Baccano!, Vol. 14 (*light novel*) Ryohgo Narita,2020-09-22 The year 1931. The Flying Pussyfoot incident is over, but it's still making waves. Where did it start? When Chané carved her message on the roof of the transcontinental express? When Graham's idol Ladd fell from the train? When immortals chose to climb aboard? Or was it due to Chané's unusual friendship with the delinquents? Whatever the case may be, Claire has taken Chané's message to heart and plans to scour the city until he finds her. What kinds of sparks will fly when these two meet?

ComputingFailure.com Robert L. Glass,2001 Looking back, it was a time of madness: an era when billions of dollars - and even more faith - was placed in dotcom startups with inexperienced management and Swiss cheese business plans. Robert Glass's *ComputingFailure.com* is a powerful chronicle of those years, and something more: a cautionary worst practices guide for every entrepreneur and e-Business professional. Glass carefully chooses his case studies for the insights they impart. The executives quoted and profiled in this book have learned hard, expensive lessons - about building compelling business models, about building compelling business models, about managing growth, and about when to ignore the venture capitalists. They've learned surprising lessons about integrating with bricks-and-mortar parent companies and about what it takes to get marketing, tech, and everyone else on the same page.--BOOK JACKET.Title Summary field provided by Blackwell North America, Inc.
