Gestión de la construcción Pablo Andrés Pérez López, 2024-12-09 En su tercera edición, este libro es una guía esencial para la gestión de presupuestos y el control de costos directos en proyectos de construcción. Cubre todas las etapas del proyecto, desde la prefactibilidad hasta la liquidación final, y destaca la importancia de los costos directos, que pueden representar entre el 40% y el 70% del costo total. Proporciona herramientas y metodologías para revisar y controlar los presupuestos, minimizando riesgos y asegurando estimaciones precisas, involucrando a todos los profesionales clave del proyecto. A través de una investigación detallada con profesionales del sector en el Valle de Aburrá, el libro documenta y ejemplifica los procedimientos necesarios para minimizar riesgos y asegurar estimaciones de costos precisas, contribuyendo así al éxito económico de los proyectos de construcción.

Introduction to Management Accounting, Chap. 1-14 Charles T. Horngren,Gary L. Sundem,William O. Stratton,2005

Make the right decisions with Horngren/Sundem/Stratton! Horngren/Sundem/Stratton's best-selling texts emphasize decision-making throughout each chapter. Decision-making is introduced in the early text chapters and also appears in many of the text features: Making Managerial Decisions boxes, critical thinking exercises, and more. As always, students develop a solid understanding of costs and cost behavior and the use of cost information for planning and control decisions, not just inventory valuation. Two text versions enable faculty to select a text that only covers management accounting concepts (Chs. 1-14) or one that includes three chapters of financial accounting review (Chs. 1-17). New OneKey provides the convenience of having all text resources in a single location and available in your choice of course management platform: BlackBoard, WebCT, and CourseCompass. OneKey also includes PH Grade Assist on-line homework with automatic grading and infinite practice for students).
