The Power of Now Eckhart Tolle, 1999-09-27 Eckhart Tolle is emerging as one of today's most inspiring teachers. In *The*

Power of Now, already a word-of-mouth bestseller in Canada, the author describes his transition from despair to self-realization soon after his 29th birthday. Tolle took another ten years to understand this transformation, during which time he evolved a philosophy that has parallels in Buddhism, relaxation techniques, and meditation theory but is also eminently practical. In The Power of Now he shows readers how to recognize themselves as the creators of their own pain, and how to have a pain-free existence by living fully in the present. Accessing the deepest self, the true self, can be learned, he says, by freeing ourselves from the conflicting, unreasonable demands of the mind and living present, fully, and intensely, in the Now.

Awaken the Power Within Albert Amai, 2018-06-05 The \$12 billion self-help industry is under constant attack for pedaling false miracles to duped believers. But sociologist Albert Amai demonstrates that Americans eagerly support self-

help books, seminars, and programs because, under the right conditions, these things work. Sociologist Albert Amao analyzes the accuracy of self-help and positive-thinking claims in this groundbreaking--and wholly unexpected--exploration of what works, what doesn't, and why. Regarding my personal experience, Amao writes, I can testify that positive thinking and positive action have worked wonderfully for me. Born in a poor Latin-American country into a very impoverished family with both parents practically illiterate, I was the oldest of five children. I started working when I was six years old, shining shoes and selling newspapers to help my family. Nobody then would have believed that I would be able to finish high school. Nevertheless, I was able to do it going to night school, which allowed me to be admitted at the San Marcos University in Lima to get my Ph.D. in sociology. All these things were possible because, when I was teenager, I had access to New Thought, or positive-thinking philosophy. Contrary to the critics who blithely dismiss self-help methods, or the New Age gurus who sell it them as miracles, Amao--writing with sobriety, scholarship, and drawing on deep personal experience--explores the conditions under which self-help is authentic.

Shift Your Mind Brian Levenson, 2020-10-06 Shift Your Mind is a powerful and essential read for anyone who wants to be the best at what they do. —Daniel H. Pink, New York Times bestselling author of When and Drive Greatness is a matter of timing. Executive and mental performance coach Brian Levenson has spent years working with high performers in sports, business, and culture. And from the field to the boardroom, he noticed something surprising. Talented people were failing to reach their goals, not because they lacked the necessary skills, but because they didn't understand the mental processes that fueled them. When it comes to high performance, talent isn't enough. He began interviewing former CIA agents, world-class chefs, astronauts, athletes, CEOs, and more to find a solution, and soon realized that elite performers have one thing in common. They shift between complementary mindsets, one for preparing effectively and one for delivering when it counts. Only by practicing both mindsets do the best of the best—such as swimmer Diana Nyad, performer Taylor Swift, and legendary football coach Tom Coughlin—move seamlessly from drills to game-changing plays and back again. In Shift Your Mind, you'll learn nine key mental shifts to help you think like a high performer: humble and arrogant work and play perfectionistic and adaptable analysis and instinct experimenting and trusting process uncomfortable and comfortable future and present fear and fearlessness selfish and selfless With exercises, examples, and actionable tips, each chapter explores the power of the shift through skills like visualization, mindfulness, and self-talk. Make the right moves at the right time with Shift Your Mind.

Summary of the Power of Now Book Summary, CREATESPACE INDEPENDENT PUB, 2016-07-26 The Power of Now: A Guide to Spiritual Enlightenment by Eckhart Tolle | Book Summary Eckhart Tolle is a spiritual teacher who does not associate with any singular religion. Despite his confidence in his work on Enlightenment, we must not think of him as some prophet sent to us with these teachings. He was merely a man who was looking for a meaning, just like the rest of us. Although Tolle states that we should not look back at the past and allow it to shape us, he does relive his past in his introduction to share with us how he became so Enlightened. He questioned, just like a lot of us, what is there for me? It was this question that made him realize his thinking and why he would think it. It was then that he decided to focus on the thinking, watching it and not judging, but try to change it. Through his own transforming experience, he has brought us a way to transform ourselves. To stop thinking, what is there for me (to stop thinking in general) and realize what we truly have, the present. The Now. Here Is A Preview Of What You'll Learn... The Power of Now by Eckhart Tolle - A 15-minute Instaread Summary Instaread Summaries, 2014-10-21 PLEASE NOTE: This is a summary of the book and NOT the original book. The Power of Now by Eckhart Tolle - A 15-minute Instaread Summary Inside this Instaread Summary: • Overview of the entire book • Introduction to the important people in the book • Summary and analysis of all the chapters in the book • Key Takeaways of the book • A Reader's Perspective Preview of this summary: Chapter 1 Enlightenment, a feeling of awareness, peace, and joy, comes from within a person, not from outside sources. Enlightenment is an end to suffering and a feeling of connection to a person's own true self and to the world. Enlightenment is being aware of a person's own deepest self or Being. People have difficulty experiencing Being because of their identification with their own minds. Their own thoughts keep them from finding the stillness needed to experience

Being. When people identify with their thoughts, it blocks their relationships with others, nature, and God. Those who can observe themselves thinking realize that they are not their mind and that all things of importance, such as beauty, joy, love, and inner peace, come from beyond the mind. This state of consciousness is achieved when people feel their own presence beyond their thoughts, emotions, and physical bodies. Another way to experience enlightenment is to focus all attention on the now, the present moment. The ego, or false self, barely notices the present moment. To the ego, only the past and the future are important. Emotions are thoughts that are felt in the body. To reach full consciousness, people need to be able to see their emotions as separate from themselves...
