Dragons in the Stacks Steven A. Torres-Roman, Cason E. Snow, 2014-10-17 A one-stop, complete guide to tabletop role-playing games for novice librarians as well as seasoned players. Tabletop role-playing games (RPGs) are a perfect fit for library teen services. They not only hold great appeal for teen patrons, but also help build important skills ranging from math and literacy to leadership and dramatics. Role-playing games are cost-effective too. *Dragons in the Stacks* explains why RPGs are so effective at holding teenagers' attention, identifies their specific benefits, outlines how to select and maintain a RPG collection, and demonstrates how they can enhance teen services and be used in teen programs. Detailed reviews of role-playing games are included as well, with pointers on their strengths, weaknesses, and library applications. Coauthored by an experienced young adult librarian and an adult services librarian, this is the definitive guide to RPGs in the library, and the only one currently available.

**Liminalities of Gender and Sexuality in Nineteenth-Century Iranian Photography** Staci Gem Scheiwiller, 2016-12-01 Nineteenth-century Iran was an ocularcentered society predicated on visibility and what was seen and unseen, and photographs became liminal sites of desire that maneuvered betwixt and between various social spaces—public, private, seen, unseen, accessible, and forbidden—thus mapping, graphing, and even transgressing those spaces, especially in light of increasing modernization and global contact during the nineteenth and early twentieth centuries. Of primary interest is how photographs negotiated and coded gender, sexuality, and desire, becoming strategies of empowerment, of domination, of expression, and of being seen. Hence, the photograph became a vehicle to traverse multiple locations that various gendered physical bodies could not, and it was also the social and political relations that had preceded the photograph that determined those ideological spaces of (im)mobility. In identifying these notions in photographs, one may glean information about how modern Iran metamorphosed throughout its own long durée or resisted those societal transformations as a result of modernization.

**Multiple Chemical Sensitivities** National Research Council, Division on Earth and Life Studies, Commission on Life Sciences, 1992-02-01 Use of the term multiple chemical sensitivity (MCS) as a diagnostic label has generated increasing controversy during the past few decades as a phenomenon related to exposure to chemical agents sustained both in indoor and outdoor environments. This volume, prepared in conjunction with *Biologic Markers in Immunotoxicology*, contains the

authored papers of a workshop held to develop an agenda to study the phenomenon of multiple chemical sensitivity. Authored by clinicians, immunologists, toxicologists, epidemiologists, psychiatrists, psychologists, and others involved in research or clinical activities relevant to the problem, the papers contain case evaluations and criteria for diagnosis, mechanisms potentially underlying MCS, and epidemiologic approaches to investigation.

**Dream Sorcery** Nikki Wardwell Sleath, 2025-05-08 Harness Your Dreams to Hone Your Magickal Practice Go from spectator to active magician in your dreams. Nikki Wardwell Sleath provides everything you need to both develop your lucid dreaming ability and enhance your magick while lucid. Unlike other dream guides, this book demonstrates that lucid dreaming is a metaphorical alchemy lab where you can transform your magickal practice. Within these pages are nearly forty exercises for improving your dreamtime divination, healing, energy work, spirit communication, shapeshifting, and more. While lucid dreaming, you can practice ritual actions and feel their energetic effects without the material world's constraints. This book teaches you how to activate pentagrams, glyphs, runes, and the ogham, and receive their energies firsthand. It also provides spells to cast while awake that make it easier to become lucid while asleep. Now your dreamtime can rise to new magickal heights.

**Summoners** Chris Burns, 2009 Conjuring From the Deeps There are things not of this world. Things that lurk in the margins of the universe, lying in the layers between worlds. They can hear us, see us from afar. And they can be called. Will you be one of those who bind them to their service? A Character Book for Mage: The Awakening[[ o An expanded focus on mages who summon unearthly entities as a path to power o Elaboration on ways to call on the Fallen, the Supernal, the Abyssal and things that may be even beyond such terms o Systems for otherworldly pacts, compacts, Legacies, Merits, spells and more

**Fairy Magic** Ella Summers, 2016-08-17 Half-fairy mercenary Naomi Garland has spent her whole life caught between two worlds. She's learned to depend on her sword instead of her weak magic. But when a mission to save kidnapped supernaturals in Munich goes horribly wrong, she discovers an ancient fairy magic she never knew she had: the power to navigate realms. Naomi uncovers a tear in the veil between earth and the underworld, the home realm of spirits, demons, and ghosts-and the prison of criminals banished there because they were too dangerous and demented for the earth. To stop the rising hellish army and repair the boundaries between realms, Naomi has to journey into the underworld to find a powerful ally, a dark and tempting Dragon Born mage who has been imprisoned there for seven hundred years. Fairy Magic is the first book in the Dragon Born Awakening urban fantasy series.
