Volcanic Reflections: a Bilingual Anthology of Contemporary Ecuadorian Poetry Ronald Haladyna, 2011-08-26
Volcanic Reflections: A Bilingual Anthology of Contemporary Ecuadorian Poetry is the third in a series of books that aspires to address a dearth of information in the English-speaking world about South American poetry of the past thirty years. The nineteen outstanding poets included here represent a wide diversity of themes, styles, and perspectives in one of South America's smaller nations. All of them have published extensively, have been recognized through literary awards and inclusion in national and international anthologies, and continue writing and publishing today. For readers unfamiliar with Ecuador, the Introduction provides a brief background of its geography, history, politics, economy, and society. This is followed by an ample selection of representative poems published previously in Spanish, with translations in English on facing pages. The book concludes with a brief biographical sketch of each poet and an unprecedented bibliography of primary and secondary sources for those readers who might want to pursue further reading or research on any poet of interest. Contemporary Uruguayan Poetry: A Bilingual Anthology and Exotic Territory: A Bilingual Anthology of Contemporary Paraguayan Poetry are two companion volumes that offer similar exposure to poetry that deserves to be better known in the English-speaking world.

Industrias, empresarios y jerarquías administrativas Luis Aurelio Ordóñez Burbano, 2024-07-04 El presente libro versa sobre el desarrollo de siete empresas caleñas y resalta el papel de los empresarios y las jerarquías administrativas durante el período comprendido entre la segunda mitad del siglo XX y las primeras décadas del siglo XXI. En buena parte es la continuación del estudio realizado sobre la gestión de un grupo de empresarios pioneros en Cali durante el período 1915-1945, quienes aprovecharon las oportunidades surgidas por la conformación de las redes mercantiles, la gestación del mercado interno y las políticas proteccionistas del Estado para crear industrias manufactureras, dando muestras de una nueva mentalidad de ruptura con los atavismos de corte premoderno prevalecientes en Cali, la región y el país. Después de exponer algunas consideraciones de orden teórico y conceptual, que orientan el trabajo histórico, se toma como referencia, a partir de la segunda posguerra (1945), la iniciación de una segunda fase de industrialización caracterizada por la llegada de la inversión extranjera a la industria manufacturera, prioritariamente al eje metropolitano Cali-Yumbo; la creación de nuevas empresas por parte del Estado, como es el caso de Ecopetrol, y la producción de bienes intermedios. En este contexto continúa el desenvolvimiento de algunas de las empresas fundadas en Cali a principios del siglo XX, en proceso de modernización e internacionalización, y se crean algunas nuevas, como Fanalca, Tecnoquímicas y Coomeva. En general, se describe el desenvolvimiento de las empresas que continúan a lo largo del tiempo, en el marco de las políticas económicas del Estado, en particular del proteccionismo, vigente hasta comienzo de la década de 1990, y del proceso de terciarización y desindustrialización en las décadas de 1970 y 1980, que se prolonga hasta las primeras décadas del siglo XXI.

El futuro del dinero Eswar Prasad, 2022-09-07

Creemos que hemos visto todo en lo que a innovación financiera se refiere. Realizamos operaciones bancarias desde ordenadores portátiles y pagamos un café con nuestro teléfono. Sin embargo, estos son milagros menores comparados con los vertiginosos experimentos financieros que se están llevando a cabo en todo el mundo a medida que las empresas y los gobiernos abrazan las posibilidades de las nuevas tecnologías económicas.

Eswar Prasad ofrece en esta obra lúcida y visionaria una mirada vanguardista sobre cómo la aceleración del cambio de paradigma económico, desde el fin del efectivo hasta el auge de las criptomonedas, transformará las economías mundiales. Un nuevo orden financiero que incorporará nuevos actores —como Meta o Amazon— que contribuirán a revolucionar la forma en que invertimos y gestionamos el riesgo de nuestro dinero con el objetivo de maximizar lo mejor y protegerse de lo peor que está por venir.
