Curriculum Connections for Tree House Travelers for Grades K-4 Jane Berner, Sabrina Minser, Helen Burkart Presser, 2007-10-15 If your students love the Magic Tree House books, you will love this book! Cross all curricular areas and engage students in meaningful and stimulating learning experiences. Guide students on thrilling trips through time to Magic Tree House locations where they will discover dinosaurs, knights and castles, Egyptian mummies and pyramids, and pirates and buried treasure. Collaborate with technology specialists, art teachers, and classroom teachers to create units that touch every student. Find cross-curricular lessons and in-depth studies of time and place, designed to promote deep learning in students while motivating them to read both fiction and nonfiction. Designed for elementary students, these literature-based units are easily adaptable to middle school students.

Crossover Picturebooks Sandra L. Beckett, 2013-06-17 This book situates the picturebook genre within the widespread international phenomenon of crossover literature, examining an international corpus of picturebooks — including artists' books, wordless picturebooks, and celebrity picturebooks — that appeal to readers of all ages. Focusing on contemporary picturebooks, Sandra Beckett shows that the picturebook has traditionally been seen as a children's genre, but in the eyes of many authors, illustrators, and publishers, it is a narrative form that can address any and all age groups. Innovative graphics and formats as well as the creative, often complex dialogue between text and image provide multiple levels of meaning and invite readers of all ages to consider texts that are primarily marketed as children's books. The interplay of text and image that distinguishes the picturebook from other forms of fiction and makes it a unique art form also makes it the ultimate crossover genre. Crossover picturebooks are often very complex texts that are challenging for adults as well as children. Many are characterized by difficult adult themes, genre blending, metafictional discourse, intertextuality, sophisticated graphics, and complex text-image interplay. Exciting experiments with new formats and techniques, as well as novel interactions with new media and technologies have made the picturebook one of the most vibrant and innovative contemporary literary genres, one that seems to know no boundaries. *Crossover Picturebooks* is a valuable addition to the

study of a genre that is gaining increasing recognition and appreciation, and contributes significantly to the field of children's literature as a whole.

Minding Ben Victoria Brown, 2011-04-12 At sixteen, Grace Caton boards her first airplane, leaving behind the tropical papaya and guava trees of her small village in Trinidad for another island, this one with tall buildings, graceful parks, and all the books she can read. At least that's what Grace imagines. But from the moment she touches down, nothing goes as planned. The aunt who had promised to watch over her disappears, and Grace finds herself on her own. Grace stumbles into the colorful world of Crown Heights, Brooklyn, having been taken in hand, sort of, by a fellow islander, Sylvia. Here, she's surrounded by other immigrants also finding their way in America. From her Orthodox Jewish landlord, Jacob, to her wannabe Jamaican friend, Kathy, who feels that every outfit can be improved with a Bedazzler and a low-cut top, there's much to learn about her new city. Most challenging of all is figuring out her new employers, the Bruckners, an upper-middle-class family in Manhattan. The job is strange -- Grace's duties range from taking daily nude photos of her pregnant boss (a shock to her, since she's never even seen her own mother naked) to dressing in a traditional maid's costume to serve Passover seder. But Grace loves four-year-old Ben, and she's intrigued by the alternately friendly and scheming nannies who spend their days in Union Square Park, and by their constant gossip about who's hired, who's fired, and who, scandalously, married her boss. As the seasons change, Grace discovers that the Bruckners have surprising secrets of their own, and her life becomes increasingly complicated and confusing. But opportunities appear in the most unexpected places, and Grace realizes that she's living in a city -- and a world -- where anything is possible.

The Effective Teaching of Language Arts Donna E. Norton, 1993 Field-tested and backed by sound research, this popular methods book provides readers with a broad background in language arts, including assessment and instruction in the major areas of speaking, listening, writing, and reading. Thoroughly encompassing the 'back-to-basics' movement and the trend

toward literature-based instruction, it offers clearly developed methodologies and lessons, and makes extensive use of children's actual language samples to illustrate ways literature can enhance the development of language arts skills. Written by an award-winning author, the book focuses on material that embraces the needs of all learners: linguistically-different children, multicultural children, and children with learning disabilities and handicaps. Emphasizing the importance of literature-based strategies and the identification of literature that can be applied to each of the language arts, it offers 'For Your Plan Book', a special section at the end of most chapters which provides concrete ideas, field-tested lessons and unit plans teachers can take right into their classroom. Literature chapters are now moved to the forefront of the book, enabling instructors to place a greater emphasis on literature-related language arts. Strong methodologies in the composition chapters now encompass the writing process, plus results of a five-year composition study of the relationships between writing and literature. Public school educators, parents in home schooling, and library personnel.
