Sounds of Fear and Wonder Janet K. Halfyard, 2016-06-20 Characters and plot developments, similarly, are enhanced by their musical accompaniment. The different scoring strategies employed in supernatural and horror-based genres, comprising for example True Blood and Supernatural, are considered alongside cult shows set in our reality, such as Dexter, The Sopranos and 24. These discussions are complimented by in-depth case studies of musical approaches in two high-profile series: Buffy the Vampire Slayer and Hannibal. Written from a musicological standpoint but fully accessible to non-musicologists, the book significantly advances television and music studies.

Better Living through TV Steven A. Benko, 2022-03-25 Watching television need not be a passive activity or simply for entertainment purposes. Television can be the site of important identity work and moral reflection. Audiences can learn about themselves, what matters to them, and how to relate to others by thinking about the implicit and explicit moral messages in the shows they watch. Better Living through TV: Contemporary TV and Moral Identity Formation analyzes the possibility of identifying and adopting moral values from television shows that aired during the latest Golden Era of television and Peak TV. The diversity of shows and approaches to moral becoming demonstrate how television during these eras took advantage of new technologies to become more film-like in both production quality and content. The increased depth of characterization and explosion of content across streaming and broadcast channels gave viewers a diversity of worlds and moral values to explore. The possibility of finding a moral in the stories told on popular shows such as The Sopranos, Breaking Bad, The Wire, and The Good Place, as well as lesser known shows such as Letterkenny and The Unicorn, are explored in a way that centers television viewing as a site for moral identity formation.

Ridley Scott William B. Parrill, 2011-08-10 Ridley Scott, the director of such seminal films as Blade Runner, Alien and Thelma & Louise, is one of the most important directors of the last fifty years. Unlike many directors, Scott has been remarkably transparent about his craft, offering the audience glimpses into his creative process. This book explores Scott's oeuvre in depth, devoting a chapter to his 22 primary works, from his first effort, Boy and Bicycle (1962), through Robin Hood (2010). Topics discussed include the critical reception of the films, and the ways in which Scott's works function as cinematic mediators of issues such as religion, women's rights and history.

Interdisciplinary Essays on Cannibalism Giulia Champion, 2021-05-19 Interdisciplinary Essays on Cannibalism: Bites Here

and There brings together a range of works exploring the evolution of cannibalism, literally and metaphorically, diachronically and across disciplines. This edited collection aims to promote a conversation on the evolution and the different uses of the tropes and figures of cannibalism, in order to understand and deconstruct the fascination with anthropophagy, its continued afterlife and its relation to different disciplines and spaces of discourse. In order to do so, the contributing authors shed a new light not only on the concept, but also propose to explore cannibalism through new optics and theories. Spanning 15 chapters, the collection explores cannibalism across disciplines and fields from Antiquity to contemporary speculative fiction, considering history, anthropology, visual and film studies, philosophy, feminist theories, psychoanalysis and museum practices. This collection of thoughtful and thought-provoking scholarly contributions suggests the importance of cannibalism in understanding human history and social relations.

The Ridley Scott Encyclopedia Laurence Raw, 2009-09-28 From his first feature film, *The Duellists*, to his international successes *Alien*, *Blade Runner*, *Thelma and Louise*, *Black Hawk Down*, *Gladiator*, and *American Gangster*, Ridley Scott has directed some of the most compelling films of the last 30 years. Apart from his work as a film director, Scott has engaged in a vast range of activities, including that as a designer, producer, film mogul, and advertising executive. *The Ridley Scott Encyclopedia* is the first book that focuses on all aspects of his work in a wide-ranging career that spans nearly 50 years. The entries in this encyclopedia focus on all aspects of his work and are divided into four categories. The first focuses on Ridley Scott's work as a director, encompassing his feature films from *The Duellists* to *Body of Lies*, as well as his work in television, including commercials. The second category focuses on the people who have been involved in Scott's projects, including actors, directors, producers, designers, writers and other creative personnel. The third focuses on general thematic issues raised in Scott's work, such as gender construction, political issues, and geographical locations. Finally the encyclopedia incorporates entries on films by other directors who have influenced Scott's approach to his work as a director or producer. Each entry is followed by a bibliography of published sources, both in print and online, making this the most comprehensive reference on Scott's body of work.

Encyclopedia of American Opera Ken Wlaschin, 2024-10-16 This encyclopedia lists, describes and cross-references everything to do with American opera: works (both operas and operettas), composers, librettists, singers, and source authors, along with relevant recordings. The approximately 1,750 entries range from ballad operas and composers of the 18th century to modern minimalists and video opera artists. Each opera entry consists of plot, history, premiere and cast, followed by a chronological listing of recordings, movies and videos.

The Films of Ridley Scott Richard A. Schwartz, 2001-08-30 In such films as *Alien*, *Blade Runner*, *Thelma & Louise*, and the recent blockbuster *Gladiator*, Scott addresses the tensions between institutions and individuals, passion and reason, and social order and personal freedom - particularly for women, who in Scott's films often possess strong characters, moral

rectitude, and physical prowess - making him the rare mainstream director who does not reserve such heroic qualities for men only..
