Glimpses of Other Realities Linda Moulton Howe, 1997-07 GLIMPSES OF OTHER REALITIES--VOLUME 1: FACTS & EYEWITNESSES details investigations of the worldwide crop circle, animal mutilation, & human abduction mysteries, with photographs, drawings, maps & documents. In the puzzling crop formations described in Chapter 1, one biophysicist has discovered biochemical & biophysical changes in affected plants which he says cannot be hoaxed. Since the 1960s, other circles have been found in association with the worldwide animal mutilation mystery which is the subject of Chapter 2. Dry, ceramic-hard circles in which grasses are dead have been found in pastures underneath or near animals from which the tissue has been excised surgically & bloodlessly. In at least three cases, people affected by the UFO abduction syndrome have received information about animal mutilations which is included in Chapter 3, along with conscious eyewitness reports of other beings. The repeating patterns of non-human entities that people have drawn or painted are included in Chapter 4 as well as photographs of ancient Sumerian gods that resemble modern-day drawings of alleged extraterrestrials from military & civilian cases. You and your colleagues can be congratulated for your excellent summary of the history, and probable significance, of the ET presence on Earth. Love & light, --R. Leo Sprinkle, Ph.D., Famed Hypnotherapist and Consultant to Linda Moulton Howe "Also of interest is a chapter that discusses the "Skunk Works" (the advanced aircraft manufacturing division of Lockheed), and the shocking statements made by its former president, Ben Rich. These statements, which were confirmed by the author who was present at Rich's March 23, 1993 UCLA presentation . . . Readers of this book would do well to consider the staggering implications of Rich's comments, and their potential transportation and clean energy

applications for this world.” --Michael Schratt, Military Aerospace Historian, Artist and Reviewer, Open Minds magazine

Figures of the Imagination Gregory Nigel Eaves,1989

The Encyclopedic Sourcebook of New Age Religions James R. Lewis, 2004 In the late 1980s, the New Age movement became the focus of both media attention and widespread ridicule as some of the more outlandish aspects of the movement, such as channeling and the use of crystals for healing, briefly piqued the public's curiosity. While the movement was at its height, scholars of religion generally sneered at what was perceived to be a daffy, shallow craze, and ignored it as a subject of serious study. Professor James R. Lewis was among the first to examine this growing religious phenomenon scientifically. In previous books, he has investigated the New Age as the most visible manifestation of a significant spiritual subculture, the roots of which reach back to Theosophy, Spiritualism, and New Thought. The present collection pursues this theme, bringing together some of the best recent scholarship on new religions. Since the height of its popular influence the New Age has declined in strength but has given rise to a plethora of new denominations all shaped by New Age ideas and spirituality. Reflecting the emergence of this new denominational structure, the core chapters of this book focus on specific groups. Other chapters examine the movement's historical roots. A unique feature of Dr. Lewis's work is his inclusion of extensive selections from New Age literature, thus allowing readers to experience firsthand the unusual perspectives of the various groups. This is a fascinating examination of a significant and persistent religious and social phenomenon.
