiho Sawada, 2016-01-31 *Divided Lenses: Screen Memories of War in East Asia* is the first attempt to explore how the tumultuous years between 1931 and 1953 have been recreated and renegotiated in cinema. This

period saw traumatic conflicts such as the Sino-Japanese War, the Pacific War, and the Korean War, and pivotal events such as the Rape of Nanjing, Pearl Harbor, the Battle of Iwo Jima, and the bombings of Hiroshima and Nagasaki, all of which left a lasting imprint on East Asia and the world. By bringing together a variety of specialists in the cinemas of East Asia and offering divergent yet complementary perspectives, the book explores how the legacies of war have been reimagined through the lens of film. This turbulent era opened with the Mukden Incident of 1931, which signaled a new page in Japanese militaristic aggression in East Asia, and culminated with the Korean War (1950–1953), a protracted conflict that broke out in the wake of Japan's post-World War II withdrawal from Korea. *Divided Lenses* explores the ways in which events of the intervening decades have continued to shape politics and popular culture throughout East Asia and the world. The essays in part I examine historical trends at work in various national cinemas, including China, Taiwan, Japan, Korea, and the United States. Those in part 2 focus on specific themes present in the cinema portraying this period—such as comfort women in Chinese film, the Nanjing Massacre, or nationalism—and how they have been depicted or renegotiated in contemporary films. Of particular interest are contributions drawing from other forms of screen culture, such as television and video games. *Divided Lenses* builds on the growing interest in East Asian cinema by examining how these historic conflicts have been imagined, framed, and revisited through the lens of cinema and screen culture. It will interest later generations living in the shadow of these events, as well as students and scholars in the fields of cinema studies, cultural studies, cold war studies, and World War II history.

After America John Birmingham,2010-08-17 BONUS: This edition contains an excerpt from John Birmingham's Angels of Vengeance. The world changed forever when a massive wave of energy slammed into North America and wiped out 99 percent of the population. As the United States lay in ruins, chaos erupted across the globe. Now, while a skeleton American government tries to reconstruct the nation, swarms of pirates and foreign militias plunder the lawless wasteland where even the president is fair prey. In New York City, armies of heavily armed predators hold sway—and hold off a struggling U.S. military. In Texas, a rogue general bent on secession leads a brutal campaign against immigrants. And in England, a U.S. special ops agent enters a shadow war against a deadly enemy who has made the fight personal. While the president ponders a blitz attack on America's once greatest city, the forces of order and anarchy wage all-out war for postapocalyptic dominance—and a handful of survivors must decide how far to go to salvage whatever uncertain future awaits . . . after America.

Weapons of Choice John Birmingham,2004 A near-future military experiment has thrust a US-led multinational armada back to 1942, right into the middle of the naval task force speeding towards Midway Atoll. Weapons of Choice John Birmingham,2006-12-07 The impossible has spawned the unthinkable. In 2021, a quantum military experiment goes horrifically wrong. A multinational taskforce of ultra-modern warships is suddenly transported back in time to 1942... right into the path of the US naval battle group bound for Midway Atoll. History is rewritten in an instant as the future smashes into the past, and high-tech hardware goes head to head with World War Two technology. In the chaos that ensues, thousands are killed, but the maelstrom has only just begun. The veterans of Pearl Harbour have never seen a helicopter, or a cruise missile - let alone nanotechnology, ceramic bullets, and F22 Raptor stealth jetfighters. Allied and Axis forces are then caught in a desperate struggle to gain the upper hand - each hoping to tip the balance with a fist full of twenty first century firepower. What happens next is anybody's guess - and everybody's nightmare...
