Special Educational Needs Great Britain: Parliament: House of Commons: Education and Skills Committee, 2006-07-06

This publication contains a range of oral and written evidence taken by the Committee in relation to its inquiry into special educational needs (SEN) provision, including contributions from Baroness Warnock, DfES officials and local authorities, Ofsted, the Audit Commission, the Disability Rights Commission, SEN advisors and organisations, charities and trade unions.

Campoamor, Spain, and the World Ronald Hilton, 1940-12-15 Like the fame of Pardo-Bazán, the reputation of Campoamor has suffered a rapid decline. The renown of the poet was flimsier and more ephemeral than that of Spain's most notable woman writer. It contained more enthusiasm and less respect. Most of his prose works and many of his dramas died young, whereas Dōna Emilia's infinitely more copious production was uniformly living and vigorous. The integral value of Pardo-Bazán's work is beyond measure greater than that of Campoamor. Whereas the novelist deserves a splendid rehabilitation, the modicum of praise still accorded to the poet perhaps exceeds his merits. Apart from a few flashes of genius—to be found in his prose works—Campoamor is intelligently ordinary. This characteristic incidentally makes him most valuable for this study. Campoamor offers a triple advantage as a lens through which to inspect the Spain of his day. Although he is now considered as a poet, his prose work, buried in oblivion—this is the first study to give it real attention—completes the authors' picture of him as a man who incorporated, in an admittedly ephemeral way, all the spiritual and intellectual currents of his epoch: above all, the old religious traditionalism and the conflicting new scientific positivism. That Campoamor represented the feelings and the thoughts of the Spain of his time is proved by the enthusiastic applause with which his fellow-countrymen greeted his works. Finally, without being impeccably well-informed, Campoamor was deeply interested in the history and affairs of the world at large, and constantly strove to allot to Spain its correct place in his Weltanschauung.

Themes in International Economics Mats Lundahl, 2018-12-07 First published in 1998, this collection of essays deals with four different areas of international economics: the theory of international trade, trade and development, protectionism and factor movements (notably migration and foreign aid). These themes explore the determinants of trade patterns, the relation between these patterns and those of underdevelopment and development, the failure of protectionism to increase

welfare and, finally, the impact of emigration on the source country and that of foreign aid on the recipient country.

Trade, Growth and Development Göte Hansson,2003-09-02 Since the end of the second world war the economic gap between rich and poor countries has steadily widened. Trade, Growth and Development examines this disparity and assesses the reasons why some developing countries have been more successful than others. The book is divided into four parts: Part I examines recent developments in the theory of trade, growth and economic development; Parts II to IV present an empirical analysis of policy and performance in Latin America, Asia and Africa. As well as offering an analysis of traditional economic factors the book also emphasises the role of politics and institutions in the process of economic development.
