Curb Your Enthusiasm and Philosophy Mark Ralkowski, 2012-07-19 In a promotional video for the eighth season of HBO's Curb Your Enthusiasm, Larry David appears as Godzilla, walking through the streets of New York City, terrorizing everyone who sees him. People scream and run for their lives. Larry, meanwhile, has a quizzical look on his face and asks, "What, are you people nuts?" What makes Larry a monster, and why doesn't he know that he's a monster? Curb Your Enthusiasm and Philosophy discusses several answers to these questions. This book revolves around Curb-Larry, the character that the real Larry David plays on HBO's popular television series: his outlook on life, his unusual ways of interacting with people, his inability or unwillingness to conform to the world. Many of the chapters discuss ethical and existential issues, such as whether Larry is a "bad apple." Larry doesn't ask questions about free will, or wonder whether the world outside our minds really exists because he's more like Socrates than Descartes. He tells bitter truths about how we live our lives. There's something heroic about Larry's independence from social conventions, and something tragic about his tendency to hurt people with his frankness. It's hard not to ask, should we curb our enthusiasm?

More vampire films have been produced since the First Edition of The Vampire Film appeared in 1974 than in the entire history of motion pictures prior to that year. The first completely revised and updated edition was published in 1993. The Third Edition insures that what began as the first book-length study of the subject in 1974 remains the most comprehensive available.

Teaching, Learning, and Schooling in Film Daniel P. Liston, Ian Renga, 2014-12-05 Films about education provide many of the most popular interpretations of what teaching and learning mean in schools. An analysis of this medium reveals much about the historical, cultural, political, and philosophical dimensions of education. Timely and engaging, this book fills

a gap for scholarly and informed public commentary on the portrayal of education in film, offering a wide range of conceptual and interpretive perspectives. *Teaching, Learning, and Schooling in Film* explores several key questions, including: What does it mean to be a good teacher? How do these good teachers instruct? When is and what makes teaching complex? What constitutes learning? Do educational reforms work? The book's interdisciplinary group of contributors answers these important questions in essays highlighting Hollywood, independent, and documentary films. Prospective and practicing teachers will engage with the thought-provoking educational issues raised in this book and gain insight into the complexities of teaching and learning portrayed in film.
