Master and Commander Patrick O'Brian, 2003 Patrick O'Brian's Aubrey-Maturin tales are widely acknowledged to be the greatest series of historical novels ever written. All eighteen books are being re-issued in hardback by HarperCollins with stunning new jackets to coincide with a new film based on the adventures and to introduce these modern classics to a new generation. *Master and Commander* is the first of Patrick O'Brian's now famous Aubrey/Maturin novels, regarded by many as the greatest series of historical novels ever written. It establishes the friendship between Captain Jack Aubrey RN and Stephen Maturin, who becomes his secretive ship's surgeon and an intelligence agent. It contains all the action and excitement which could possibly be hoped for in a historical novel, but it also displays the qualities which have put O'Brian far ahead of any of his competitors: his depiction of the detail of life aboard a Nelsonic man-of-war, of weapons, food, conversation and ambience, of the landscape and of the sea. O'Brian's portrayal of each of these is faultless and the sense of period throughout is acute. His power of characterisation is above all masterly. This brilliant historical novel marked the début of a writer who grew into one of our greatest novelists ever, the author of what Alan Judd, writing in the *Sunday Times*, has described as 'the most significant extended story since Anthony Powell's *A Dance to the Music of Time*'.

Crusader Castles of the Teutonic Knights (2) Stephen Turnbull, 2011-03-15 ALSO AVAILABLE TO BUY AS AN E-BOOK. The original forced conversion of pagan Livonia, what is now the Baltic states of Latvia and Estonia, was carried out by a military order known as the Brethren of the Sword. In 1236 this order was incorporated into the Teutonic Knights following a catastrophic military defeat. The knights had always consolidated their conquests through networks of castles and fortified places, and the Livonian Chapter of the Teutonic Order built castles of stone. This title covers the developmental

and operational history of these fortresses over the length of the Middle Ages. It details how the Baltic fortifications of the Teutonic Knights evolved to reflect the changing nature of siege warfare and the increasing dominance of gunpowder in warfare.
