The Position of the German Language in the World Ulrich Ammon, 2019-08-08 The Position of the German Language in the World focuses on the global position of German and the factors which work towards sustaining its use and utility for international communication. From the perspective of the global language constellation, the detailed data analysis of this substantial research project depicts German as an example of a second-rank language. The book also provides a model for analysis and description of international languages other than English. It offers a framework for strengthening the position of languages such as Arabic, Chinese, French, Portuguese, Spanish and others and for countering exaggerated claims about the global monopoly position of English. This comprehensive handbook of the state of the German language in the world was originally published in 2015 by Walter de Gruyter in German and has been critically acclaimed. Suitable for scholars and

researchers of the German language, the handbook shows in detail how intricately and thoroughly German and other second-rank languages are tied up with a great number of societies and how these statistics support or weaken the languages' functions and maintenance.

The Multilingual Adolescent Experience Malgorzata Machowska-Kosciak,2020-10-09 This book contributes to our understanding of how older learners negotiate family internal and family external socialisation processes and thereby how parents' ideologies and practices, peer socialisation, and language status or societal demands come together in adolescents' lives. It integrates the sociohistorical context and adolescents' attitudes with the parents' role. Through the use of 'small stories' and ethnographic observation this book explores the social and cultural worlds of Polish immigrant adolescents in Ireland, the ways they seek membership and belonging in their communities of practice, and the ways in which they develop sociohistorical understandings across the languages and cultures they are part of. It sheds light on schooling and family communities and the role they play in the socialization processes of immigrant children.
