

Finding Meaning In The Second Half Of Life

James Hollis

Finding Meaning in the Second Half of Life James Hollis, 2005 The Jungian analyst author of the best-selling *The Middle Passage* and *The Eden Project* describes the sometimes difficult emotional process of transitioning into the second half of life, counseling readers on how to discover career fulfillment, renew a stagnating relationship, face mortality, and more.

Finding Meaning in the Second Half of Life James Hollis, 2006-03-16 What does it really mean to be a grown up in today's world? We assume that once we "get it together" with the right job, marry the right person, have children, and buy a home, all is settled and well. But adulthood presents varying levels of growth, and is rarely the respite of stability we expected. Turbulent emotional shifts can take place anywhere between the age of thirty-five and seventy when we question the choices we've made, realize our limitations, and feel stuck—commonly known as the "midlife crisis." Jungian psycho-analyst James Hollis believes it is only in the second half of life that we can truly come to know who we are and thus create a life that has meaning. In *Finding Meaning in the Second Half of Life*, Hollis explores the ways we can grow and evolve to fully become ourselves when the traditional roles of adulthood aren't quite working for us, revealing a new way of uncovering and embracing our authentic selves. Offering wisdom to anyone facing a career that no longer seems fulfilling, a long-term relationship that has shifted, or family transitions that raise issues of aging and mortality, *Finding Meaning in the Second Half of Life* provides a reassuring message and a crucial bridge across this critical passage of adult development.

Summary of James Hollis's *Finding Meaning in the Second Half of Life* Everest Media,2022-05-19T22:59:00Z

Please note: This is a companion version & not the original book. Sample Book Insights: #1 We all have moments of confusion, perplexity, and doubt. These are signs that we are simply living on automatic pilot. We cannot answer the question of what we are unconscious of, but we do know that what is unconscious has great power in our lives. #2 The presence of suffering is a manifestation of the psyche at work. The Self autonomously, sometimes dramatically, protests through symptoms, which despite our frantic efforts, resist change. #3 The origin of a symptom is always a historic wound to the soul. We are obliged to thank our symptoms for they catch our attention and compel us to take them seriously. We must recognize and accept the fact that there is a will within us, outside the range of our conscious control, which knows what is right for us. #4 We must ask ourselves who we are apart from the roles we have been playing. We must have lived long enough to see that we have constructed patterns in our lives that undermine our best interests. We are the protagonist of the drama, but we are also the author.

Finding Meaning in Life, at Midlife and Beyond David Guttman,2008-09-30 Having been mentored by Viktor E. Frankl, the founder of logotherapy, Emeritus Professor David Guttman authored this book so general readers may understand this approach to finding meaning in life at the point when most of us begin deeply wondering over that question, at midlife and beyond. Especially in this day and age of multiple demands on our time and seemingly non-stop obligations, we too often find that it is only when the dust settles, after a work day or work week, or even after retirement, when we begin to wonder: What is the meaning of life? The purpose? This book is a new millennium venture into those questions and their answers using logotherapy, written by a sage understudy who recalls Frankl, with his logotherapy, as the epitome of his theory even at 80 years old, wise and witty, exuding an energy, enthusiasm and youthful spirit that belied his years by decades. Aging does not diminish our power, our energy, and our quest for life, but reshapes it with new understandings, goals, and needs. But, says Guttman, we live in a technical and machine-based world now, in which there is a danger of losing our souls. Here, readers find a new, creative perspective on aging and a fresh spiritual outlook. This book will be of interest not only to general readers, especially those at midlife and beyond, but also to their families, friends, and students or professionals in the helping professions. This unique work provides knowledge to find meaning in life derived from the fields of philosophy, psychology, religion and gerontology, with case illustrations and vignettes to give readers both intellectual pleasure and practical guidance.

Finding Meaning in Later Life Marcia Nimmer,2018-02-13 *Finding Meaning in Later Life: Gathering and Harvesting the Fruits of Women's Experience* is an exploration in understanding the psychological tasks inherent for women in creating

and maintaining purpose as they mature and enter their later years. With ever-increasing lifespan for elders, it becomes important for a society that glorifies youth to meet the challenges of this developmental milestone. Many books and articles on post-midlife are written from a biological and behavioral stance—with quantitative data supporting concrete lifestyle recommendations for successful aging. Using this lens, successful aging is often defined as having good to excellent health, no disabilities in activities of daily living, good cognitive functioning, and living in the community. That received wisdom leads to the conundrum that the only path to successful aging is by not aging! This book challenges current thoughts on aging, expanding our perspective such that purpose and meaning in later years derives from inner resources that are not dependent on biological and physical states of being. Its conclusions stem from the direct experience and voices of mature women, obtained through qualitative research. The results of this study shed light on existential theories, bringing them to life with added weight and traction. Ultimately, the ideas explored here unfold as a map to navigate this often-misunderstood stage in life.

Aging (Pastoring for Life: Theological Wisdom for Ministering Well) Will Willimon, 2020-04-21 □ Publishers Weekly
starred review Seasoned pastor and church leader Will Willimon excels at creating thought-provoking, accessible books for working pastors and seminarians. In *Aging*, he takes a theologically rich look at numerous aspects of growing old. Drawing on Scripture, literature, current research, and his experiences as an aging adult, Willimon reflects on aging as a spiritual journey. He explores the challenging realities as well as the rewarding joys of growing old and shows pastors how to help their congregants grow old gracefully and in good Christian hope. Willimon also offers practical advice on helping church members as they encounter retirement, aging, caring for the aging, loss, bereavement, and finding faith in the last quarter of life. This eloquent, delightfully Christian perspective on aging will be of interest to all who care for aging souls—not only pastors but also chaplains and other ministers in hospitals, hospices, and extended care facilities. About the Series Pastors are called to help people navigate the profound mysteries of being human, from birth to death and everything in between. This series, edited by leading pastoral theologian Jason Byassee, provides pastors and pastors-in-training with rich theological reflection on the various seasons that make up a human life, helping them minister with greater wisdom and joy.

Transpersonal Ecosophy, Vol. 1: Theory, Methods and Clinical Assessments Mark A. Schroll, 2016-01-24 The image on the cover of this book represents the idea that brain state alterations at sacred sites allow us to re-experience memories that are woven into the morphogenetic fields of that place, an idea that originates with Paul Devereux's empirical enquiry into dreams at sacred sites in Wales and England. This book examines how this investigation provides us with a new way of understanding consciousness, and a new direction toward a reconciliation of the divorce between matter and spirit. We explore the work of David Lukoff, and Stanislav and Christina Grof, the connections between the varieties of transformative experience in dream studies, ecopsychology, transpersonal psychology, and the anthropology of consciousness, as well as the

overlap between David Bohm's interpretation of quantum theory and Rupert Sheldrake's hypothesis of formative causation.

What Matters Most James Hollis, 2009-12-29 The celebrated author of *Finding Meaning in the Second Half of Life* delivers a unique look at happiness, sharing a Jungian approach to finding a fearless, authentic path. Why are we here? What is the meaning of existence? What truly matters the most in life? To even begin to answer these questions we must start by exploring our own internal ideals, values, and beliefs. Presenting the unique perspective of respected analyst and author James Hollis, Ph.D., *What Matters Most* helps readers learn to appreciate (even be amazed by) events unfolding within, even as the external world creates constant struggles. Taking a fresh look at the concept of happiness, Hollis uses a warm, accessible tone to encourage readers to learn to tolerate ambiguity, embrace growth rather than security, respect the power of Eros, engage spiritual crises, and acknowledge the shadow of mortality. Providing inspiring wisdom and personal reflections to address our deepest worries, *What Matters Most* yields far more than mere self-help clichés. Instead, Hollis guides readers in uncovering the heart of the matter, discovering what it means to truly live life to its fullest, most meaningful state—as fully engaged citizens of the world.

Living an Examined Life James Hollis, Ph.D., 2018-02-01 How do you define “growing up”? Does it mean you achieve certain cultural benchmarks—a steady income, paying taxes, marriage, and children? Or does it mean leaving behind the expectations of others and growing into the person you were meant to be? If you find yourself in a career, place, relationship, or crisis you never foresaw and that seems at odds with your beliefs about who you are, it means your soul is calling on you to reexamine your path. With *Living an Examined Life*, James Hollis offers an essential guidebook for anyone at a crossroads in life. Here this acclaimed author guides you through 21 areas for self-inquiry and growth—such as how to exorcise the ghosts of your past, when to choose meaning over happiness, how to construct a mature spirituality, and how to seize permission to be who you really are. With his trademark eloquence and insight, Dr. Hollis offers a potent resource you'll return to time and again to energize and inspire you on your journey to create a life of personal authority, integrity, and fulfillment.

Authenticity in Teaching Patricia Cranton, 2006-10-06 Authenticity is one of those concepts, like soul, spirit, or imagination, that are easier to define in terms of what they are not than what they are. We can fairly easily say that someone who lies to students or pretends to know or who deliberately dons a teaching persona is not authentic. But do the opposite

behaviors guarantee authentic teaching? Not necessarily ...
