Confessions In A Crown Vic Peter Lagomarsino, 2012-12-10 "Confessions in a Crown Vic" is the story of professional displacement during the Great Recession, an Architect as Cab driver, while seeking Architecture work. It interviews Paolo Soleri the visionary Urban design architect, and the traffic engineer, Louis Lagomarsino, for Phoenix's highways, and the author's passengers' marginalization for their lack of a car. It's a journey through an Architect's life, beginning with schooling, travels, design, internship, and practices in many genres of clientele from private to public projects for the U.S.P.S., U.S.A.F., and the U.S.A.C.O.E. It takes us through different cities and urban configurations. But most of all it takes us through history's cycles of political change, the semantics of their origins, the delivery of designs, and the affects of expansion and colonialist attitudes in America. It's a critique of Urban Sprawl, and the irrationality of relying on housing starts to determine a healthy economy. It examines Keynesian versus Classical economics, comparing them with the events of the last "American" century. He illuminates the American Dream's unsustainable promise to even its poorest citizens, considering whether we can still re-materialize that dream out of its current mythological existence. Is this dream for everyone? Can we grow a culture based on the automobile and a limited fossil fuel economy? It challenges this dream's configuration, while placing a heavy burden of responsibility for our economic demise on its mythical component, the greed that drove it, and the Sprawl that has burdened it. *The Internet Made Simple* P. K. McBride, 1999 The expansion of the Internet continues unabated. internet-ready PCs have fallen dramatically in price in recent years and are selling well, bringing the 'Net' every month to tens of thousands of new users in the UK alone. In addition, many people are gaining Internet access as businesses, schools and other organizations come online. Setting up a computer to get online used to be a fairly complex technical job. This is no longer the case. Though there will be the occasional hitch, getting online with any reasonably new PC and modern software is straightforward. The major problem faced by new users is working out what to do when they get on the 'Net' and this book intends to address that problem. requires no technical or in-depth computer knowledge applicable to almost all computer systems, but with an emphasis on Windows 95/98 fully updated throughout in a second edition

Human Perception and Digital Information Technologies Tomoko Tamari, 2024-02-29 Computational media govern our experiences by externalizing our knowledge and memories, mining data from our behaviour to influence our decision-making, and creating emotionally rewarding and sensory pleasures. But does that mean human perception is becoming a product of human-machine symbiosis in this new media ecology? This ground-breaking collection explores the ways in which digital information technologies form and influence human perception and experience. Examining the relationship between technological reductionism and the body, it takes on board discursive perspectives from the humanities and brings digital media, affect, and body studies into conversation with one another. Written by pioneering authors in the field, this book expands our understanding of human perception, animation, technology, and the body.

**The Men Who Would Be King** Nicole LaPorte, 2010-05-04 "The definitive history of the studio" created by the larger-than-life team of Spielberg, Geffen, and Katzenberg (Los Angeles Times). For sixty years, since the birth of United Artists, the

studio landscape was unchanged. Then came Hollywood's Circus Maximus—created by director Steven Spielberg, billionaire David Geffen, and Jeffrey Katzenberg, who gave the world The Lion King—an entertainment empire called DreamWorks. Now Nicole LaPorte, who covered the company for Variety, goes behind the hype to reveal for the first time the delicious truth of what happened. Readers will feel they are part of the creative calamities of moviemaking as LaPorte's fly-on-the-wall detail shows us Hollywood's bizarre rules of business. We see the clashes between the often-otherworldly Spielberg's troops and Katzenberg's warriors, the debacles and disasters, but also the Oscar-winning triumphs, including Saving Private Ryan. We watch as the studio burns through billions of dollars, its rich owners get richer, and everybody else suffers. LaPorte displays Geffen, seducing investors like Microsoft's Paul Allen, showing his steel against CAA's Michael Ovitz, and staging fireworks during negotiations with Paramount and Disney. Here is a blockbuster behind-the-scenes Hollywood story—up close, glamorous, and gritty.
