Self-Care and Organizational Practices for School Social Worker Resilience Lou Paschall, Licensed School Social Worker and a Licensed Advanced Practice Social Worker Lou Paschall, 2025-11-28 In Self-Care and Organizational Practices for School Social Worker Resilience, Lou Paschall examines the unique characteristics of School Social Worker (SSW) practice that challenge the wellbeing of practitioners. Including stories from Paschall's decades of experience as a practicing SSW, the book discusses Social Work within the education system and identifies various occupational hazards--from burnout and compassion fatigue to secondary traumatic stress and vicarious traumatization. To address these occupational hazards, Paschall consults the guiding ethical documents of the profession to recommend practical strategies for individual self-care and professional self-advocacy, as well as organization-level strategies to promote SSW wellness.

**Summary Of Love Yourself Like Your Life Depends On It By Kamal Ravikant And Founderzen** Scorpio Digital Press, 2019-10 Summary Of Love Yourself Like Your Life Depends On It By Kamal Ravikant And Founderzen. Ravikant says that he is been fortunate enough to have some amazing experience in his life by trekking to one of the high est base camps in the Himalayas, he meditated with Tibetan monks in the Dalai Lama's Monastery, he earned his US Army Infantry patch and also walked 550 miles across Spain, lived in Paris and he is been the only non-black, non-woman member of the black women's writers group, he has written a novel and also worked with some of the best people in silicon valley. Kamal was in a bad way. He was miserable out of his mind and there were days where he would lay in bed, too depressed to even open the drapes. One day he hit his emotional threshold, got out of bed and wrote himself the following: This day, I vow to myself to love myself, to treat myself as someone I love truly and deeply--in my thoughts, my actions, the choices I make, the experiences I have, each moment I am conscious, I make the decision I LOVE MYSELF. Kamel didn't know how to love himself. All he knew was tha the'd made a vow--something far greater than a commitment, bigger than an I-wish or a nice-to-have. A vow. Kamal didn't believe he loved himself in the beginning. But what mattered more was he was committing to the

practice and in the simplest way, he could think of: focusing on one thought repeatedly until it was more top of mind. Imagine the feeling of catching yourself loving yourself without trying. It's like catching a sunset out of the corner of your eye. It will stop you. Why the Universe Bothers to Exist David V. McCorkle, 2014-02 A Striking Breakthrough in the Origins Controversy! Steinhardt and Turok's proposed ekpyrotic universe model fits the Genesis account! The implications are profound. The book Why the Universe Bothers to Exist: Theistic Determinism, Evidences and Implications by David V. McCorkle, PhD. is based upon this observation. It explains the likely location and physics of heaven. It proposes that we have heavenly avatars (biblical spirit bodies) close by, but through a fourth spatial dimension. Baby Brady with simulated spirit body. This book proposes answers to many other questions that theists have pondered. What happened to the Garden of Eden? Might it still exist? If so, where? How could information of our personal identity be preserved after our physical death? Why will redeemed humans need to be resurrected if they are already in heaven? Why will a new heaven eventually be needed? Numerous other concepts are also dealt with, such as the following. In consideration of Heisenberg uncertainty, what maintains order in the universe? Do natural laws determine outcomes, or does the consistency of outcomes determine the laws? What factor determines the decoherence outcome of probability waves so that consistent, orderly eigenstates result? Cannot this factor be recognized as God thereby actualizing his intentions: theistic determinism? Natural law is thus the outcome of God holding all things together (Col. 1:17). It is then natural for God to work through natural process. In this perspective, how is it that new species of organisms originate? Can the process be observed? And what of Adam and Eve as the first sentient humans? In addition to the significance of a message from ancient Babylon, and an account of how what is termed socionics relates to the tragedy of the commons principle, a near miraculous adventure in Idaho's Lemi Mountains near Sacajawea's birthplace is described and credited to divine providence. All of this and more thought-provoking issues are presented in this book with the intent of resolving the origins controversy, but also of planting ideas for further consideration in biblical context.
