**Intimate Deception** Dr. Sheri Keffer, 2018-03-20 Nothing destroys trust like sexual betrayal. Beyond broken vows, a woman who discovers that the man she loves has been viewing pornography or having an affair must deal with devastating blows to her self-image and self-worth. She must grapple with the fact that the man she thought she knew has lied and deceived her. She may even bear the brunt of shame and judgment when the people around her find out. Drawing from her experience both as a marriage and family therapist and a woman who personally experienced the devastation of sexual betrayal, Dr. Sheri Keffer walks women impacted by betrayal through the pain and toward recovery. She explains how the trauma of betrayal affects our minds, bodies, spirits, and sexuality. She offers practical tools for dealing with emotional triggers and helps women understand the realities of sexual addiction. And she shows women how to practice self-care, develop healthy boundaries, protect themselves from abuse or manipulation, and find freedom from the burden of shame and guilt.

**Men and Loss** Kerry Jones, Martin Robb, 2024-07-19 This important book draws together new research and theories about bereavement, on the one hand, and men and masculinities on the other, to increase our understanding of men's experience of loss and contribute towards improving support services for men following bereavement. Bereavement and loss are unavoidable events in life and can be challenging experiences for anyone, regardless of gender. However, in contemporary western cultures, men's experience of bereavement continues to be framed by socially constructed ideas surrounding masculinity, which dictate that men must be stoic following a loss, with grief manifesting in either anger or despair. Men who do not grieve in accepted 'masculine' ways can feel judged, alienated or disenfranchised. This interdisciplinary and interprofessional collection presents theoretical analysis, reports of research findings, reviews of

support and interventions, and a wealth of personal accounts. It includes chapters discussing partner loss, childhood bereavement, perinatal loss and bereavement through suicide, as well as bereavement at all stages of the life course. Men and Loss is an essential read for advanced students and researchers with an interest in men's health and bereavement studies from a range of disciplinary backgrounds, including nursing, medicine, counselling, sociology, social work and psychology.
