

An Eye For An Eye Capital Punishment

Vincent R. Jones Sr.

An Eye for an Eye? Stephen Nathanson, 1987 The right of the state to take life has become the epitome of the unresolvable issue. In *An Eye for an Eye?* philosopher Stephen Nathanson examines the moral issues concerning the legitimacy of the death penalty, explaining and evaluating the evidence for and against the death penalty.

An Eye for an Eye? Stephen Nathanson, 2001-10-16 The death penalty issue has become the epitome of the unresolvable issue, the question which people answer on the basis of gut reactions rather than logical arguments. In the second edition of *An Eye for an Eye?* Stephen Nathanson evaluates arguments for and against the death penalty, and ultimately defends an abolitionist position to the controversial practice, including arguments that show how and why the death penalty is inconsistent with respect for life and a commitment to justice. A timely new postscript and an updated bibliography accompany the volume.

The Problem with Capital Punishment and Why It Should Be Abolished in America Vincent R. Jones Sr., 2023-11-06 One of the most controversial subjects in criminal law is whether or not we should continue to use capital punishment as the ultimate punitive sanction. The intended focus of *The Problem with Capital Punishment and Why It Should Be Abolished in America* is to take a harsh, critical look at theories in support of the use of this form of punishment and expose the truth about capital punishment: it is extremely costly; it is arbitrarily applied; there have been too many innocent persons exonerated from death row; and the only consistency with execution seems to be that of the mentally ill, the poor, and those without adequate legal representation and by using methods that are inhumane and “cruel and unusual”. This book shows that our current system of capital punishment is fraught with error, insanely expensive, and administered in such a manner that the possibility of executing a completely innocent person is not only possible but likely if we continue upon our present course. After reading this book, the reader will be left with no reasonable doubt that the time has come to abolish capital punishment in America.

Debating the Death Penalty Hugo Adam Bedau, Paul G. Cassell, 2005-03-24 Experts on both side of the issue speak out both for and against capital punishment and the rationale behind their individual beliefs.

Questioning Capital Punishment James R. Acker, 2014-06-13 The death penalty has inspired controversy for centuries. Raising questions regarding capital punishment rather than answering them, *Questioning Capital Punishment* offers the

footing needed to allow for more informed consideration and analysis of these controversies. Acker edits judicial decisions that have addressed constitutional challenges to capital punishment and its administration in the United States and uses complementary materials to offer historical, empirical, and normative perspectives about death penalty policies and practices. This book is ideal for upper-level undergraduate and graduate classes in criminal justice.

An Eye for an Eye Mitchel P. Roth, 2014-10-15 From “an eye for an eye” to debates over capital punishment, humanity has a long and controversial relationship with doling out justice for criminal acts. Today, crime and punishment remain significant parts of our culture, but societies vary greatly on what is considered criminal and how it should be punished. In this global survey of crime and punishment throughout history, Mitchel P. Roth examines how and why we penalize certain activities, and he scrutinizes the effectiveness of such efforts in both punishing wrongdoers and bringing a sense of justice to victims. Drawing on anthropology, archaeology, folklore, and literature, Roth chronicles the global history of crime and punishment—from early civilizations to the outlawing of sex crimes and serial homicide to the development of organized crime and the threat today of global piracy. He explores the birth of the penitentiary and the practice of incarceration as well as the modern philosophy of rehabilitation, arguing that these are perhaps the most important advances in the effort to safeguard citizens from harm. Looking closely at the retributions societies have condoned, Roth also looks at execution and its many forms, showing how stoning, hemlock, the firing squad, and lethal injection are considered either barbaric or justified across different cultures. Ultimately, he illustrates that despite advances in every level of human experience, there is remarkable continuity in what is considered a crime and the sanctions administered. Perfect for students, academics, and general readers alike, this interdisciplinary book provides a fascinating look at criminality and its consequences.

Against the Death Penalty Jon Yorke, 2008 This edited volume brings together leading scholars on the death penalty within international, regional and municipal law. It considers the intrinsic elements of both the promotion and demise of the punishment around the world, and provides analysis which contributes to the evolving abolitionist discourse.

Routledge Handbook on Capital Punishment Robert M. Bohm, Gavin Lee, 2017-12-15 Capital punishment is one of the more controversial subjects in the social sciences, especially in criminal justice and criminology. Over the last decade or so, the United States has experienced a significant decline in the number of death sentences and executions. Since 2007, eight states have abolished capital punishment, bringing the total number of states without the death penalty to 19, plus the District of Columbia, and more are likely to follow suit in the near future (Nebraska reinstated its death penalty in 2016). Worldwide, 70 percent of countries have abolished capital punishment in law or in practice. The current trend suggests the eventual demise of capital punishment in all but a few recalcitrant states and countries. Within this context, a fresh look at capital punishment in the United States and worldwide is warranted. The Routledge Handbook on Capital Punishment

comprehensively examines the topic of capital punishment from a wide variety of perspectives. A thoughtful introductory chapter from experts Bohm and Lee presents a contextual framework for the subject matter, and chapters present state-of-the-art analyses of a range of aspects of capital punishment, grouped into five sections: (1) Capital Punishment: History, Opinion, and Culture; (2) Capital Punishment: Rationales and Religious Views; (3) Capital Punishment and Constitutional Issues; (4) The Death Penalty's Administration; and (5) The Death Penalty's Consequences. This is a key collection for students taking courses in prisons, penology, criminal justice, criminology, and related subjects, and is also an essential reference for academics and practitioners working in prison service or in related agencies.

Murder, Capital Punishment, and the Law John Stolz, 1873

A Comparative Analysis of Capital Punishment Rita J. Simon, Dagny A. Blaskovich, 2002-08-15 A Comparative Analysis of Capital Punishment provides a concise and detailed history of the death penalty. Incorporating and synthesizing public opinion data and empirical studies, Simon and Blaskovich's work compares, across societies, the offense types punishable by death, the level of public support for the death penalty, the forms the penalty takes, and the categories of persons exempt from punishment. It examines the effectiveness of the death penalty as a deterrent to violent offenses, especially homicide,

the extent to which innocent persons have become the victims of capital punishment, and occurrences of state sponsored genocide and democide. This book is a practical and useful tool for public policy makers, criminal justice practitioners, students, and anyone who seeks to better understand the worldwide debate on this controversial social issue.
