Caroline Sarah Miller, 2017-09-19 USA Today Bestseller! One of Refinery29's Best Reads of September In this novel authorized by the Little House Heritage Trust, Sarah Miller vividly recreates the beauty, hardship, and joys of the frontier in a dazzling work of historical fiction, a captivating story that illuminates one courageous, resilient, and loving pioneer woman as never before—Caroline Ingalls, Ma in Laura Ingalls Wilder's beloved Little House books. In the frigid days of February, 1870, Caroline Ingalls and her family leave the familiar comforts of the Big Woods of Wisconsin and the warm bosom of her family, for a new life in Kansas Indian Territory. Packing what they can carry in their wagon, Caroline, her husband Charles, and their little girls, Mary and Laura, head west to settle in a beautiful, unpredictable land full of promise and peril. The pioneer life is a hard one, especially for a pregnant woman with no friends or kin to turn to for comfort or help. The burden of work must be shouldered alone, sickness tended without the aid of doctors, and babies birthed without the accustomed hands of mothers or sisters. But Caroline's new world is also full of tender joys. In adapting to this strange new place and transforming a rough log house built by Charles' hands into a home, Caroline must draw on untapped wells of strength she does not know she possesses. For more than eighty years, generations of readers have been enchanted by the adventures of

the American frontier's most famous child, Laura Ingalls Wilder, in the Little House books. Now, that familiar story is retold in this captivating tale of family, fidelity, hardship, love, and survival that vividly reimagines our past.

Children and Cultural Memory in Texts of Childhood Heather Snell, Lorna Hutchison, 2013-11-07 The essays in this collection address the relationship between children and cultural memory in texts both for and about young people. The collection overall is concerned with how cultural memory is shaped, contested, forgotten, recovered, and (re)circulated, sometimes in opposition to dominant national narratives, and often for the benefit of young readers who are assumed not to possess any prior cultural memory. From the innovative development of school libraries in the 1920s to the role of utopianism in fixing cultural memory for teen readers, it provides a critical look into children and ideologies of childhood as they are represented in a broad spectrum of texts, including film, poetry, literature, and architecture from Canada, the United States, Japan, Germany, Britain, India, and Spain. These cultural forms collaborate to shape ideas and values, in turn contributing to dominant discourses about national and global citizenship. The essays included in the collection imply that childhood is an oft-imagined idealist construction based in large part on participation, identity, and perception; childhood is invisible and tangible, exciting and intriguing, and at times elusive even as cultural and literary artifacts recreate it. *Children and Cultural Memory in Texts of Childhood* is a valuable resource for scholars of children's literature and culture, readers interested in childhood and ideology, and those working in the fields of diaspora and postcolonial studies.

Textual Transformations in Children's Literature Benjamin Lefebvre, 2013-01-04 This book offers new critical approaches for the study of adaptations, abridgments, translations, parodies, and mash-ups that occur internationally in contemporary children's culture. It follows recent shifts in adaptation studies that call for a move beyond fidelity criticism, a paradigm that measures the success of an adaptation by the level of fidelity to the original text, toward a methodology that considers the adaptation to be always already in conversation with the adapted text. This book visits children's literature and culture in order to consider the generic, pedagogical, and ideological underpinnings that drive both the process and the product. Focusing on novels as well as folktales, films, graphic novels, and anime, the authors consider the challenges inherent in transforming the work of authors such as William Shakespeare, Charles Perrault, L.M. Montgomery, Laura Ingalls Wilder, and A.A. Milne into new forms that are palatable for later audiences particularly when—for perceived ideological or political reasons—the textual transformation is not only unavoidable but entirely necessary. Contributors consider the challenges inherent in transforming stories and characters from one type of text to another, across genres, languages, and time, offering a range of new models that will inform future scholarship.
