It is followed by chapters that are organized into one of four dimensions of music practice: performing, connecting, creating, and responding. Chapter authors share creative and innovative teaching ideas, for both elementary and secondary school students, that focus on a wide range of topics, including: songwriting, composing, improvising, singing, moving, playing, listening, analyzing, contextualizing, and connecting. Each chapter provides (a) a rationale for a given area of music study, establishing its importance and relevance; (b) a research or theoretical background, to inform and guide practice; and (c) a pedagogical model or framework illustrated through lesson ideas, curriculum units, or vignettes. The ideas in this book seek to inspire and guide teachers as they build comprehensive music programs that are informed by students and communities.
