Quality Assurance and Certification in Ecotourism Rosemary Black, Alice Crabtree, 2007 Genuine ecotourism can have many positive impacts, particularly the conservation of biodiversity and cultural heritage and the creation of economic opportunities for local communities. While promoting these, it aims to eliminate negative impacts such as environmental degradation, cultural commoditisation and playground effects. Unfortunately, the concept is broadly misunderstood and its true definition is widely debated. It is often used as a marketing tool, with some operators taking advantage of the ecotourism label to attract more business while behaving in environmentally irresponsible ways. This book considers the important topic of quality control and accreditation in ecotourism, describing the mechanisms that can be implemented to ensure quality in all aspects of the industry, namely protected areas, businesses, products and tour guides.

Tourism, Transport and Travel Management M.R. Dileep, 2019-03-04 The terms travel and tourism are often used interchangeably in tourism literature. This comprehensive textbook provides students with essential knowledge of the intricate relationship existing between travel, transport and tourism. The book analyses the structure, functions, activities, strategies and practices of each of the sectors in the travel industry, such as airlines, airports, tour operators, travel agencies and cruises. It is structured into six parts, covering all modes of transport (air, land and water), travel intermediation, the tour operation business and impacts and prospects for the future. International case studies are integrated throughout to showcase practical realities and challenges in the travel industry and to aid students' learning and understanding. Written in an accessible and engaging style, this is an invaluable resource for students of tourism, hospitality, transport and travel management courses.
