A Nation of Outsiders Grace Elizabeth Hale, 2011-02-04 At mid-century, Americans increasingly fell in love with characters like Holden Caulfield in *Catcher in the Rye* and Marlon Brando's Johnny in *The Wild One*, musicians like Elvis Presley and Bob Dylan, and activists like the members of the Student Nonviolent Coordinating Committee. These emotions enabled some middle-class whites to cut free of their own histories and identify with those who, while lacking economic, political, or social privilege, seemed to possess instead vital cultural resources and a depth of feeling not found in grey flannel America. In this wide-ranging and vividly written cultural history, Grace Elizabeth Hale sheds light on why so many white middle-class Americans chose to re-imagine themselves as outsiders in the second half of the twentieth century and explains how this unprecedented shift changed American culture and society. Love for outsiders launched the politics of both the New Left and the New Right. From the mid-sixties through the eighties, it flourished in the hippie counterculture, the back-to-the-land movement, the Jesus People movement, and among fundamentalist and Pentecostal Christians working to position their traditional isolation and separatism as strengths. It changed the very meaning of authenticity and community. Ultimately, the romance of the outsider provided a creative resolution to an intractable mid-century cultural and political conflict—the struggle between the desire for self-determination and autonomy and the desire for a morally meaningful and authentic life.

The 20th Century's Greatest Hits Paul Williams, 2000-10-06 The book that will make you think about the 20th Century. This book lists and discusses the top 40 artistic events of the 20th century, using a quirky and personal list created by Paul Williams, which is illuminated by forty short essays discussing his choices. That alone would suffice. But in addition, Williams has created an entertaining, readable book-length work on personal and subjective responses to art. Everybody loves top-40 lists: Will it have your own secret favorites on it? Or will there be some stuff you never heard of? Or hate? Bob Dylan? Sure, but what by Dylan? Every list provokes delight and danger and, if it is a good one, illumination and surprise. Paul Williams's lists mixes high art and popular culture, and is sure to leave no one who reads it unmoved. But a list only takes one page—and the rest of this book is Williams's thoughts on how everyday people connect with art and performance, subjects on which Williams is brilliant, insightful, and entertaining. This is a good and serious book that is fun to read. At the publisher's request, this title is being sold without Digital Rights Management software (DRM) applied.
