Struggles for Peace and Justice Karl-Julius Reubke,2020-06-16 This work by Karl-Julius Reubke embodies labours of experience and reflection spanning almost 20 years. It is rich with many kinds of detail but above all Reubke's work accomplishes something the late German philosopher Hans-Georg Gadamer called a Horizontverschmelzung, a merging of horizons in service of an act of understanding. Reubke, a German himself, a former chemist, a follower of Rudolph Steiner, a self-taught Sanskrit scholar and translator of ancient texts, sympathetically merges those horizons with an equally complex set of horizons arising from India: the post-colonial search for a coherent tradition in one of the oldest civilizations, the emergence of early modern spiritual and nationalist thinking, the complex challenges posed by Gandhi's ethico-spiritual vision, and then finally, from the contemporary India driven and riven by the forces of globalization, the horizon of a civil/social movement inspired by Gandhi and Vinobha, namely Ekta Parishad. Reubke describes this movement, inspired and led by PV Rajagopal from the inside with a personal touch and a uncannily reflective eye. All of this is an accomplishment of some note and worthy of our attention especially as we now turn to confront how we as people of the planet will face the ecological disaster our way of living has created. This too is a task of "comprehension" which Hannah Arendt described as the work of "the unpremeditated facing up to, and resisting of, reality—whatever it may be." - Paul Schwartzentruber, Independent Scholar and Activist, Halifax, Canada If you wish to know what Satyagraha is all about, read this candid, reflective account of the struggle for freedom and justice Gandhi and his contemporaries waged during the twentieth century and P V Rajagopal and Ekta Parishad have been engaged in during the 21st. Extremely timely and morally challenging. - Manoranjan Mohanty, Former Professor of Political Science, University of Delhi, New Delhi, India This book is invaluable in challenging us to develop nonviolent mass movements addressing the needs of those who are oppressed and suffering the most, the impoverished, the exploited, those thrown off their lands, adivasis, women, and why such movements are necessary

for greater peace and justice. - Douglas Allen, Professor of Philosophy, The University of Maine, USA This brilliant book, the first major scholarly study of Ekta Parishad, demonstrates how rights-based mass mobilisations in contemporary India adapt Gandhian ideas in their struggle for justice and in negotiating state politics and policies, with grit and compassion. - Arnab Roy Chowdhury, Assistant Professor, Higher School of Economics (HSE), Moscow, Russian Federation This impressive volume addresses the topic, which is possibly the most important of our time: global solidarity. And it does so from the perspective of the global South, drawing especially on Gandhi and Ekta Parishad. The result is a very unique combination of scholarship and vision for the future that is a must-read for all students of India and Indian thought but also for those looking for inspiration in the times of global crisis and the return of nationalisms and fascisms. - Boike Rehbein, Professor, Humbolt University, Berlin, Germany In a world in deep need of global solidarity as we enter an era challenged with the Covid-19 pandemic, global economic devastation, the continuing epidemic of racism, and with an existential climate crisis, Ekta Parishad shines a bright new light for humanity and our human challenges. This book and this organization confront these challenges boldly and head-on. Jai Jagat!! - David Blake Willis, Professor, Fielding Graduate University, USA

Mahatma Gandhi Quotes on Humanity, Peace, Nonviolence, And More Mazimum Q, 2022-12-21 MK Gandhi expanded as Mohandas Karamchand Gandhi, is reverentially described as the father of India. With a fitting leadership to the freedom struggle in India, Gandhi played a pivotal role in securing freedom for India from oppressive British rule. A strong advocate of Satya (Truth) and Ahimsa (non-violence), Gandhi showed the power of love and non-violence in combating injustice and oppression. Mahatma is the title given to this inspiring personality who led the masses with his optimism, courage, his principles, and practice. Mahatma Gandhi was born in Porbandar, also known as Sudamapuri in Gujarat on October 2, 1869. His birthday is celebrated as Gandhi Jayanti every year on 2nd October. This book contains 1549 inspiring quotes from the leader who is revered, not only by Indians but by the world at large.

Spiritual and Political Dimensions of Nonviolence and Peace David Boersema, Katy Gray Brown, 2006 This book is a collection of philosophical papers that explores theoretical and practical aspects and implications of nonviolence as a means of establishing peace. The papers range from spiritual and political dimensions of nonviolence to issues of justice and values and proposals for action and change.

Museums for Peace Joyce Apsel, Clive Barrett, Roy Tamashiro, 2023-12-22 *Museums for Peace: In Search of History, Memory and Change* highlights the inspiring as well as conflicting representations and purposes of diverse museums for peace around the world. Coming from various cultural and professional backgrounds, the authors explore “what are museums for peace and what do they mean?” Some chapters introduce alternative histories of peace, conflict, and memorialization. This innovative collection examines grassroots museums, military sexual slavery, historical memory in East Asia, and cultural heritage in the Africanized peace museum movement. The chapters discuss differing representations of

Gandhi, technology of war and opposition to it, and structural violence such as racial terror and imperialism. Investigating how institutions interact with political and cultural forces, the volume demonstrates that some museums reinforce hegemonic narratives, while others resist authoritative tropes to reveal silenced histories, including peace histories. Museums for Peace will appeal to academics and students in museum studies, heritage studies, peace studies, memory studies, social justice, and human rights. Those working in cultural studies and trauma studies will also find this volume valuable. Peace Education, 3d ed. Ian M. Harris, Mary Lee Morrison, 2014-01-10 Now in its third edition, Peace Education provides a comprehensive approach to educating for a just and sustainable future. It begins with religious and historical trends that have molded our understanding of peace and then presents a variety of ways to practice peace education in schools and communities, and explains how it can motivate students. The teaching and practice of peace education provides a basis of valuable knowledge about resolving conflicts and transforming violence without the use of force. Understanding Peace Cultures Rebecca L. Oxford, 2014-03-01 Understanding Peace Cultures is exceptionally practical as well as theoretically grounded. As Elise Boulding tells us, culture consists of the shared values, ideas, practices, and artifacts of a group united by a common history. Rebecca Oxford explains that peace cultures are cultures, large or small, which foster any of the dimensions of peace – inner, interpersonal, intergroup, international, intercultural, or ecological – and thus help transform the world. As in her earlier book, *The Language of Peace: Communicating to Create Harmony*, Oxford contends here that peace is a serious and desirable option. Excellent educators help build peace cultures. In this book, Shelley Wong and Rachel Grant reveal how highly diverse public school classrooms serve as peace cultures, using activities and themes founded on womanist and critical race theories. Yingji Wang portrays a peace culture in a university classroom. Rui Ma's model reaches out interculturally to Abraham's children: Jewish, Christian, and Muslim youth, who share an ancient heritage. Children's literature (Rebecca Oxford et al.) and students' own writing (Tina Wei) spread cultures of peace. Deep traditions, such as African performance art, Buddhism, Daoism, Confucianism and Islam, give rise to peace cultures, as shown here by John Grayzel, Sister Jewel (a colleague of Thich Nhat Hanh), Yingji Wang et al., and Dian Marissa et al. Peace cultures also emerge in completely unexpected venues, such as gangsta rap, unveiled by Charles Blake et al., and a prison where inmates learn Lois Liggett's "spiritual semantics." Finally, the book includes perspectives from Jerusalem (by Lawrence Berlin) and North Korea and South Korea (by Carol Griffiths) to help us envision – and hope for – new, transformative peace cultures where now there is strife.
