**Order and Disorder: The Poor Clares between Foundation and Reform** Bert Roest, 2013-01-08 In *Order and Disorder: The Poor Clares between Foundation and Reform*, Bert Roest provides an up-to-date and comprehensive history of the Poor Clares from their early beginnings until the sixteenth century. With recourse to the available secondary literature and a wealth of primary sources, this book shows how the early history of the Poor Clares cannot be reduced to Franciscan initiatives, and that the institutionalization of the order was characterized by prolonged conflicts and a series of important papal interventions. The work also provides insight in the expansion of the order, the complexities of religious reforms, and the significant cultural production of the women involved.

**Enduring Loss in Early Modern Germany**, 2010-07-05 This anthology assembles cross-disciplinary perspectives on the experience of and responses to forms of material and spiritual loss in early modern Germany, tracing how individuals and communities registered, coped with, and made sense of such events as war, religious reform, bankruptcy, religious marginalization, the death of spouses and children, and the loss of freedom of movement through a spectrum of activities including writing poetry, keeping diaries, erecting monuments, collecting books, singing, painting, reconfiguring space, repeatedly migrating, and painting, and thereby not only turned loss into gain but self-consciously made history. Emerging from the 2008 interdisciplinary conference of Frühe Neuzeit Interdisziplinär, the essays reveal how loss helped to create identity and gave rise to agency and creativity on the cusp of modernity. Contributors are Rosalind J. Beiler, Claudia Benthien, Jill Bepler, Duane J. Corpis, Alexander J. Fisher, Ulrike Gleixner, Claudia Jarzebowski, Hans Medick, Barbara Lawatsch Melton, Christopher Ocker, Helmut Puff, Thomas Max Safley, Jeffrey Chipps Smith, Lynne Tatlock, Mara Wade, Lee Palmer Wandel, and Bethany Wigginn.

**Female Monasticism in Early Modern Europe** Cordula van Wyhe, 2017-03-02 This volume of twelve interdisciplinary essays addresses the multifaceted nature of female religious identity in early modern Europe. By dismantling the boundaries between the academic disciplines of history, art history, musicology and literary studies it offers new cross-cultural readings essential to a more comprehensive understanding of the complexity of female spirituality in the sixteenth and seventeenth centuries. Utilising a wide range of archival material, encompassing art, architecture, writings and music commissioned or produced by nuns, the volume's main emphasis is on the limitations and potentials created by the boundaries of the convent.

Each chapter explores how the personal and national circumstances in which the women lived affected the formation of their spirituality and the assertion of their social and political authority. Consisting of four sections each dealing with different parts of Europe and discussing issues of spiritual and social identity such as 'Femininity and Sanctity', 'Convent Theatre and Music-Making', 'Spiritual Directorship' and 'Community and Conflict', this compelling collection offers a significant addition to a thriving new field of study.

**Music, Piety, and Propaganda** Alexander J. Fisher, 2013-12-05 Music, Piety, and Propaganda: The Soundscapes of Counter-Reformation Bavaria explores the nature of sound as a powerful yet ambivalent force in the religious struggles that permeated Germany during the Counter-Reformation. Author Alexander J. Fisher goes beyond a musicological treatment of composers, styles, and genres to examine how music, and more broadly sound itself, shaped the aural landscape of Bavaria as the duchy emerged as a militant Catholic bulwark. Fisher focuses particularly on the ways in which sound--including bell-ringing, gunfire, and popular song, as well as cultivated polyphony--not only was deployed by Catholic secular and clerical elites to shape the religious identities of Bavarian subjects, but also carried the potential to challenge and undermine confessional boundaries. Surviving literature, archival documents, and music illustrate the ways in which Bavarian authorities and their allies in the Catholic clergy and orders deployed sound to underline crucial theological differences with their Protestant antagonists, notably the cults of the Virgin Mary, the Eucharist, and the saints. Official and popular rituals like divine worship, processions, and pilgrimages all featured distinctive sounds and music that shaped and reflected an emerging Catholic identity. Although officials imposed a severe regime of religious surveillance, the Catholic state's dominance of the soundscape was hardly assured. Fisher traces archival sources that show the resilience of Protestant vernacular song in Bavaria, the dissemination and performance of forbidden, anti-Catholic songs, the presence of Lutheran chorales in nominally Catholic church services into the late 16th century, and the persistence of popular noise more generally. Music, Piety, and Propaganda thus reveals historical, theological, and cultural issues of the period through the piercing dimension of its sounds, bringing into focus the import of sound as a strategic cultural tool with significant impact on the flow of history.

*Embodiment, Identity, and Gender in the Early Modern Age* Amy Leonard, David Whitford, 2020-12-30 Embracing a multiconfessional and transnational approach that stretches from central Europe, to Scotland and England, from Iberia to Africa and Asia, this volume explores the lives, work, and experiences of women and men during the tumultuous fifteenth to seventeenth centuries. The authors, all leading experts in their fields, utilize a broad range of methodologies from cultural history to women's history, from masculinity studies to digital mapping, to explore the dynamics and power of constructed gender roles. Ranging from intellectual representations of virginity to the plight of refugees, from the sea journeys of Jesuit missionaries to the impact of Transatlantic economies on women's work, from nuns discovering new ways to tolerate

different religious expressions to bleeding corpses used in criminal trials, these essays address the wide diversity and historical complexity of identity, gender, and the body in the early modern age. With its diversity of topics, fields, and interests of its authors, this volume is a valuable source for students and scholars of the history of women, gender, and sexuality as well as social and cultural history in the early modern world.
