**Supervising and Supporting Ministry Staff** Kevin E. Lawson, Mick Boersma, 2017-06-07 Surveys of pastoral staff repeatedly show that senior or supervising pastors consistently rate their working relationships with their associate staff members higher than do the associate staff members. Satisfaction levels follow similar patterns. In many cases, supervisors are not aware of or attentive to the concerns of their staff, and yet, these staff members are critical to the success of the church. Supervising and Supporting Ministry Staff is a research-based guide to the senior/associate staff relationship that is filled with real-life stories and practical advice to help readers negotiate their staff relationships successfully. The book focuses not only on the business mechanics of the supervisor/supervisee relationship, but also the full experiences of the associate staff, including emotional and spiritual needs. This helpful resource addresses congregations of all sizes across denominations and discusses a range of supervisor/supervisee relationship types.

**Textbook of Palliative Care** Roderick Duncan MacLeod, Lieve Van den Block, 2025-02-25 This second edition provides the most up-to-date information on all aspects of palliative care including recent developments (including COVID-19), global policies, service provision, symptom management, professional aspects, organization of services, palliative care for specific populations, palliative care emergencies, ethical issues in palliative care, research in palliative care, public health approaches and financial aspects of care. This new Textbook of Palliative Care remains a unique, comprehensive, clinically relevant and state-of-the-art book, aimed at advancing palliative care as a science, a clinical practice and as an art. Palliative care has been part of healthcare for over fifty years but it still needs to be explained to many. Healthcare education and training has been slow to recognize the vital importance of ensuring that all practitioners have a good understanding of what is involved in the care of people with serious or advanced illnesses and their families. However, the science of palliative care is advancing and this new edition will contribute to a better understanding. This new edition offers 86 updated or new chapters

out of 108, written by experts in their given fields, providing up-to-date information on a wide range of topics of relevance to those providing care towards the end of life no matter what the disease may be. We present a global perspective on contemporary and classic issues in palliative care with authors from a wide range of disciplines involved in this essential aspect of care. The Textbook includes sections addressing aspects such as symptom management and care provision, organization of care in different settings, care in specific disease groups, palliative care emergencies, ethics, public health approaches and research in palliative care. This new Textbook will be of value to practitioners in all disciplines and professions where the care of people approaching death is important, specialists as well as non-specialists, in any setting where people with serious advanced illnesses are residing. It is also an important resource for researchers, policy-and decision-makers at national or regional levels. Neither the science nor the art of palliative care will stand still so the Editors and contributors from all over the world aim to keep this Textbook updated so that the reader can find new evidence and approaches to care.

The Ideal Team Player Instaread,2016-06-28 The Ideal Team Player by Patrick Lencioni | Summary & Analysis Preview: Patrick Lencioni's The Ideal Team Player: How to Recognize and Cultivate The Three Essential Virtues posits that in order to succeed—especially in a work environment—one must be a team player. Business leaders must be able to identify and hire team players to secure the best possible advantage over their competitors and leverage all the benefits of teamwork. Ideal team players share three core virtues: They are hungry, humble, and smart. To illustrate the ideal team player model in practice, Lencioni offers the hypothetical example of Valley Builders, a construction firm in Napa. Using this extended hypothetical as referent, Lencioni illustrates the components of the ideal team and explains how to apply them. Valley Builders was founded some 30 years ago by Bob Shanley. **Sustaining Depth and Meaning in School Leadership** Emil Jackson,Andrea Berkeley,2020-07-15 Sustaining Depth and Meaning in School Leadership: Keeping Your Head concerns the emotional and psychological experience of school leadership—in particular, the felt experience of life as a headteacher. It describes the pressures and rewards of the role, together with some of the ways that school leaders successfully sustain and develop themselves and their teams in what has become an increasingly complex, challenging, and highly accountable role. This book explores the personal experience of leading schools. Part I provides an overview and analysis of current and historical trends in school leadership and offers

some theoretical frameworks for making sense of these. Part II then offers psychodynamic approaches to supporting and developing school leaders and the impact that trends in executive education continue to have on this. Part III looks at approaches to school leadership development more generally, including team development; influences from the business world; the growth of mentoring and coaching as a leadership intervention; the design and evaluation of leadership development programmes; and a case study on whole-system development. The final word is given to ten serving headteachers and deputies and their leadership journeys. This range of chapters, concepts, and perspectives will support school leaders to maintain an emotional equilibrium while navigating the multilayered tightrope of intrapsychic, interpersonal, and organizational dynamics inherent in school life. Rooted in Jackson and Berkeley's belief that school leaders are likely to be at their best when they find their own unique and authentic way of taking up their leadership role, this book is an accessible, supportive, and developmental contribution for all those involved in education leadership.
