Ceremoniales: Fiestas y nación. Marcos González Pérez,2012 A través de la relación territorio-comunidad ciudad-nación, este texto aborda la descripción y análisis de los ceremoniales de la comunidad muisca, cuyo mundo ritual estaba pleno de manifestaciones que se relacionaban con la naturaleza, con sus creencias cosmogónicas y religiosas y con elementos de la vida como colectivo, aspectos que les implicaba definir tiempos, espacios y lugares para su escenificación. Considerados estos ceremoniales como ejes de sostenibilidad de una comunidad cultural y política, proseguimos el análisis tomando como campo el choque con referentes diferentes, impuestos por la presencia española, a partir de la década de 1530. Se analizan las implicaciones surgidas del cruce de estos dos mundos y nos adentramos en la descripción e interpretación de las denominadas fiestas religiosas del cristianismo y las estatales de la monarquía española, escenificadas en el territorio de lo que hoy se nomina Bogotá. El estudio analiza las variaciones o permanencias que se presentan con el advenimiento de la independencia neogranadina en el siglo XIX, época en la cual Bogotá se convierte en uno de los lugares donde se escenifica una nueva tipología de fastos que celebra diversos referentes, de tal manera que la ciudad sirve de plataforma para la puesta en escena de fiestas de las constituciones, patrióticas, nacionales, julias, cívicas, republicanas y de resacralización del hispanismo. Es una época de disputas entre la modernidad, la modernización y la tradición, conceptos estos que serán puestos en escena en las manifestaciones festivas. De igual manera, se estudian las festividades de celebración de las victorias militares a finales del siglo XIX, en que sobresalen las ceremonias de triunfo en las guerras internas, así como los festejos, en Bogotá, del Centenario de la Independencia en 1910, culminando el análisis con una interpretación sobre la historia del Himno Nacional, como emblema de nación moderna, visto en el marco de las complejidades políticas y sociales que se vivían en la época de su promulgación oficial en 1920.

La construcción de la democracia en la provincia de Alicante (1977-1982) Francisco Moreno Sáez,2013 Este libro, es la continuación del que estudia La transición a la democracia en la provincia de Alicante (1974-1977), también publicado por este Instituto. Las elecciones de junio de 1977, si no fueron plenamente democráticas, abrieron el camino hacia la

democracia y en esa etapa, que va desde esos comicios hasta los de octubre de 1982, se tuvo que proceder a la construcción de todo un Estado, en unas circunstancias muy difíciles: la situación económica, con una inflación del 24% y un paro cercano también a esa cifra; el lastre de estructuras y mentalidades propias del franquismo; y las amenazas terroristas y golpistas. La construcción de un sistema democrático conllevaba la elaboración de la Constitución y numerosas modificaciones legislativas, la conformación de unos partidos políticos y sindicatos salidos en su mayoría de la nada franquista, la creación de poderes locales democráticos, etc. Aunque en esos años cundiese, entre muchos, el desencanto, al comprobar que la democracia no resolvía, por sí sola, los problemas acumulados durante tantos años, y aunque actualmente se esté procediendo a una especie de revisión de la transición en su conjunto, lo cierto es el proceso se realizó de forma más que aceptable, dada su dificultad y la correlación de fuerzas entre lo viejo y lo nuevo. Y de este modo, se logró el asentamiento de la democracia de una forma sólida, como jamás se había dado antes en la historia de España, democracia caracterizada por los mismos defectos y las mismas virtudes que en otros países de nuestro entorno.

El Poder en el Perú Augusto Alvarez Rodrich, 1993 Brief essays by leading Peruvian academics and essayists on the changing power dynamics in Peru's public and private institutions, organizations, and groups over the 1980s and early 1990s. Suggest that, in Peru at least, constellations and dynamics of power are fluid--Handbook of Latin American Studies, v. 57.

Diversidad cultural y construcción de identidades ,1993

Diversidad, interculturalidad y construcción de ciudad ,2008

La larga espera de los coches renovables Elena Martín Fierro, 2017-12-19 En 1991 existían dos mil coches electrosolares circulando en Suiza, con una estación y varios Puntos de Recarga de energías Renovables, pero nadie lo sabía. ¿Imaginas que una estudiante intentara que las administraciones públicas de las Islas Canarias y de España copiaran ese modelo? ¿Que a punto de lograr un área de Recarga Renovable en 1992 en Tenerife -con el beneplácito de multinacionales petrolíferas- las Administraciones locales retrocedieron por el deseo de introducir el gas en Canarias? Esta historia es real y Elena Martín, activista y educadora, decide sacarla a la luz. En las páginas de este libro nos cuenta el periplo de la matriculación del primer coche eléctrico en España gracias a la participación ciudadana, una lucha de poder que involucra a activistas, ciudadanos, la administración y diversas multinacionales.
