Project Portfolio Management with SAP RPM and CProjects Stefan Glatzmaier,Michael Sokollek,2009 This one-stop guide details how to integrate and use project portfolio management with SAP to support your business processes. In addition, the configuration options and functions of cProjects are explained clearly with special attention paid to customizing the project structure, document and resource management, project alerts, evaluations, and more. Plus, find out how SAP RPM and cProjects integrate with SAP PS, SAP NetWeaver Portal, SAP NetWeaver BI, MS Project, and SAP ERP. Real-world customer examples illustrate how customer enhancements extend the scope of the solution scenario, including custom fields, cross-system versioning, and more.
