Do Pizza Samples Really Exist? Briane Pagel,2010-02-16 Why will paying attention to Paris Hilton destroy the universe? How can one number be better than the other? Are saber teeth really necessary for a good movie monster? Would Hollywood as we know it exist if not for Jennifer Aniston's hair? These questions and more are asked, and answered, in the only book that dares to explain how jellybeans are related to the apocalypse. Essays on pop culture, things that are The Best, and life show a provocative, and hilarious, way of looking at the world.

A Poet's Choice Pascal R. Politano,2019-11-14 A Poet's Choice comprises new poems and a collection selected by the author from his earlier books of poetry. The Writer's Digest, in awarding him a first prize for unrhymed poetry, had this to say: "[His] poetry offers gracefully presented traditional language, [is] well-ordered, rhythmic and concise. It avoids prosy explanations, poetized clichés, and the mundane sentimental phrases that can often mar a poem's possible elegance." Following such predecessors as Edgar Allan Poe, H.P. Lovecraft, and Robert James Waller (whose self-published book *Love in Black and White* became the hit film *The Bridges of Madison County*), Politano has self-published all his books. This marks his fifteenth book in print. Politano tells us that ... "[His] poetry, like all art, should be enjoyed by the greatest number of people...a poem shouldn't be so personal...so "private" that no one except yourself or the person for whom you wrote it...can understand it well enough to be able to appreciate it."

East of Anywhere: Six Unlikely Poets on a Journey to Heal Rick Thorpe,2019-04-18 Therapist George Samuel creates an experimental form of group therapy for men dealing with grief. The men: a non-stereotypical bouncer, an ex-cop turned farmer, a quirky programmer, a clever history teacher, a carefree college kid, and an antagonistic redneck, are asked to write poems and take pictures on a given topic weekly. Right before the sessions are about to begin, Dr. Samuel dies. After some persuading, his son, George Jr., takes over. George Jr. is not a therapist but an elementary teacher. The poems and dialogue are revealing, interesting, and more often than not comical. The grief the men are experiencing is not revealed to the last chapter, and even then, there is humor. *East of Anywhere* is optimistic, entertaining and a reminder of the healing power of art, honesty, and friendship.

Venice and the Best of Northern Italy Matthew Lombardi,2011 Presents information on hotels and resorts, restaurants, entertainment, shopping, and attractions in Venice and Northern Italy.

Book of Rhymes Adam Bradley, 2017-06-27 If asked to list the greatest innovators of modern American poetry, few of us would think to include Jay-Z or Eminem in their number. And yet hip hop is the source of some of the most exciting developments in verse today. The media uproar in response to its controversial lyrical content has obscured hip hop's revolution of poetic craft and experience: Only in rap music can the beat of a song render poetic meter audible, allowing an MC's wordplay to move a club-full of eager listeners. Examining rap history's most memorable lyricists and their inimitable techniques, literary scholar Adam Bradley argues that we must understand rap as poetry or miss the vanguard of poetry today. *Book of Rhymes* explores America's least understood poets, unpacking their surprisingly complex craft, and according rap poetry the respect it deserves.

Popes, Peasants, and Shepherds Oretta Zanini De Vita, 2013-03-26 The food of Rome and its region, Lazio, is redolent of herbs, olive oil, ricotta, lamb, and pork. It is the food of ordinary, frugal people, yet it is a very modern cuisine in that it gives pride of place to the essential flavors of its ingredients. In this only English-language book to encompass the entire region, the award-winning author of *Encyclopedia of Pasta*, Oretta Zanini De Vita, offers a substantial and complex social history of Rome and Lazio through the story of its food. Including more than 250 authentic, easy-to-follow recipes, the author leads readers on an exhilarating journey from antiquity through the Middle Ages to the mid-twentieth century.

Pizza Ed Levine, 2005 Pizza is the single most popular food in the world, and wherever you go in America you can always find it. In fact, we consume 33 billion dollars worth of pizza annually from the 63,873 pizzerias in America. That's a lot of slices. This year's pizza centennial is a milestone laid claim to by Lombardi's Pizza, which opened its doors in New York in 1905. Celebrating this anniversary is Ed Levine's *Pizza: A Slice of Heaven: The Ultimate Pizza Guide and Companion*, in which Levine and some of America's best writers and cartoonists set out to answer every cosmic question involving this beloved food: Is Chicago pizza really more of a casserole? What makes New York pizza so good? Is the pizza in New Haven better than anything found in Naples? Is the best pizzeria in the world found in Phoenix, Arizona? What and where is the Pizza Belt? How good can homemade pizza be? Is there an American pizza aesthetic? How does one go about judging pizza? Is there such a thing as a good frozen pizza? All these questions and more will be answered by Levine and Calvin Trillin, Ruth Reichl, Roy Blount, Jr., Arthur Schwartz, Mario Batali, Jeffrey Steingarten, and Eric Asimov, among others, who tackle the profound questions and never-ending debates that invariably arise whenever the subject of pizza is brought up in polite company.

Gaither's Dictionary of Scientific Quotations Carl C. Gaither,Alma E. Cavazos-Gaither,2008-01-08 Scientists and other keen observers of the natural world sometimes make or write a statement pertaining to scientific activity that is destined to live on beyond the brief period of time for which it was intended. This book serves as a collection of these statements from great philosophers and thought-influencers of science, past and present. It allows the reader quickly to find relevant quotations or citations. Organized thematically and indexed alphabetically by author, this work makes readily available an unprecedented collection of approximately 18,000 quotations related to a broad range of scientific topics.

The Writing Workshop Alan Ziegler,1981 The first of two volumes, this book is primarily concerned with the teaching of creative writing at any grade level, although some ideas may not be applicable in teaching very young students. Although concentrating on the writing of free verse poetry and short expressive prose, much of the material presented can be applied to any writing, including essays. This volume discusses ways to turn the classroom into a writing workshop, the writing process, and the teacher's relationship with student writers. Chapters consist of: (1) Introduction; (2) The Writing Workshop; (3) Inspiration and the Unconscious; (4) The Writing Process; (5) Form and Content; (6) Revision; (7) Feedback; (8) Shop Talk; and (9) Workshop Products. Appendixes include case studies of four students and their writing experiences, and a set of guidelines for the visiting writer. (MM)
