Dumbing Us Down John Taylor Gatto, 2002-02-01 With over 70,000 copies of the first edition in print, this radical treatise on public education has been a New Society Publishers' bestseller for 10 years! Thirty years in New York City's public schools led John Gatto to the sad conclusion that compulsory schooling does little but teach young people to follow orders like cogs in an industrial machine. This second edition describes the wide-spread impact of the book and Gatto's guerrilla teaching. John Gatto has been a teacher for 30 years and is a recipient of the New York State Teacher of the Year award. His other titles include *A Different Kind of Teacher* (Berkeley Hills Books, 2001) and *The Underground History of American Education* (Oxford Village Press, 2000).

Weapons of Mass Instruction John Taylor Gatto, 2010-04-01 The transformation of schooling from a twelve-year jail sentence to freedom to learn. John Taylor Gatto's *Weapons of Mass Instruction*, now available in paperback, focuses on mechanisms of traditional education which cripple imagination, discourage critical thinking, and create a false view of learning as a byproduct of rote-memorization drills. Gatto's earlier book, *Dumbing Us Down*, introduced the now-famous expression of the title into the common vernacular. *Weapons of Mass Instruction* adds another chilling metaphor to the brief against conventional schooling. Gatto demonstrates that the harm school inflicts is rational and deliberate. The real function of pedagogy, he argues, is to render the common population manageable. To that end, young people must be conditioned to rely upon experts, to remain divided from natural alliances and to accept disconnections from their own lived experiences. They must at all costs be discouraged from developing self-reliance and independence. Escaping this trap requires a strategy Gatto calls open source learning which imposes no artificial divisions between learning and life. Through this alternative approach our children can avoid being indoctrinated-only then can they achieve self-knowledge, good judgment, and courage.

A Different Kind of Teacher John Taylor Gatto, 2001 Gatto analyzes the roots of the modern American education system, outlining prescriptions for revitalizing the system, advocating greater emphasis on critical analysis, creativity, practicality, and real-world exposure in the curriculum. He calls on educators and administrators to acknowledge student's need for a spiritual and ethical framework upon which to build a good life.

Dumbing Us Down - 25th Anniversary Edition John Taylor Gatto, 2017-05-19 Transform your child's education from institutional compliance to intellectual freedom. Former New York State Teacher of the Year John Taylor Gatto reveals how

compulsory schooling creates dependent workers instead of independent thinkers, replacing natural curiosity with rule-following conformity. Over 30 years of classroom experience led to his revolutionary discovery: genius is as common as dirt, but conventional education systematically destroys it. *Why This Educational Awakening Matters Now: After 100+ years of mandatory schooling, literacy rates have dropped, families are fragmented, and children are increasingly disaffected. This isn't failure - it's the system working exactly as designed to produce compliant workers rather than creative thinkers. What You'll Discover: The hidden curriculum that trains children for industrial compliance instead of critical thinking Step-by-step strategies for transitioning from school-based to self-directed learning How to identify and nurture your child's natural learning style and interests Practical methods for creating engaging educational experiences without formal curriculum Real-world approaches to developing critical thinking, problem-solving, and life skills Community resources and support networks for families choosing educational alternatives 25 Years of Proven Impact: This bestseller has guided over 100,000 families toward educational freedom, with children achieving remarkable academic and personal success through self-directed learning. Zachary Slayback, Ivy League dropout and tech entrepreneur, provides a powerful new foreword demonstrating how Gatto's principles create innovators and leaders. Your child's natural love of learning can't wait for education reform. Start implementing these time-tested strategies immediately to unlock their intellectual potential and creativity. Join thousands of families discovering that education works best when it honors children's innate curiosity.*

The Underground History of American Education John Taylor Gatto, 2001 The underground history of the American education will take you on a journey into the background, philosophy, psychology, politics, and purposes of compulsion schooling.

Summary of John Taylor Gatto's Dumbing Us Down Milkyway Media, 2024-01-22 Get the Summary of John Taylor Gatto's *Dumbing Us Down* in 20 minutes. Please note: This is a summary & not the original book. *Dumbing Us Down* by John Taylor Gatto is a critical examination of the American education system. Gatto, an experienced teacher, identifies a hidden curriculum within schools that teaches seven detrimental lessons: confusion, class position, indifference, emotional and intellectual dependency, conditional self-esteem, and the impossibility of hiding. These lessons promote conformity, obedience, and reliance on authority, stifling independent thought and action...

Summary of John Taylor Gatto's Dumbing Us Down Everest Media, 2022-03-27T22:59:00Z Please note: This is a companion version & not the original book. Sample Book Insights: #1 I used to teach English language and literature, but I don't anymore. I teach school, and I win awards doing it. The seven lessons that make up a national curriculum are taught from Harlem to Hollywood Hills. #2 The first lesson I teach is confusion. I teach my students that everything I teach is out of

context. I teach them disconnections, and I teach them too much. They learn about things in depth, but they learn about them like children learn the catechism or the Thirty-nine Articles of Anglicanism. #3 I teach my students that they must stay in the class where they belong. I don't know who decides where my kids belong, but that's not my business. I make sure they understand their place in the pyramid. #4 The third lesson I teach is indifference. I teach students not to care too much about anything, even though they want to make it appear that they do. They must become totally involved in my lessons, but when the bell rings, they must turn on and off like a light switch.

The Underground History of American Education, Volume I John Taylor Gatto, 2017-05-22 The World's Most Courageous Teacher reveals the inner circle secrets of the American school system. The legendary schoolteacher, John Taylor Gatto, invested over 10 years of dedicated research to uncover some of the most alarming ideas and writings by the creators and advocates of mandatory attendance schooling, which show where the system came from and why it was created. He combined these facts with his personal experience as a teacher for 30 years in New York public schools, where he won many awards, including being named State Teacher of the Year twice, and has authored an all-time classic. This book was originally published in 2001, and has been printed a number of times. However, this updated version includes new essays from the author, as well as contributions from Dr. Ron Paul, David Ruenzel, and Richard Grove. This is the first of a 3 book volume which will help the reader gain a solid understanding about the American school organization and many of the hidden, yet powerful parts. In this first of set, Mr. Gatto's humble yet bold personality, mixed with humor and class, makes it an enjoyable read, despite the importance and implications of the subject. Mr. Gatto says, It's time to take our schools back. If they mean to have a war, let it begin now.

Dumbing Us Down John Taylor Gatto, 2002-02-01 This radical treatise on public education has been a New Society Publishers' bestseller for 10 years! Thirty years of award-winning teaching in New York City's public schools led John Gatto to the sad conclusion that compulsory governmental schooling does little but teach young people to follow orders as cogs in the industrial machine. In celebration of the ten-year anniversary of *Dumbing Us Down* and to keep this classic current, we are renewing the cover art, adding new material about John and the impact of the book, and a new Foreword.

Unschooling Gina Riley, 2020-07-20 This book explores the history of the unschooling movement and the forces shaping the trajectory of the movement in current times. As an increasing number of families choose to unschool, it becomes important to further study this philosophical and educational movement. It is also essential to ascribe theory to the movement, to gain greater understanding of its workings as well as to increase the legitimacy of unschooling itself. In this book, Riley provides a useful overview of the unschooling movement, grounding her study in the choices and challenges facing families as they consider different paths towards educating their children outside of traditional school systems.

The Exhausted School John Taylor Gatto, 2002 These 13 essays illustrate how education reform actually works. Written

by award-winning teachers and their students, these essays present successful teaching methods.

Surviving the Apocalypse in the Suburbs Wendy Brown, 2011-04-05 Based on the premise that we have 21 days before we lose our modern conveniences, *Surviving the Apocalypse in the Suburbs* is packed with practical solutions for becoming more self-reliant and transitioning to a lower energy lifestyle. From shelter to livestock to transportation to tools, this is the ultimate guide to simplifying your lifestyle while reducing your dependence on oil.

Homeschooling: a Hope for America Carl Watner, 2017-11-15 HOMESCHOOLING A HOPE FOR AMERICA is a collection of articles taken from *The Voluntarist*, a newsletter with a libertarian outlook which has been published since 1982. The anthology has been assembled by Carl Watner (from many of his past articles, as well as those of others), and contains an original Foreword by John Taylor Gatto. This anthology argues against government education in a unique way. One who advocates voluntarism opposes government schools, not because he opposes schooling but, because he opposes coercion, which is to be found in government taxation, compulsory attendance laws, and in the monopolization of public services. Most of us would agree that there should not be any state religion; that religion should not be supported by taxation; and that people should not be compelled to attend religious services. Why shouldn't the principles of voluntarism in religion apply to education? All government depends on the cooperation and/or tacit consent of the majority of its citizens. When the state could no longer use government churches to legitimize its rule of the divine right of kings, some other institution had to be found that would induce consent among the masses. Government schools became the chosen instrument to produce good citizens for the state. Indoctrinate the young: then they will support the state for the rest of their lives. America is at a cross roads of cultural and economic disintegration, yet voluntarists believe that there is hope. It is to be found in home schooling. Rather than cursing the darkness, parents can light one small candle of wisdom and learning and pass it along to the next generation. Ages of experience testify that the only way society can be improved is by the individualist method; ... that is, the method of each one doing his best to improve one. This is the quiet or patient way of changing society because it concentrates upon bettering the character of men and women as individuals. As the individual units change, the improvement in society will take care of itself. In other words, if one takes care of the means, the end will take care of itself.

The Exhausted School John Taylor Gatto, 1993

Guerrilla Learning Grace Llewellyn, Amy Silver, 2008-05-02 GUERRILLA LEARNING IS CREATING A HOME ENVIRONMENT THAT FILLS YOUR CHILD WITH THE JOY OF LEARNING Let your daughter read her library books instead of finishing her homework . Ask your eleven-year-old's beloved third grade teacher to comment on his poetry. Invite a massage therapist to dinner because your daughter wants to go to massage school instead of college. Give your child the

freedom to pursue his interests, develop her strengths, cultivate self-discipline, and discover the joy of learning throughout life. If you've ever felt that your child wasn't flourishing in school or simply needs something the professionals aren't supplying, you're ready to become a guerrilla educator. Revolutionary and inspiring, Guerrilla Learning explains what's wrong (and what's useful) about our traditional schools and shows you how to take charge of your family's education to raise thinking, creative young people despite the constraints of traditional schooling. Filled with fun and exciting exercises and projects to do with children of all ages, this remarkable approach to childhood, education, and life will help you release your child's innate abilities and empower him or her in the wider world that awaits beyond the school walls.

The Case Against Adolescence Robert Epstein, 2007 This groundbreaking book argues that adolescence is an unnecessary period of life that people are better off without. Robert Epstein, former editor-in-chief of Psychology Today, shows that teen turmoil is caused by outmoded systems put into place a century ago which destroyed the continuum between childhood and adulthood. Where this continuum still exists in other countries, there is no adolescence. Isolated from adults, American teens learn everything they know from their media-dominated peers--the last people on earth they should be learning from, says Epstein. Epstein explains that our teens are highly capable--in some ways more capable than adults--and argues strongly against infantilizing young people. We must rediscover the adult in every teen, he says, by giving young people adult authority and responsibility as soon as they can demonstrate readiness. This landmark book will change the thinking about teens for decades to come.

The State of the American Mind: Stupor and Pathetic Docility Volume Ii Amechi Okolo, 2010-06-11 This book, *The State of the American Mind: Stupor and Pathetic Docility Volume One* begins to unravel some of the most obvious, perplexing, embarrassing and enduring problems and contradictions of American history and sociology, viz., how could the American revolution that started with the most ringing and most inspiring Declarations of human equality in world history end up establishing the most vicious, exploitative society the world ever knew Black chattel slavery and only ten percent white enfranchisement, etc. Further, how could men of such great wisdom and intellect like George Washington, James Madison, Thomas Jefferson, and others who were Enlightenment scholars and clearly knew that slavery was despicable and evil, because they had variously experienced white servitude and slavery themselves, collude to establish and institutionalize the horrible system of Negro chattel slavery in America; and also disenfranchised over 90 percent of people of their own race actions that racism could not explain. The structural/institutional slavery system they established, and the resultant consequent racism hobbles America today as it did in the past, and forced Eric Holder, the Attorney General to declare that, America is a nation of cowards, when it comes to race discussions. Thus, this book starts with serious critical discussions of race in America and reveals what no textbook has ever done, viz., that most early American whites and Blacks were slaves an uncomfortable fact that would shock most Americans because it contradicts the orthodoxy or the dominant narrative that

only Blacks were brought here in chains. Further, the book also shows the year Black slavery started something almost, all textbooks got wrong. It also shows who, was the first Black slave in America something no textbook ever mentions. It also shows when and how racism started in America and many other very sensitive and embarrassing but necessary issues that America avoids but must be frankly discussed for America to move forward. This book therefore shatters the two dominant themes of Americas history and sociology that Blacks were brought into America in chains as slaves while whites came to America in search of freedom, as Harvard educated President Obama famously told us in his race speech. Thus, the crowning lesson of this book, in addition to discussing some critical policy issues like education, health care, etc., is that it discovers the centripetal force of the American society that eluded contemporary Americans because American bosses have laboriously concealed the facts from the public the scary but clearly healthy uniting fact that most Americans are united by their common ancestry, their universal history and experience of servitude, bond-indentures and slavery. Nothing is more universal, more common and more shared in American history and sociology than the fact that most of our ancestors, black and white, were servants, bond-indentures and slaves who were dominated and super-exploited by few overlords. Colonial America was the preferred dumping ground for British, outcasts, rejects, criminals, masterless class, vagabonds, bond-indentures, slaves, etc., until 1776 when Australia replaced America as the British dump for its rejects and surplus citizens. Thus, that America was a nation founded by British rejects and losers is inherently more rational than the prevailing orthodoxy or the Obama theory of Americas founders that they were great honorable men who journeyed across the ocean for freedom because of the obvious reason that good, powerful achieving citizens do not normally emigrate to new uncharted lands.
