The American Pre-College Military School Samuel J. Rogal,2009-03-24 Both a history of the pre-college military school in the United States and a reference guide to the institutions past and present, this comprehensive work begins by discussing several notable military school founders, including Southern Industrial Institute founder Rev. Lyman Ward, New York Military Academy founder Charles Jefferson Wright, and St. John's Military Academy founder Sidney Thomas Smythe, among others. It discusses the role of religious organizations in founding and maintaining military institutions, as well as a range of other topics: faculties and administrators; curricular changes and innovations since the 19th century; escalating tuition costs and the role of money in determining a school's success or failure; and the future of the pre-college military school. A second part lists some 355 individual schools and summarizes the history of each, providing details on enrollments and tuitions.

Making Space for Justice Michele Moody-Adams,2022-07-05 Longlist, 2023 Edwards Book Award, Rodel Institute From nineteenth-century abolitionism to Black Lives Matter today, progressive social movements have been at the forefront of social change. Yet it is seldom recognized that such movements have not only engaged in political action but also posed crucial philosophical questions about the meaning of justice and about how the demands of justice can be met. Michele Moody-Adams argues that anyone who is concerned with the theory or the practice of justice—or both—must ask what can be learned from social movements. Drawing on a range of compelling examples, she explores what they have shown about the nature of justice as well as what it takes to create space for justice in the world. Moody-Adams considers progressive social movements as wellsprings of moral inquiry and as agents of social change, drawing out key philosophical and practical principles. Social justice demands humane regard for others, combining compassionate concern and robust respect. Successful movements have drawn on the transformative power of imagination, strengthening the motivation to pursue justice and to create the political institutions and social policies that can sustain it by inspiring political hope. Making Space

for Justice contends that the insights arising from social movements are critical to bridging the gap between discerning theory and effective practice—and should be transformative for political thought as well as for political activism.
