Aspects of American Romanticism in Short Stories by Edgar Allan Poe and Nathaniel Hawthorne Sirinya Pakditawan, 2012-03-02 Seminar paper from the year 2004 in the subject American Studies - Literature, grade: 1.5, University of Hamburg, language: English, abstract: Untersuchung der Merkmale der amerikanischen Romantik am Beispiel der Kurzgeschichten Poes und Hawthornes. Edgar Allan Poe's Short Story Ligeia As a Text of the Romantic Period Jessica Horn, 2009-05 Seminar paper from the year 2004 in the subject American Studies - Literature, grade: 2,0, course: The American Short Story, language: English, abstract: On these pages the elements of the Romantic Period in Edgar Allan Poe's short story Ligeia should be analysed. Poe, who has so drastically altered the landscape of the popular imagination (Wright 375) and who had such a powerful effect on his fellow artists (Wright 375), created with Ligeia a typical text of the Romantic Period. The text Ligeia is about the death of the young lady Ligeia. After her death her husband becomes addicted to opium. Although he spends most of his time thinking of Ligeia, he soon gets married with the lady Rowena Trevanion. After their marriage he brings Rowena into a bridal chamber. This chamber is full of funeral decorations, what attacks Rowena with horror. Because of that she gets ill and feels the presence of the dead Ligeia in the room. Finally Rowena dies and the narrator ends the story with Ligeia's transformation into Rowena's body. After this transformation the reader has to ask himself if Ligeia actually existed, if the whole story is true or if it only takes place in the imagination of the narrator. To illustrate Ligeia as a romantic text I will give a short overview of the history and the elements of the Romantic Period. Afterwards I will explain these elements in Poe's text Ligeia according to keywords like Gothic, Imagination, and the function of the narrator, which are usual for romanticism. Finally I will tell something about Poe's theory concerning the short story to show on the one hand the importance of the self as a major theme of romanticism and on the other hand why Poe helped to establish the genre of science fiction, horror, and fantasy in his modern form.

Rounding up this paper, I rewrote the short story by looking at it from a different perspective - my piece is told by the old man who is assassinated and

can thereby answer some questions that have so far remained insoluble.

Poe and the Idea of Music Charity McAdams, 2017-10-24 Edgar Allan Poe often set the scenes of his stories and poems with music: angels have the heartstrings of lutes, spirits dance, and women speak with melodic voices. These musical ideas appear to mimic the ways other authors, particularly Romanticists, used music in their works to represent a spiritual ideal artistic realm. Music brought forth the otherworldly, and spoke to the possible transcendence of the human spirit. Yet, Poe's music differs from these Romantic notions in ways that, although not immediately perceptible in each individual instance, cohere to invert Romantic idealism. For Poe, artistic transcendence is impossible, the metaphysical realm is unreachable, and humans cannot perceive anything but their own failure of spirit. In this book, I show how we can look at Poe's poems and stories on the whole to discover this, and in doing so, unpack some of Poe's mysticism along the way.
