The Reenchantment of the World Morris Berman, 1981 Morris Berman's book addresses what I consider to be the most important topic at our present moment in history. He is searching for the underpinnings of a new world view that can give rise to a culture capable of relating gently and self-sustainingly to the earth. Frederick Ferré *The Reenchantment of the World* is a perceptive study of our scientific consciousness and a cogent and forceful challenge to its supremacy. Focusing on the rise of the mechanistic idea that we can know the natural world only by distancing ourselves from it, Berman shows how science acquired its controlling position in the consciousness of the West. He analyzes the holistic, animistic tradition--destroyed in the wake of Scientific Revolution of the sixteenth and seventeenth centuries--which viewed man as a participant in the cosmos, not as an isolated observer. Arguing that the holistic world view must be revived in some credible form before we destroy our society and our environment, he explores the possibilities for a consciousness appropriate to the modern era. Ecological rather than animistic, this new world view would be grounded in the real and intimate connection between man and nature.

Fall Tracy Townsend,2019-06-11 An apothecary clerk and her ex-mercenary allies travel across the world to discover a computing engine that leads to secrets she wasn't meant to know--secrets that could destroy humanity. Eight months ago, Rowena Downshire was a half-starved black market courier darting through the shadows of Corma's underside. Today, she's a (mostly) respectable clerk in the Alchemist's infamous apothecary shop, the Stone Scales, and certainly the last girl one would think qualified to carry the weight of the world on her shoulders a second time. Looks can be deceiving. When Anselm Meteron and the Alchemist receive an invitation to an old acquaintance's ball--the Greatduke who financed their final, disastrous mercenary mission fourteen years earlier--they're expecting blackmail, graft, or veiled threats related to the plot to steal the secrets of the Creator's Grand Experiment. They aren't expecting a job offer they can't refuse or a trip halfway across the world to rendezvous with the scholar whose research threw their lives into tumult: the Reverend Doctor Phillip Chalmers. Escorting Chalmers to the Grand Library of Nippon with her mismatched mercenary family is just a grand adventure to Rowena until she discovers a powerful algebraic engine called the Aggregator. The Aggregator leads Rowena to questions about the Grand Experiment she was never meant to ask and answers she cannot be allowed to possess. With her reunited friends, Rowena must find a way to use the truths hidden in the Grand Library to disarm those who would hunt down the nine subjects of the Creator's Grand Experiment, threatening to close the book on this world.

Authenticity across Languages and Cultures Leo Will,Wolfgang Stadler,Irma Eloff,2022-11-10 This volume centres around concepts of personal and cultural authenticity as they play out in various contexts of foreign language teaching and learning worldwide. The chapters cover a wide range of contexts and disciplines, including both theoretical and empirical work; together they comprise both a rigorous analysis of authenticity in language teaching and a step away from notions of native-speakerism and cultural essentialism with which it is often associated. Written by a group of scholars working across several continents, the chapters offer diverse perspectives regarding the role language plays in processes of personal growth, learning, development, self-actualisation and power dynamics. The book addresses the theoretical and philosophical nature of authenticity while remaining grounded in the teaching and learning of languages, with authenticity viewed as a practical concern that guides our actions and beliefs. The book will be of interest to scholars, researchers and students of authenticity as well as foreign language teachers interested in the theoretical underpinnings of their practice.
