

The Brigade Harold Covington

William James Bacon

Bridges between Cultures Tomasz Kalaga, 2018-10-30 Centred on the metaphor of bridges and knots, this volume investigates the dialogic and dialectical relationships between socially dissimilar and topographically distant cultures. The contributions here explore various methodological frameworks for discourses and theories that purport to conceptualize cultural spaces, which – as opposed to objective, geographical areas – are characterized by the propensity to bind topographical distances by means of symbolic ties and perimeters. The chapters address possible juxtapositions and intersections of spatial and temporal dimensions of cultural practice, religious and ethical “ties and knots” between lands and cultures, disconnections between historical, literary and cultural epochs, discourses of cultural entanglement and cultural ensnarement on individual and social levels, and the possibilities of raising aesthetic bridges between various cultures in music, poetry and visual arts, among other topics.

Freedom's Sons H. A. Covington, 2013-09-24 Freedom's Sons is the fifth and last in underground cult novelist H.A. Covington's series of Northwest Independence novels. In the first four novels--A Distant Thunder, A Mighty Fortress, The Hill Of The Ravens, and The Brigade--we followed the path of the War of Independence when in the not-so-distant future, the people of the Pacific Northwest fought a five-year guerrilla war against the overbearing tyranny of Washington, D.C., and finally established the Northwest American Republic as an independent nation. Freedom's Sons chronicles the first fifty years of the NAR's existence as a country and a new society, including the struggle against crushing economic sanctions imposed by the outside world, as well as an attempt by the enraged Americans to reconquer the Northwest with a military invasion. The novel follows the fortune of three families, one of former rebel guerrilla fighters from the Northwest Volunteer Army, one Unionist, and one refugee family who flees to the Republic from the collapsing U.S.A. Freedom's Sons is a story of redemption and the triumph of the human spirit over the darkness now engulfing the world.

Lone Wolf Terror and the Rise of Leaderless Resistance George Michael, 2021-04-30 On July 22, 2011, Anders Behring Breivik detonated a car bomb in downtown Oslo, Norway. He didn't stop there, traveling several hours from the city to ambush a youth camp while the rest of Norway was distracted by his earlier attack. That's where the facts end. But what motivated him? Did he have help staging the attacks? The evidence suggests a startling truth: that this was the work of one man, pursuing a mission he was convinced was just. If Breivik did indeed act alone, he wouldn't be the first. Timothy

McVeigh bombed a federal building in Oklahoma City based essentially on his own motivations. Eric Robert Rudolph embarked on a campaign of terror over several years, including the Centennial Park bombing at the 1996 Olympics. Ted Kaczynski was revealed to be the Unabomber that same year. And these are only the most notable examples. As George Michael demonstrates in *Lone Wolf Terror and the Rise of Leaderless Resistance*, they are not isolated cases. Rather, they represent the new way warfare will be conducted in the twenty-first century. *Lone Wolf Terror* investigates the motivations of numerous political and ideological elements, such as right-wing individuals, ecoextremists, foreign jihadists, and even quasi-governmental entities. In all these cases, those carrying out destructive acts operate as lone wolves and small cells, with little or no connection to formal organizations. Ultimately, Michael suggests that leaderless resistance has become the most common tactical approach of political terrorists in the West and elsewhere.

Apocalypse, Revolution and Terrorism Jeffrey Kaplan, 2018-09-21 This book focuses on religiously driven oppositional violence through the ages. Beginning with the 1st-century Sicari, it examines the commonalities that link apocalypticism, revolution, and terrorism occurring in Judaism, Christianity, and Islam past and present. It is divided into two sections, 'This was Then' and 'This is Now', which together examine the cultural and religious history of oppositional violence from the time of Jesus to the aftermath of the 2016 American election. The historical focus centers on how the movements, leaders and revolutionaries from earlier times are interpreted today through the lenses of historical memory and popular culture. The radical right is the primary but not exclusive focus of the second part of the book. At the same time, the work is intensely personal, in that it incorporates the author's experiences in the worlds of communist Eastern Europe, in the Iranian Revolution, and in the uprisings and wars in the Middle East and East Africa. This book will be of much interest to students of religious and political violence, religious studies, history, and security studies.

Critical Theory and the Authoritarian Personality Geoff M. Boucher, 2025-01-31 The worldwide resurgence of authoritarianism has sparked renewed interest in the Frankfurt School theory of the authoritarian personality, not as a topic of academic debate but as an urgent political factor. *Critical Theory and the Authoritarian Personality* brings Theodor Adorno's critique up-to-date in light of new forms of authoritarian politics, recent kinds of authoritarian propaganda and current findings about authoritarian personalities. Drawing on the work of Slavoj Žižek and the psychoanalysis of Jacques Lacan, this is the first sustained application of psychoanalytic theory to the problem of the authoritarian personality since the classical work of the Frankfurt School. It explores a pressing problem—the resurgence of the radical Right—and proposes new solutions, grounded in the idea of an affective approach to authoritarian politics as something based on transgressive fantasies and political anxieties. Throughout, the book illustrates its theoretical claims with reference to new kinds of authoritarian literature, which today forms an important part of right-wing propaganda.

The Brigade H.A. Covington, 2008-04-07 The poet William Butler Yeats wrote Things fall apart; the center cannot hold.

America in the early decades of the 21st century has become a living hell. There is massive unemployment, uncontrolled immigration, along with overseas war and occupation without end of any land with crude petroleum. Total corruption in a politically correct police state, the legalized murder of the elderly, and the loss of the social safety net have created intolerable desolation and made life for everyday people a nightmare. Finally, Americans can take no more, and in the Pacific Northwest they revolt. Led by embittered Iraq veterans, ex-convicts, teenagers, and blue-collar family men and women driven to desperation, in Portland and along Oregon's northern coast, they join The Brigade.
