*The Papers of Martin Luther King, Jr., Volume IV* Martin Luther King, Clayborne Carson, Peter Holloran, Penny A. Russell, 1992 This fourth volume in the highly-praised edition of the Papers of Martin Luther King covers the period (1957-58) when King, fresh from his leadership of the Montgomery bus boycott, consolidated his position as leader of the civil rights movement.

*The Papers of Martin Luther King, Jr., Volume IV* Martin Luther King Jr., 2023-11-15 Acclaimed by Ebony magazine as one of those rare publishing events that generate as much excitement in the cloistered confines of the academy as they do in the general public, *The Papers of Martin Luther King, Jr.* chronicles one of the twentieth century's most dynamic personalities and one of the nation's greatest social struggles. King's call for racial justice and his faith in the power of nonviolence to engender a major transformation of American society is movingly conveyed in this authoritative multivolume series. In Volume IV, with the Montgomery bus boycott at an end, King confronts the sudden demands of celebrity while trying to identify the next steps in the burgeoning struggle for equality. Anxious to duplicate the success of the boycott, he spends much of 1957 and 1958 establishing the Southern Christian Leadership Conference. But advancing the movement in the face of dogged resistance, he finds that it is easier to inspire supporters with his potent oratory than to organize a mass movement for social change. Yet King remains committed: The vast possibilities of a nonviolent, non-cooperative approach to the solution of the race problem are still challenging indeed. I would like to remain a part of the unfolding development of this approach for a few more years. King's budding international prestige is affirmed in March 1957, when he attends the independence ceremonies in Ghana, West Africa. Two months later his first national address, at the Prayer Pilgrimage for Freedom, is widely praised, and in June 1958, King's increasing prominence is recognized with a long-overdue White House meeting. During this period King also cultivates alliances with the labor and pacifist movements, and international anticolonial organizations. As Volume IV closes, King is enjoying the acclaim that has greeted his first book, *Stride Toward Freedom*, only to suffer a near-fatal stabbing in New York City. Acclaimed by Ebony magazine as one of those rare publishing events that generate as much excitement in the cloistered confines of the academy as they do in the general public, *The Papers of Martin Luther King, Jr.* chronicles one of the two

**The Green Movement in Iran** Hamid Dabashi, 2017-09-08 The Green Movement in Iran contains Hamid Dabashi's most

important writings on the Iran's June 2009 election, its tumultuous aftermath, and the characteristics and aspirations of the emerging Green Movement. These analyses range from close analysis of the nature of the events to the Green Movement's historical background and future political consequences. The writings have been modified and updated for book publication. The volume presents Dabashi's account of the events since June 12, 2009-the Election Day itself-and his recap of highlights of the build-up period to the mass protests. He provides insightful background for events on the ground, dealing with debates about the credibility of the election. He then discusses political continuity in Iran, as well as the characteristics of the Green Movement. Dabashi argues that the reaction of the custodians of the Islamic Republic to the charge of the election being a fraud only affirms its lost legitimacy, and casts the system as being neither Islamic nor a republic. Dabashi also comments on US politics and its relations to Iran and the Green Movement, pointing out shortcomings in American media culture. The role of the Iranian opposition in the Green Movement and American political policies, the political and economic consequence of the U.S. sanctions against Iran, and the way these may be interpreted by Iranian society are all viewed from an enlightening perspective. Dabashi argues that the Iranian regime, suffering deeply from legitimacy issues, makes use of its bureaucratic, economic, and political leverage to stage a show of support and project division among the people.

**Hero Me Not** Chesya Burke,2023-04-14 First introduced in the pages of X-Men, Storm is probably the most recognized Black female superhero. She is also one of the most powerful characters in the Marvel Universe, with abilities that allow her to control the weather itself. Yet that power is almost always deployed in the service of White characters, and Storm is rarely treated as an authority figure. Hero Me Not offers an in-depth look at this fascinating yet often frustrating character through all her manifestations in comics, animation, and films. Chesya Burke examines the coding of Storm as racially “exotic,” an African woman who nonetheless has bright white hair and blue eyes and was portrayed onscreen by biracial actresses Halle Berry and Alexandra Shipp. She shows how Storm, created by White writers and artists, was an amalgam of various Black stereotypes, from the Mammy and the Jezebel to the Magical Negro, resulting in a new stereotype she terms the Negro Spiritual Woman. With chapters focusing on the history, transmedia representation, and racial politics of Storm, Burke offers a very personal account of what it means to be a Black female comics fan searching popular culture for positive images of powerful women who look like you.

*Democracy at a Crossroads* Gregory L. Samuels,Amy Samuels,2019-06-01 At a time of questionable civility in American politics, democratic education appears to be at a crossroads. As we consider how to best explore democracy and foster a more civically-engaged populace in the current socio-political context, it is critical to examine what frames our educational systems, policies, and practices and shapes our civic identity. While teachers struggle with decreased instructional time for social studies and the demands of standardized tests, the social sciences are often pushed to the margins. Reflecting on how to negotiate local, state, national, and global tensions related to policy and practice, educators work to do what is best to

equip students to foster democratic citizenship and ideals. Social sciences educators are uniquely positioned to embrace a journey that upholds democratic ideals of equality, freedom, and justice, while simultaneously critiquing inequity and injustice in schools and our society. The contributors to this volume situate a variety of discussions within the context of the crossroads and explore how to negotiate, translate, and reconceptualize our own beliefs and positionings in ways that positively influence and empower students, teachers, teacher educators, and education policy makers. Studies are presented related to civic education, cross-cultural interpretations, emotional citizenship, international economics, and race-consciousness, as well as those that discuss how to challenge dominant narratives and negotiate educational policies and practices.
