Walter Edwin Lear, Esten Kenneth Williams

Secrets and Lies Jane Isay, 2014-10-07 A compellingly readable journey into the realm of family secrets, offering lessons and insights for those who are hiding the truth and for those who discover what has long been hidden. Jane Isay was both a secret finder and a secret keeper. After fifteen years of marriage, her husband revealed he was gay, but together they decided to keep it a secret for the sake of their two sons. Building on her personal experience, sixty intimate interviews, and extensive research into the psychology of secrets, Isay shows how the pain of deception can be lightened by full disclosure, genuine apology, and time. Though secrets can damage our sense of self and our relationships, Isay shows how people can survive even the most disturbing revelations.

Origins of Secret Societies Richard Stevko, 2017-01-29 A speculative inquiry into the origins of Mankind's thinking about the unknown and steps taken to increase understanding of Life's mysteries.

Mind is the Master James Allen, 2009-12-24 The classic books of the motivational visionary, collected for the first time in a single volume. Featuring nineteen beloved works, including *As a Man Thinketh*, *Eight Pillars of Prosperity*, *The Mastery of Destiny*, and *From Poverty to Power*, here is the first-ever comprehensive and definitive collection of the books of self-help pioneer James Allen. Formatted in a large, easy-to-read workbook size, with fully redesigned and reset text, *Mind Is the Master* provides a lifetime's worth of wisdom and guidance from one of history's leading voices of self-affirming and motivational philosophy. *Mind Is the Master* compiles Allen's most celebrated books, along with little-known gems and posthumous works—such as *Foundation Stones to Happiness and Success* and *Light on Life's Difficulties*—awaiting discovery by a whole new generation of readers. As a special bonus, *Mind Is the Master* includes a rare remembrance of James Allen by his wife and intellectual partner, Lily Allen. It is an invaluable window on the life and inner world of a writer whose insights touched millions of readers.

Formal Ontology in Information Systems Boyan Brodaric, Fabian Neuhaus, 2020-11-15 FOIS is the flagship conference of the International Association for Ontology and its Applications, a non-profit organization which promotes interdisciplinary research and international collaboration at the intersection of philosophical ontology, linguistics, logic, cognitive science, and computer science, as well as in the applications of ontological analysis to conceptual modeling, knowledge engineering,

knowledge management, information-systems development, library and information science, scientific research, and semantic technologies in general. This volume presents the 17 papers accepted for the 11th Formal Ontology in Information Systems conference (FOIS 2020). These papers cover a broad range of topics and are organized into 5 groups. Foundations is dedicated to the general ontological decisions providing a foundation for any ontology, both from a philosophical perspective and with an emphasis on applications. Social Entities is dedicated to the ontological analysis and formalization of various social entities, including secrets, legal theories, decisions, kinship, and cultural heritage. The papers in Intentionality and Embodiment analyze aspects of an agent's intentions, beliefs and desires, as well as the embodiment of functional relations. The section on Parts and Wholes is dedicated to mereology as well as the mereological analysis of certain types of entities (e.g., pluralities, information entities, and computer programs). Lastly, the papers in Methods are about ontology evaluation and use. Altogether, the papers reflect traditional FOIS themes with perhaps a greater emphasis on social and agent aspects, and will be of interest to all those whose work involves ontology and its applications.

The Keeper of Hidden Books Madeline Martin, 2023-07-04 All her life, Zofia has found comfort in two things during times of hardship: books and her best friend, Janina. But no one could have imagined the horrors of the Nazi occupation in Warsaw. As the bombs rain down and Hitler's forces loot and destroy the city, Zofia finds that now books are also in need of saving. With the death count rising and persecution intensifying, Zofia jumps to action to save her friend and salvage whatever books she can from the wreckage, hiding them away and even starting a clandestine book club. She and her dearest friend never surrender their love of reading, even when Janina is forced into the newly formed ghetto. But the closer Warsaw creeps toward liberation, the more dangerous life becomes for the women and their families--and escape may not be possible for everyone. As the destruction rages around them, Zofia must fight to save her friend and preserve her culture and community using the only weapon they have left--literature.

The Hidden Church of the Holy Graal Arthur Edward Waite, 1909 The author was among the first to study western occultism as a spiritual tradition rather than as pseudoscience or religion. Moon Phase Astrology Raven Kaldera, 2011-03-28 A guide to understanding the phases of astrological Moon signs and their effects on emotions and personality • Describes the positive and negative character-defining traits of each of the 96

Moon phase/Moon sign combinations • Explains how to use your natal Moon's sign and phase to predict how current and approaching Moons can affect you • Explores the universal challenges arising during each Moon phase throughout the year and ways to honor each phase as it passes The Moon's ever-changing phases offer a way to deepen our understanding of our natal Moon sign as well as the Moon's day-to-day influence on our emotional tides. Through its 8 phases and its wandering dance through each of the 12 signs of the Zodiac--from the Infant's Moon (the New Moon in Aries) to the Storyteller's Moon (the Full Moon in Gemini) to the Prophet's Moon (the waning Balsamic Moon in Aquarius)--the Moon shares its story in 96 different ways. Telling the stories of the heart of all 96 Moon phase and Moon sign combinations, Raven Kaldera explains the creative gifts and emotional challenges bestowed upon those born under each Moon archetype as well as how to nurture the positive traits and improve--or at least discourage--the negative ones. Exploring the influences each Moon archetype has on us as it passes, the author reveals which Moons are the most difficult, what innate qualities each Moon brings out in us, and what we can do to honor each Moon. Including evocative quotes illuminating the nature of each Moon, Kaldera shows how to use your natal Moon's astrological sign and phase to find your "hidden Moons"--the shadows cast by passing Moons--and predict how current and approaching Moons will affect you.
