The Trouble with Boys Peg Tyre, 2008-09-09 From the moment they step into the classroom, boys begin to struggle. They get expelled from preschool nearly five times more often than girls; in elementary school, they're diagnosed with learning disorders four times as often. By eighth grade huge numbers are reading below basic level. And by high school, they're heavily outnumbered in AP classes and, save for the realm of athletics, show indifference to most extracurricular activities. Perhaps most alarmingly, boys now account for less than 43 percent of those enrolled in college, and the gap widens every semester! The imbalance in higher education isn't just a "boy problem," though. Boys' decreasing college attendance is bad news for girls, too, because admissions officers seeking balanced student bodies pass over girls in favor of boys. The growing gender imbalance in education portends massive shifts for the next generation: how much they make and whom they marry. Interviewing hundreds of parents, kids, teachers, and experts, award-winning journalist Peg Tyre drills below the eye-catching statistics to examine how the educational system is failing our sons. She explores the convergence of culprits, from the emphasis on high-stress academics in preschool and kindergarten, when most boys just can't tolerate sitting still, to the outright banning of recess, from the demands of No Child Left Behind, with its rigid emphasis on test-taking, to the boy-unfriendly modern curriculum with its focus on writing about "feelings" and its purging of "high-action" reading material, from the rise of video gaming and schools' unease with technology to the lack of male teachers as role models. But this passionate, clearheaded book isn't an exercise in finger-pointing. Tyre, the mother of two sons, offers notes from the front lines—the testimony of teachers and other school officials who are trying new techniques to motivate boys to learn again, one classroom at a time. *The Trouble with Boys* gives parents, educators, and anyone concerned about the state of education a manifesto for change—one we must undertake right away lest school become, for millions of boys, unalterably a "girl thing."

Throwing Sheep in the Boardroom Matthew Fraser, Soumitra Dutta, 2008-12-15 The rise of social networks like Facebook, MySpace and Bebo is changing the way we see ourselves, how we interact with each other, how we work and how we do business on a daily basis. *Throwing sheep in the boardroom* explores the powerful forces driving the social networking revolution, the impact of these profound changes, and the far reaching consequences of social networking. Detailing the way social networks affects both individuals and societies as a whole, the book offers a detailed focus on the ways social networking affects the world of business and work. The generation entering the workforce today - and entering boardrooms everywhere - is fully engaged with social networking and its uses. Rather than feeling threatened and paranoid, today's business leaders need to understand this phenomenon, accept that it won't go away, and embrace its power in the world of

business.
