This text requires no prior programming experience and only a modest amount of high school algebra. Choosing the enhanced eText format allows students to develop their coding skills using targeted, progressive interactivities designed to integrate with the eText. All sections include built-in activities, open-ended review exercises, programming exercises, and projects to help students practice programming and build confidence. These activities go far beyond simplistic multiple-choice questions and animations. They have been designed to guide students along a learning path for mastering the complexities of programming. Students demonstrate comprehension of programming structures, then practice programming with simple steps in scaffolded settings, and finally write complete, automatically graded programs. SON TO FATHER TO SON Ashish Srivastava, 2018-06-02 Can an unkept promise with your son and his questions take you on a roller coaster, fun filled, yet a deep hitting ride? Rajeev is a typical husband, father and son in his personal life. In his professional life he is a typical office goer, a mediocre performer, working hard yet not moving ahead in career. He lives his life by the rules of the jungle, either hunting or dodging an attack. This is the journey of transformation of Rajeev from a hunter to a seeker. His partner in this journey is his father who had given up on him long back. As Rajeev implements the teachings from his father, he encounters very hilarious yet life changing moments. When challenged by his son, Rajeev makes a connection between his current mediocre life, his mediocre grades in school and everything in his life. He remembers that his father used to slap him every time he used to get average marks, urging him to study and be the best. The last that he remembers from his father are the words when he stopped slapping him, "Life does not exist in decimals, it exists as zero or one". This is the story of Rajeev becoming what he was born to be- Rajeev, himself.
