Vincent Lemieux, François Pétry

La Guerre à Gaza, de l'analyse du Discours Médiatique à l'analyse Politologique Grégory Piet, Sophie Wintgens, David Stans, 2010 Cette analyse des discours médiatiques sur la guerre de Gaza repose sur l'étude du contenu d'articles de presse et vise à montrer la façon dont les médias ont suivi, traité voire modifié l'évolution du conflit. Ce discours médiatique est ensuite confronté à une analyse politologique de la guerre par le biais de concepts de sciences sociales tels que communauté internationale ou diplomatie.

The Oxford Handbook of French Politics Robert Elgie, Emiliano Grossman, Amy G. Mazur, 2016-11-24 The Oxford Handbook of French Politics provides a comprehensive and comparative overview of the French political system through the lens of political science. The Handbook is organized into three parts: the first part identifies foundational concepts for the French case, including chapters on republicanism and social welfare; the second part focuses on thematic large-scale processes, such as identity, governance, and globalization; while the third part examines a wide range of issues relating to substantive politics and policy, among which are chapters on political representation, political culture, social movements, economic policy, gender policy, and defense and security policy. The volume brings together established and emerging scholars and seeks to examine the French political system from a comparative perspective. The contributors provide a state-of-the-art review both of the comparative scholarly literature and the study of the French case, making The Oxford Handbook of French Politics an invaluable resource for anyone interested in the foundations of contemporary political life in France.

Racial Criminalization of Migrants in the 21st Century Salvatore Palidda, 2016-05-23 Over the last two decades in the West, there has been a significant increase in the arrest, imprisonment and detention of migrants. The racial criminalization and victimization of migrants and Roma people has led judicial authorities, local governments, the police, mass media and the general population to perceive migrants and 'gypsies' as responsible for a wide range of offences. Taking into consideration the political and cultural conditions that affect and interconnect societies of emigration and immigration, the contributors examine and compare a range of cases in Europe and the United States. The contributions demonstrate how the persecution of the 'current enemy' is the 'total political fact' of the 21st century in that it ensures consensus and business, or what might be termed the 'crime deal' of today. This provocative book has international appeal and will be a valuable resource for academics, researchers and policymakers with an interest in migration and social and ethnic control.

Engagement with Culture in Transformative Times Susanne Janssen, Nete Kristensen, Marc Verboord, 2025-05-12 At the heart of this volume are the questions: What does culture mean to European citizens in the face of globalisation, digitalisation, diversity, and social inequality? How do Europeans engage with culture in its various forms, and what societal values are tied to this cultural engagement? These questions are explored in depth across the 15 chapters of this book. By delving into the understandings, practices, perceptions, affordances, and impacts of culture, this book advances the study of the societal values of culture in contemporary European societies, offering insights beneficial to both research and cultural policy work. The book stands out with its five unique features. It embraces an inclusive conception of culture, spanning the arts, popular culture, and everyday cultural practices, both offline and online. It takes a grassroots approach, starting from the cultural understandings and experiences of European citizens. It employs a comparative method involving people from diverse socio-economic groups in nine European countries – with different cultural policy models, social-structural features, socio-cultural value orientations, and media systems. It builds on a multi- and mixed-methods approach, including a large-scale survey, a smartphone study with experimental stimuli, several phases of online content data collection and analysis, qualitative interviews, and focus groups. Finally, it delves into how wide-ranging and interconnected sociocultural transformations such as migration, digitalisation, and social inequality impact people's understanding of and engagement with culture as well as the meanings and values they attribute to culture. These unique features promise to offer a fresh and comprehensive perspective on cultural engagement in contemporary European societies. The collection showcases the multiple, often contradictory concepts and understandings of culture and its societal values among social groups within and across European societies. The findings call for a "social turn" in cultural policy that extends beyond traditional arts and culture to support diverse cultural expressions that may enhance social values, address complex social issues, and shift the focus from economic objectives to promoting civic solidarity, equity, inclusivity, tolerance, and shared community values.

Les sondages et la démocratie Vincent Lemieux, François Pétry, 2015-02-27 T00:00:00-05:00 L'usage de plus en plus répandu des sondages favorise-t-il ou au contraire empêche-t-il le bon fonctionnement de la démocratie ? La question est abordée de façon normative, en évaluant le rôle des sondages par rapport à ce qu'on serait en droit d'attendre dans une situation de démocratie idéale. Le livre traite aussi la question de façon empirique, en décrivant et en expliquant le rôle des sondages tel qu'on l'observe dans la pratique. La pratique et la théorie des sondages ont sensiblement évolué depuis la première édition de ce livre. C'est pourquoi une mise à jour a été jugée nécessaire, nous conduisant à réviser une partie du matériel, même si l'approche méthodologique et théorique reste fondamentalement la même. Les données de sondages utilisées pour illustrer nos arguments ont été mises à jour. Le plan du livre a été modifié pour donner plus d'importance à certains éléments - tels que la compétence politique des citoyens ou les sondages gouvernementaux - tout en conservant ceux qui se trouvaient déjà dans la première édition.

Democracy and Military Force P. Everts, 2002-02-27 The relationship between democracy and foreign policy has always been controversial. Whether good or bad, the influence of public opinion - a central factor in all democracies - on political decisionmaking in matters of war and peace is more important than ever. How has the end of the Cold War affected popular attitudes in Western Europe and the USA? Is the public no longer willing to tolerate military casualties, or is that a myth that serves as a welcome alibi for hesitant politicians?

L'opinion publique en Europe (1600-1800) , 2011

L'Opinion publique dans les pays de langue allemande Françoise Knopper, André Combes, 2006-12-01 Revisitant les travaux de Jürgen Habermas, l'ouvrage réunit les approches croisées de différentes sciences humaines, afin de reconstituer les mutations intervenues dans les pays de langue allemande : les nouvelles technologies entretiendraient-elles l'illusion d'une citoyenneté universelle, remplaçant en fait la norme par une expression individuelle guettée par l'arbitraire ?

JUSTICE ET OPINION PUBLIQUE , 2002-03-01 Ces communications ont en commun de considérer l'institution judiciaire moins sous l'angle de la technique que du point de vue des acteurs qui la font être ce qu'elle est (magistrats, avocats). Une trame d'ensemble, fait apparaître au-delà du rapport juge - justiciable, la relation de l'institution à l'opinion publique - cette invention récente - à la fois fondement et miroir déformant du pouvoir des juges.

Le droit des sondages électoraux Romain Rambaud, 2012-01-01 Le peu d'intérêt des juristes pour les sondages électoraux contraste avec l'importance politique que ces derniers ont acquise dans nos démocraties modernes. L'augmentation de leur nombre, l'évolution des techniques et l'accroissement de leurs effets sur la vie politique appellent une réflexion critique. Voici des pistes de réformes, répondant à la question du rôle du droit dans le bon usage des sondages en démocratie.

Journal of the Institute of Romance Studies , 1996

The Bewildered Herd B. A. Taleb, 2004 For the first time, a work that contains all that should be known about the media's orientation of the public mind in democratic societies, why this manipulation takes place, and in what manner. The Bewildered Herd does not only analyse the media's current functions and forms in human society but it also traces and discusses the various transformations that this increasingly powerful social actor has gone through. The case study used for the purposes of this work is both unequal and unique in its nature, depth, and revelations. It compares the media's coverage in two of the world's leading democracies (The United States and France) of two of the world's most important armed conflicts and crises. It analyses both countries national, economic, cultural, and social interests as well as their respective

media's coverage of these two conflicts and reveals how public perceptions are affected by this coverage and how the agendas of both the media and the political establishment is best served by this manipulation of public opinion in democratic societies. Mechanisms and tactics used in conditioning the public are extensively revealed and analysed in a manner that is so comprehensive in its approach and in its explanations.

Public Opinion on Crime and Criminal Justice, 1979

Collected Studies in Criminological Research, 1979

La gouvernance de l'opinion publique Pierre Bréchon, 2003 Ce livre explique comment des gouvernants, des partis politiques, des syndicats, des multiples associations et groupes de pression, des médias, des intellectuels, peuvent influencer des opinions publiques qui ont leur propre dynamique et résistance. Les rapports entre journalistes, hommes politiques et opinion publique font l'objet d'une attention toute particulière. Dans un régime démocratique, le pouvoir politique a-t-il les moyens de gouverner l'opinion publique? Sur certains problèmes politiques sensibles, l'action du pouvoir est particulièrement sous la contrainte de l'opinion.

Naissance de l'opinion publique dans l'Italie moderne Sandro Landi, 2006 Qu'est-ce que l'opinion publique ? Quelles sont les conditions politiques et culturelles qui ont permis l'émergence et la connaissance de cet acteur essentiel de la modernité politique ? Tout en s'éloignant de la perspective sociologique indiquée par Jürgen Habermas, qui relie la naissance de l'opinion publique dans l'Europe moderne à l'essor de l'imprimerie et à la révolution médiatique du xviii^e siècle, l'auteur étudie l'opinion publique comme une catégorie du discours politique qui s'affirme en Italie, antérieurement et simultanément à la naissance d'un public de lecteurs. Cette histoire parallèle de l'opinion publique, attentive à l'histoire sociale des concepts et centrée sur le cas emblématique de Florence et de la Toscane, est consacrée tout d'abord, à l'analyse de la nature du peuple et de ses opinions, opérée notamment par Machiavel et Guichardin au début du xvi^e siècle. La découverte de l'étrange sagesse du peuple, de son altérité, de son caractère irrationnel et variable, est un moment fondateur de la modernité politique. Par ailleurs, ce moment théorique n'est pas dissociable de la formation d'un nouveau savoir de gouvernement que l'on désigne avec le nom désuet mais illustre de censure. Résultat d'un travail d'« archéologie institutionnelle » commencé par Machiavel sur la base du modèle républicain romain et continué par les théoriciens du principat médicéen, la censure s'impose dans le discours et dans la pratique politique de l'Etat absolutiste comme une catégorie complémentaire et non opposée à celle d'opinion. Son vaste domaine, constamment remanié au cours de deux siècles, qui inclut aussi le monde de l'imprimerie et de la lecture, révèle un aspect essentiel mais jusqu'à présent négligé de la genèse de l'Etat moderne: la nouvelle frontière du pouvoir est l'imaginaire collectif des sujets. C'est dans ce domaine si évanescent et si manipulable que se joue désormais la partie décisive pour la construction du consensus et de la sauvegarde des institutions.

The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a brilliant and suspenseful novel that will keep you wondering until the very end. The novel is a cautionary tale about the dangers of obsession and the power of evil.
