George Orwell the Essayist Peter Marks, 2015-04-03 George Orwell is acclaimed as one of English literature's great essayists. Yet, while many are considered classics, as a body of work his essays have been neglected. Peter Marks provides the first sustained study of Orwell the essayist, giving these compelling pieces the critical attention they merit. Orwell employed the essay as a tool to entertain, illuminate and provoke readers across an array of topics. Marks situates the essays in their original contexts, exploring how journals influenced the type of essay Orwell wrote. Acknowledging this periodical culture helps explain the tactics Orwell employed, the topics he chose and the audiences he addressed. Orwell's first and last published works were essays, providing evidence of the development of his cultural and political views over two decades.

Essays helped him fashion his distinctive literary 'voice' and Mark traces how their afterlife contributes to Orwell's posthumous reputation. Arguing the essays are central to Orwell's enduring literary, political and cultural value, Marks shows how we understand the complexities, subtleties, and contradictions of Orwell better when we understand his essays.

**Media Ecologies of Literature** Susanne Bayerlipp, Ralf Haekel, Johannes Schlegel, 2022-11-03 This book explores the media ecologies of literature – the ways in which a literary text is interwoven in its material, technical, performative, praxeological, affective, and discursive network and which determine how it is experienced and interpreted. Through novel approaches to the complex, contingent and interdependent environments of literature, this volume demonstrates how questions about the mediality of literature – particularly in the wake of digitization – shed a new light on our understanding of textuality, reading, platforms and reception processes. By drawing on recent developments in advanced media theory, Media Ecologies of Literature emphasizes the productivity of innovative re-conceptualizations of literature as a medium in its own right. In an intentionally wide historical scope, the essays engage with literary texts from the Romantic to the contemporary period, from Charlotte Smith and Oscar Wilde to A. L. Kennedy and Mark Z. Danielewski, from the traditionally printed novel to audiobooks and reading apps.

**Orwell on Reading: Bookshop Memories, Good Bad Books, Nonsense Poetry, Books vs. Cigarettes and Confessions of a Book Reviewer** George Orwell, 2022-11-15 George Orwell set out 'to make political writing into an art', and to a wide extent this aim shaped the future of English literature – his descriptions of authoritarian regimes helped to form a new vocabulary that is fundamental to understanding totalitarianism. While 1984 and Animal Farm are amongst the most popular classic novels in the English language, this new series of Orwell's essays seeks to bring a wider selection of his writing on politics and literature to a new readership. On Reading, the seventh in the Orwell's Essays series, collects together Orwell's short essays on books – 'Bookshop Memories', 'Good Bad Books', 'Nonsense Poetry', 'Books vs. Cigarettes' and 'Confessions of a Book Reviewer' – giving a rounded view of the great writer's opinions on the literature of his day, and the vessels in which it was sold.

**State Sponsored Literature** Asha Rogers, 2020-03-05 Debates about the value of the 'literary' rarely register the expressive acts of state subsidy, sponsorship, and cultural policy that have shaped post-war Britain. In State Sponsored Literature, Asha Rogers argues that the modern state was a major material condition of literature, even as its efforts were relative, partial, and prone to disruption. Drawing from neglected and occasionally unexpected archives, she shows how the state became an integral and conflicted custodian of literary freedom in the postcolonial world as beliefs about literature's 'public' were radically challenged by the unrivalled migration to Britain at the end of Empire. State Sponsored Literature

retells the story of literature's place in post-war Britain through original analysis of the institutional forces behind canon-formation and contestation, from the literature programmes of the British Council and Arts Council and the UK's fraught relations with UNESCO, to GCSE literature anthologies and the origins of The Satanic Verses in migrant Camden. The state did not shape literary production in a vacuum, Rogers argues, but its policies, practices, and priorities were also inexorably shaped in turn. Demonstrating how archival work can potentially transform our understanding of literature, this book challenges how we think about literature's value by asking what state involvement has meant for writers, readers, institutions, and the ideal of autonomy itself.

I venture to write again on themes on which great souls have already said greater words, in the hope that I may strike here and there a half-tone, newer even if slighter, up from the heart of my problem and the problems of my people. From Printing to Streaming Michael Chanan, 2022-10-20 For mainstream economics, cultural production raises no special questions: creative expression is to be harvested for wealth creation like any other form of labour. As Karl Marx saw it, however, capital is hostile to the arts because it cannot fully control the process of creativity. But while he saw the arts as marginal to capital accumulation, that was before the birth of the mass media. Engaging with the major issues in Marxist theory around art and capitalism, *From Printing to Streaming* traces how the logic of cultural capitalism evolved from the print age to digital times, tracking the development of printing, photography, sound recording, newsprint, advertising, film and broadcasting, exploring the peculiarities of each as commodities, and their recent transformation by digital technology, where everything melts into computer code. Showing how these developments have had profound implications for both

cultural creation and consumption, Chanan offers a radical and comprehensive analysis of the commodification of artistic creation and the struggle to realise its potential in the digital age.
