Imaginative Teaching through Creative Writing Amy Ash, Michael Dean Clark, Chris Drew, 2021-03-25 Growing out of recent pedagogical developments in creative writing studies and perceived barriers to teaching the subject in secondary education schools, this book creates conversations between secondary and post-secondary teachers aimed at introducing and improving creative writing instruction in teaching curricula for young people. Challenging assumptions and lore regarding the teaching of creative writing, this book examines new and engaging techniques for infusing creative writing into all types of language arts instruction, offering inclusive and pedagogically sound alternatives that consider the needs of a diverse range of students. With careful attention given to creative writing within current standards-based educational systems, *Imaginative Teaching through Creative Writing* confronts and offers solutions to the perceived difficulty of teaching the subject in such environments. Divided into two sections, section one sees post-secondary instructors address pedagogical techniques and concerns such as workshop, revision, and assessment before section two explores hands-on activities and practical approaches to instruction. Focusing on an invaluable and underrepresented area of creative writing studies, this book begins a much-needed conversation about the future of creative writing instruction at all levels and the benefits of collaboration across the secondary/post-secondary divide.

Posthuman Capital and Biotechnology in Contemporary Novels Justin Omar Johnston, 2019-10-01 This book examines several distinctive literary figurations of posthuman embodiment as they proliferate across a range of internationally acclaimed contemporary novels: clones in Kazuo Ishiguro's *Never Let Me Go*, animal-human hybrids in Margaret Atwood's *Oryx and Crake*, toxic bodies in Indra Sinha's *Animal's People*, and cyborgs in Jeanette Winterson's *The Stone Gods*. While these works explore the transformational power of the "biotech century," they also foreground the key role human capital theory has played in framing human belonging as an aspirational category that is always and structurally just out of reach, making contemporary subjects never-human-enough. In these novels, the dystopian character of human capital theory is linked to fantasies of apocalyptic release. As such, these novels help expose how two interconnected genres of futurity (the dystopian and the apocalyptic) work in tandem to propel each other forward so that fears of global disaster become alibis for dystopian control, which, in turn, becomes the predicate for intensifying catastrophes. In analyzing these novels, Justin Omar Johnston draws attention to the entanglement of bodies in technological environments, economic networks, and deteriorating ecological settings.

Foreign Disinformation in America and the U.S. Government's Ethical Obligations to Respond Brian Murphy, 2023-04-18 The U.S. no longer has a free marketplace of ideas. Instead, the marketplace is saturated with covert foreign-backed disinformation. And despite the ethical obligations to act, successive administrations have done nothing. Additionally, the decline in trust has left the door open for populism and illiberalism to enter. Some believe the very fabric of American liberalism is at stake. So what are the ethical responsibilities of the executive branch to counter covert campaigns such as the one coming from Russian-backed disinformation circulating within the US? Why has the government failed to act? So far, the practical challenges are daunting if the executive branch addresses the threat to the homeland. The process to limit this problem is wrought with profound political implications. By its very nature, social media-based disinformation is inextricably linked with existing complex societal cleavages, the First Amendment, and politics. But the failure to do anything is a serious abdication of the government's ethical responsibilities. This raises the question of where the line is for

government intervention. This work provides answers.

Castration Desire Robinson Murphy, 2023-12-14 Theorizes an alternative form of masculinity in global literature that is less egocentric and more sustainable, both in terms of gendered and environmental power dynamics. Contemporary novelists and filmmakers like Kazuo Ishiguro (Japanese-British), Emma Donoghue (Irish-Canadian), Michael Ondaatje (Sri Lankan-Canadian), Bong Joon-ho (South Korean) and J.M. Coetzee (South African-Australian) are emblematic of a transnational phenomenon that Robinson Murphy calls "castration desire." That is, these artists present privileged characters who nonetheless pursue their own diminishment. In promulgating through their characters a less egocentric mode of thinking and acting, these artists offer a blueprint for engendering a more other-oriented global relationality. Murphy proposes that, in addition to being an ethical prerogative, castration desire's "less is more" model of relationality would make life livable where veritable suicide is our species' otherwise potential fate. "Castration desire" thus offers an antidote to rapacious extractivism, with the ambition of instilling a sustainable model for thinking and acting on an imminently eco-apocalyptic earth. In providing a fresh optic through which to read a diversity of text-types, *Castration Desire* helps define where literary criticism is now and where it is headed. *Castration Desire* additionally extends and develops a zeitgeist currently unfolding in critical theory. It brings Leo Bersani's concept "psychic utopia" together with Judith Butler's "radical egalitarianism," but transports their shared critique of phallic individualization into the environmental humanities. In doing so, this book builds a new framework for how gender studies intersects with environmental studies.

Reading Kazuo Ishiguro's Never Let Me Go Eva Pelayo Sañudo, 2025 *Reading Kazuo Ishiguro's Never Let Me Go: The Alternative Dystopian Imagination* aims to offer innovative perspectives for the analysis of Nobel-prize winner Kazuo Ishiguro's oeuvre through a focus on the genre of science fiction, particularly the novel *Never Let Me Go* (2005). The study proposes the term 'intimate dystopia' to reflect on the passage from totalitarian or external oppressive forces to more 'subtle' systems of power. Its interdisciplinary approach combines, apart from literary theory on different genres such as science fiction and memory, race studies, feminism and ecocriticism. It is based on an exhaustive critical and textual analysis that allows for a thorough and nuanced understanding of Ishiguro's multi-layered novel, covering themes such as the ethical dimensions and gender implications of caregiving, the dystopian portrayal of the environment, the significance of art in the existence of marginalized groups, and the genre-related complexities of the text--

When We Were Orphans Kazuo Ishiguro, 2001-01-16 From the winner of the Nobel Prize in Literature and author of the Booker Prize-winning novel *The Remains of the Day* comes this stunning work of soaring imagination. Born in early twentieth-century Shanghai, Banks was orphaned at the age of nine after the separate disappearances of his parents. Now, more than twenty years later, he is a celebrated figure in London society; yet the investigative expertise that has garnered him fame has done little to illuminate the circumstances of his parents' alleged kidnappings. Banks travels to the seething, labyrinthine city of his memory in hopes of solving the mystery of his own painful past, only to find that war is ravaging Shanghai beyond recognition—and that his own recollections are proving as difficult to trust as the people around him. Masterful, suspenseful and psychologically acute, *When We Were Orphans* offers a profound meditation on the shifting

quality of memory, and the possibility of avenging one's past.

The volume addresses Ishiguro's engagement with fundamental questions of humanity and personal responsibility, with aesthetic value and political valency, with the vicissitudes of memory and historical documentation, and with questions of family, home, and homelessness. Never Let Me Go Suzanne Heathcote, 2024-10-10 The first stage adaptation of Kazuo Ishiguro's heartbreaking, bestselling novel. Never Let Me Go is a gripping exploration of what it means to be human. You were brought into this world for a purpose. And your futures. All of them. Have been decided. Kathy, Ruth and Tommy were Hailsham kids. Like everyone raised at the seemingly idyllic school, they exist for a single reason. Their dreams, their desires, their love for one another: all irrelevant in a world that only values them for what they will one day give, without question or condition, to someone they have never met. And as that day grows near, Kathy looks back at her life. Memory and reality collide in Suzanne Heathcote's gripping adaptation of Kazuo Ishiguro's bestselling novel. Never Let Me Go opened at the Rose Theatre, Kingston, in September 2024.
