Mark Eden Horowitz

Sondheim on Music Mark Eden Horowitz, 2010-09-20 Stephen Sondheim is widely regarded as the most important composer and lyricist of musical theater in the second half of the 20th century. Celebrating his 80th birthday, this new edition of *Sondheim on Music* finds him in these guided interviews expounding in great depth and detail on his craft. As a natural teacher, thoughtful and opinionated, Sondheim discusses the art of musical composition, lyric writing, the collaborative process of musical theater, and how he thinks about his own work. Where the first edition focused particularly on six shows—*Passion*, *Assassins*, *Into the Woods*, *Sunday in the Park with George*, *Sweeney Todd*, and *Pacific Overtures*—this second edition presents a new chapter that discusses Sondheim's entire career. Several shows that were not discussed previously are explored here, including *A Funny Thing Happened on the Way to the Forum*, *Merrily We Roll Along*, *Company*, *Follies*, *Anyone Can Whistle*, and *A Little Night Music*, as well as thoughts about the recent film adaptation of *Sweeney Todd*. The book also features an entire chapter on *Bounce*: the previous incarnation of his latest musical, *Road Show*. In addition to Sondheim's list of Songs I Wish I'd Written, the songlisting and discography has been greatly expanded and updated to include all works composed and recorded over the last six years.

All Music Guide to Classical Music Chris Woodstra, Gerald Brennan, Allen Schrott, 2005-09 Offering comprehensive coverage of classical music, this guide surveys more than eleven thousand albums and presents biographies of five hundred composers and eight hundred performers, as well as twenty-three essays on forms, eras, and genres of classical music. Original.

Directions in Music Cataloging Peter H. Lisi, Richard Griscom, 2012-01-01 In *Directions in Music Cataloging*, ten of the field's top theoreticians and practitioners address the issues that are affecting the discovery and use of music in libraries today. Anyone who uses music in a library—be it a teacher, researcher, student, or casual amateur—relies on the work of music catalogers, and because these catalogers work with printed and recorded materials in a wide variety of formats, they have driven many innovations in providing access to library materials. As technology continues to transform the discovery and use of music, they are exploring ways to describe and provide access to music resources in a digital age. It is a time of flux in the field of music cataloging, and never has so much change come so quickly. The roots of today's issues lie in the past, and the first part of the volume opens with two articles by Richard P. Smiraglia that establish the context of modern

music cataloging through research conducted in the early 1980s. The second part explores cataloging theory in its current state of transition, and the concluding part looks to the future by considering the application of emerging standards. The volume closes with a remembrance of A. Ralph Papakhian (1948–2010), the most prominent music cataloger of the past thirty years—a figure who initiated many of the developments covered in the volume and who served as a teacher and mentor for all of the contributors.

The Broadway Musical: A Critical and Musical Survey Joseph P. Swain, 2002-11-19 To see a Broadway musical is to experience how a drama, using melody, harmony, and rhythm, evokes the emotion needed to perpetuate a story line. Without music, many of these plays would not succeed, failing to convey the intended message. This new edition of Swain's classic text, winner of the 1991 ASCAP Deems Taylor Award, reveals how a musical drama achieves plot movement, character development and conflict through strategic placement of song and music in 20 musical plays. Unlike critical literature that has simply explored theatrical style and production histories, this survey focuses mainly on the power of music. Illustrated with more than 150 musical excerpts and essays, Swain includes the latest research and viewpoints of contemporary critics, offering insight into dramatic expression and how renowned composers including Jerome Kern, George Gershwin, Jerry Bock, Stephen Sondheim and Andrew Lloyd Webber influenced the Broadway musical. This provides insights into the many impressive musicals to hit the stage between the years of 1927 and 1987, illuminating how specific revisions to productions such as *Showboat* and *Oklahoma!* forever changed their popularity. Learn how music is used as a symbol for psychological or emotional action from Shakespearean drama's such as *Kiss Me, Kate* and *West Side Story*, to more current dramas including *Godspell*, *A Chorus Line*, and *Jesus Christ Superstar*. Replete with a never seen before essay on *Les Misérables*, this edition also includes an expanded epilogue highlighting the phenomena behind *Miss Saigon* and *Phantom of the Opera*, megamusicals that changed the direction of the Broadway tradition. For professors of dramatic arts and people interested in Broadway musicals, theater, popular music and opera.

Andre Kostelanetz on Records and on the Air James H. North, 2011 Andre Kostelanetz On Records and On the Air is a comprehensive discography of the commercial recordings of the Russian/American conductor and radio personality, Andre Kostelanetz. James H. North has collected all his recordings, spanning the range from popular to classical. Organized chronologically by album, North provides the complete details of each recording: composer, song title, timing, date and site

of the recording session, producer of that session, and matrix numbers, as well as every American issue of each recording. Several appendixes organize the information alphabetically by composer, song title, and album title, giving references back to the discography by date of recording. Available downloads from the Internet are included in the song title appendix. Two further appendixes deal with Compact Disc issues and with V-Discs, the records created by the United States Army and Navy for worldwide distribution to members of the Armed Forces during World War II. Initially a request from the Andre Kostelanetz Estate, who has generously supported this work, the discography grew to include a complete coverage of Kostelanetz's appearances on the radio, from the 1920s through 1980 (plus a few on television), as North discovered that Kostelanetz's radio career was as important as his records to music in America. More than 1,000 broadcasts are covered, including both his radio shows and his concert broadcasts with symphony orchestras, and the contents of each program are listed where known. An important extra in the book is a survey of Kostelanetz's career and an evaluation of his achievements, contributed by noted radio historian Dick O'Connor. A foreword by the Archivist and Historian of the New York Philharmonic, Barbara Haws, completes this reference tool, which will be invaluable to the millions of fans who welcome the opportunity to peruse the details of one of the most beloved figures in music.
